# Directors' report

for the year ended 31 December 2017

This audited general purpose financial report for the year ended 31 December 2017 covers the consolidated entity (the Group) comprising Southern Cross Airports Corporation Holdings Limited (SCACH, the Company) (ACN 098 082 029) and its controlled entities. The Group's functional and presentation currency is Australian Dollars (\$), rounded to the nearest hundred thousand.

## Directors

The names of the directors of SCACH during the period and until the date of this report are as follows:

Name	Role	Period of directorship
Trevor Gerber	Non-executive director, Chairman	Appointed director 4 January 2012, chairman 14 May 2015
Michael Lee	Non-executive director	Appointed 4 January 2012
John Roberts	Non-executive director	Appointed 15 February 2006
Stephen Ward	Non-executive director	Appointed 4 January 2012
Ann Sherry	Non-executive director	Appointed 1 May 2014
Grant Fenn	Non-executive director	Appointed 1 October 2015
Kerrie Mather <sup>1</sup>	Executive director	Appointed 27 June 2002

<sup>1</sup> On 15 January 2018, Ms Mather ceased being an Executive director.

## Director profiles of SCACH

<b>Trevor Gerber</b> <b>B Acc, CA</b> Chairman (Non-executive)	Mr Gerber was appointed as SCACH chairman on 14 May 2015. He is an independent non-executive director of the following ASX-listed entities – Tassal Group Limited since April 2012, Vicinity Centres since April 2014 and CIMIC Group Limited since June 2014. He is a former director of Regis Healthcare Limited (October 2014 – November 2017). Mr Gerber has been a professional director since 2000. He previously worked for Westfield Holdings Limited for 14 years as group treasurer and subsequently as director of Funds Management responsible for Westfield Trust and Westfield America Trust.
<b>Hon. Michael Lee</b> <b>B Sc, BE, FIE Aust</b> (Non-executive)	Mr Lee is the chairman of Communications Alliance, the peak communications industry body, director of Communications Compliance Ltd, Calvary Ministries and Catholic Schools NSW Limited. He is a former director of DUET Group (August 2004 – May 2014), Superpartners, National Film and Sound Archive and former chair of the NSW TAFE Commission Board. Mr Lee served in the Australian Parliament for 17 years and held a number of senior positions in both government and opposition, including serving as Minister for Tourism, Communications and the Arts.
<b>John Roberts</b> <b>LLB</b> (Non-executive)	Mr Roberts is a director of ASX-listed Macquarie Atlas Roads Limited since February 2010, chair of Axicom and non-executive chairman of Macquarie Infrastructure and Real Assets (MIRA) and serves on a number of boards and investment committees within MIRA, a division that has around \$100 billion of assets under management. He previously served for just over 10 years as a director of DUET Group (May 2004 – June 2015). Mr Roberts joined Macquarie Group in 1991 and previously held roles within Macquarie Group including Head of Europe, Joint Head of Macquarie Capital Advisers, Global Head of Macquarie Capital Funds (prior to it being renamed MIRA), chairman of NYSE-listed Macquarie Infrastructure Company and executive chairman of Macquarie Funds Group.
<b>Stephen Ward</b> <b>LLB</b> (Non-executive)	Mr Ward was appointed as a Sydney Airport director in February 2011 and appointed director of SAL in October 2013. Mr Ward is a non-executive director of several New Zealand companies including Sovereign Assurance Company Limited, SecureFuture Wiri Limited and Central Emergency Communications Limited. He is a member of the National Provident Fund Trust Board and holds voluntary positions on the boards of Wellington Free Ambulance, including its Investment Management Committee, and the Life Flight Trust. Mr Ward is the independent chair of the Advisory Council for the Financial Dispute Resolution Service and a consultant to Simpson Grierson, one of New Zealand's largest law firms.

