ProSpa Nail & Cuticle Oil
Additional products used:
Cosmetic Brush

Decals
Scissor
Tweezer

THE STEPS

BEFORE YOU BEGIN: Prep those nails! Follow Powder Perfection prep basics.

1

Apply one coat of Powder Perfection Base Coat to one nail leaving the perimeter free. Immediately dip the nail in Powder Perfection Gemini and I.

2

Apply Powder Perfection Base Coat to the entire nail, immediately sprinkle Scorpio Seduction to the bottom third of the nail with a fluffy brush. Repeat with Feelin' Libra-ted in the center and Gemini and I at the cuticle.

3

Apply one coat of Powder Perfection Base Coat and immediately dip in Powder Perfection Clear Set Powder. Lightly brush away excess with a cosmetic brush. Apply a generous coat of Powder Perfection Activator and allow to dry 1-2 minutes (4 minutes for international)

4

Refine the shape as needed working from a Edge 180 File. Buff the nail with a Flex 100/180 Buffer and then a Flex 220/280 Buffer. Remove any loose powder with a cosmetic brush.

5

With a scissor cut gold line decal to size and place across the center of the nail, pressing smooth.

PRO TIP

Lightly brush away excess powder with a cosmetic brush between coats to prevent powder from contaminating base coat.

THE THE FINISHING TOUCH

Apply a generous coat of Powder Perfection Activator and wait 1-2 minutes (4 minutes for international). Apply two coats of Powder Perfection Top coat and wait 1-2 minutes between coats. Apply ProSpa Nail & Cuticle Oil to each nail and massage in.
