Numbers of days with traffic delays > 10 minutes	16	10	-60%	16	10

1. International passenger figures and prior corresponding period comparisons are based on airline passenger movement data for inbound and outbound services to international destinations. Figures may include estimates, with any adjustments incorporated into year-to-date results in future months.
2. Includes Domestic-on-Carriage.
3. All data is for arriving and departing international passengers. All data is taken from management accounts, is provisional and subject to revision. All data has been rounded to the nearest thousand and in some instances the total may not be equal to the sum of the parts. Percentage changes have been calculated based on actual figures.
4. The percentage of flights which departed within 0-15 mins of the scheduled off block time. First departure for the day before 9am
5. The airside movement of an aircraft from the moment it touches down on the runway to arriving at the boarding gate.
6. The time it takes for 90% of passengers to clear immigration after they disembark from their flight.

About Sydney Airport

Sydney Airport is Australia's international gateway and at the heart of the country's domestic aviation network. Part of the social and economic fabric of Sydney for more than 100 years, Sydney Airport continually strives to deliver its purpose – to be a leading global airport connecting Australia. Sydney Airport welcomes more than 40 million passengers annually, generates more than \$40 billion in annual economic activity, and supports 315,000 jobs.