# Directors' report

for the year ended 31 December 2017

<b>Ann Sherry</b> <b>AO, BA, Grad Dip</b> <b>IR, FAICD, FIPAA,</b> <b>HonDLitt Macq</b> (Non-executive)	Ms Sherry was appointed as a director of SAL in May 2014. She is the executive chairman of Carnival Australia, a division of Carnival Corporation, the world's largest cruise ship operator which owns ten iconic brands including P&O Cruises, Princess Cruises, Cunard, Holland America and Seabourn, which operate in the Australian and New Zealand cruise market. Ms Sherry is a non-executive director of ASX-listed National Australia Bank Limited since November 2017, director of Infrastructure Victoria, Australian Rugby Union, Cape York Partnerships, Museum of Contemporary Art and The Palladium Group. Ms Sherry was previously at Westpac for 12 years and was the chief executive officer of Bank of Melbourne and Westpac New Zealand and Pacific Banking.
<b>GRANT FENN</b> <b>B EC, CA</b> (Non-executive)	Mr Fenn has been the managing director and chief executive officer of ASX-listed Downer Group since July 2010. He has over 20 years' experience in operational management, strategic development and financial management.  Mr Fenn was previously a member of the Qantas executive committee, chairman of Star Track Express and a director of Australian Air Express. He has held a number of senior roles at Qantas including executive general manager of Strategy and Investments and executive general manager – Associated Businesses, responsible for the Airports, Freight, Flight Catering and Qantas Holidays businesses.
<b>Kerrie Mather</b> <b>BA, MComm</b> (Executive)	Ms Mather has been managing director and chief executive officer of Sydney Airport since June 2011 to her retirement in January 2018. Her previous role was CEO of MAP Airports, the largest global airport owner and operator from 2002 until 2011. Prior to that she was an executive director of the Macquarie Group in investment banking, with extensive experience in infrastructure and privatisations, working with both Government and private sector clients. Under her stewardship, Sydney Airport has taken a leadership role in growing tourism, and has invested significantly in expanding capacity, and delivering a substantial improvement and upgrade in passenger experience and customer service.

## Company secretary

Mr Jamie Motum B Ec, LLB was appointed as company secretary and general counsel on 23 February 2010. He is a qualified solicitor with over 15 years' experience. Prior to becoming general counsel and company secretary, Mr Motum was a partner in the Corporate Group of DLA Phillips Fox specialising in mergers and acquisitions and corporate advisory work where he began his legal career in 1996.

## Corporate structure

SCACH is a company limited by shares that is incorporated and domiciled in Australia. The SCACH consolidated financial report incorporates the following wholly-owned subsidiaries controlled by it during the year:

- Sydney Airport Corporation Limited (SACL)
- Southern Cross Airports Corporation Pty Limited (SCAC)
- Sydney Airport Finance Company Pty Limited (FinCo)
- Sydney Airport RPS Company Pty Limited (RPSCo)
- SA (F1) Pty Limited (SAF1)

All companies in the SCACH Group excluding SAF1 have entered into a deed of cross guarantee from 21 December 2007 pursuant to ASIC Corporations Instrument 2016/785 dated 29 September 2016. The consolidated income statement and statement of financial position of the entities party to the cross guarantee are presented in the note 17. The deed of cross guarantee ensures that each of the specified entities is jointly liable for the debts of all the companies party to the cross guarantee. This enables external stakeholders, such as creditors, to be able to rely on the consolidated accounts. The deed of cross guarantee can be found at [www.sydneyairport.com.au/corporate/about-us/annual-report.aspx](http://www.sydneyairport.com.au/corporate/about-us/annual-report.aspx).

# Directors' report

for the year ended 31 December 2017

## Review of operations and results

The consolidated entity earned a profit before depreciation, amortisation, net finance costs and income tax (EBITDA) of \$1,199.8 million for the year ended 31 December 2017 (2016: \$1,088.8 million).

After deducting depreciation and amortisation, net finance costs and income tax, the net gain was \$9.9 million (2016: loss of \$16.6 million). The net gain is after deducting redeemable preference share interest to shareholders and associated debt establishment costs totalling \$289.7 million (2016: \$288.0 million) which are held by the ordinary shareholders in their same proportions.

Total expenses were \$283.6 million (2016: \$275.8 million). Depreciation and amortisation costs were \$336.9 million (2016: \$305.1 million).

Net finance costs were \$712.5 million (2016: \$698.9 million) and primarily consist of interest expense payable to third parties (secured senior debt) and associated debt establishment costs totalling \$426.8 million (2016: \$437.3 million), and redeemable preference share costs totalling \$289.7 million (2016: \$288.0 million).

Management uses the above measures in comparing the Group's historical performance and believes that they provide meaningful and comparable information to users to assist in their analysis of performance relative to prior periods. EBITDA is the key component in calculating SCACH's interest coverage ratios and its distributions to shareholders, the key performance measures for debt and equity providers respectively.

Non-IFRS financial information in this Directors' Report has not been audited or reviewed by the external auditors, but has been sourced from the financial report.

## Financing metrics

The following table shows the net senior debt and selected ratios as at 31 December 2017.

	31 December 2017 \$m	31 December 2016 \$m
Gross total debt <sup>1</sup>	8,363.7	7,929.8
Less: total cash <sup>2</sup>	(271.5)	(227.7)
<b>Net debt</b>	<b>8,092.2</b>	<b>7,702.1</b>
<b>Net senior debt</b>	<b>8,092.2</b>	<b>7,702.1</b>
EBITDA (12 months historical)	1,198.9 <sup>4</sup>	1,109.8 <sup>3</sup>
<b>Net debt/EBITDA</b>	<b>6.7x<sup>4</sup></b>	<b>6.9x<sup>3</sup></b>
<b>Cash flow cover ratio<sup>5</sup></b>	<b>3.0x<sup>4</sup></b>	<b>2.7x<sup>3</sup></b>

<sup>1</sup> Gross total debt refers to principal amount drawn, refer to note 2, and excludes shareholder related borrowing (RPS) (as they are subordinated to all other creditors) and fair value hedge adjustments on foreign currency denominated bonds.

<sup>2</sup> Excludes cash held by parent (SCACH).

<sup>3</sup> EBITDA excludes WSA project costs expensed.

<sup>4</sup> Excludes EBITDA in relation to the Ibis Budget Hotel for the September 2017 quarter given transitional treatment as an Excluded Subsidiary under finance documents.

<sup>5</sup> Cash flow cover ratio is calculated using defined terms in the Group's debt documents, summarised as cash flow divided by senior debt interest expense for a rolling 12 month period.

In April 2017, the Group successfully refinanced A\$1.4 billion of existing bank debt facilities. The refinanced facilities are due to mature in April 2020 (A\$470 million), April 2021 (A\$480 million) and April 2022 (A\$450 million) and will be used to fund capital expenditure and provide liquidity.

As at 31 December 2017, there was no drawn debt due to mature until July 2018 (A\$317 million) and the Group had \$830.0 million (2016: \$1,249.0 million) in committed undrawn facilities available.

As part of the ongoing financing arrangements, the Group has received an unconditional guarantee from the parent and other members of the SCACH Group under the Security Trust Deed. Under the Security Trust Deed, each guarantor unconditionally and irrevocably guarantees the due and punctual payment of external borrowings.

FinCo's senior secured debt credit ratings assigned by Standard & Poor's / Moody's are BBB / Baa1 respectively, with Moody's upgrading the airport's credit rating to Baa1, from Baa2, on 31 January 2018.

# Directors' report

for the year ended 31 December 2017

## Independent valuation

As at 31 December 2017, the Group has net liabilities of \$3,292.7 million (2016: \$2,807.3 million). An independent valuation of the SCACH Group equity value by Deloitte as at 31 December 2017 supported an equity value that, if applied in the financial report of the Group as at 31 December 2017, would have more than absorbed the consolidated deficiency position at 31 December 2017.

The directors believe that there are no known factors that would have had a significant adverse effect on the valuation since 31 December 2017. Accordingly, the going concern basis of accounting is considered to be appropriate in the preparation of the financial report.

A new valuation will be carried out for each financial year end or as otherwise required.

## Dividends and distributions

In 2002, and subsequently, the economic equity for the SCACH Group was contributed in the form of ordinary shares issued, each stapled 1:1 to redeemable preference shares (RPS). The right to receive payments on the RPS held by ordinary shareholders is subordinated to senior debt and ordinary creditors of the Group. Under current accounting standards:

- the \$2,068.0 million carrying value of the RPS at 31 December 2017 (2016: \$2,054.7 million) is classified as borrowings rather than equity, and
- the \$276.4 million (2016: \$276.4 million) RPS interest expensed to shareholders during the period is included as interest expense rather than as a distribution of profits.

The Consolidated Statement of Comprehensive Income and Consolidated Statement of Cash Flows identify the portion of net finance costs that relate to external financing activities and shareholder related financing activities. Interest on RPS is only paid to shareholders after all other financial obligations of the Group have been met. Shareholders have no acceleration rights if interest is not paid.

	31 December 2017 \$m	31 December 2016 \$m
<b>Dividends and distributions paid</b>		
- on ordinary shares <sup>1</sup>	493.4	382.2
- on RPS <sup>1</sup>	276.4	277.1
	769.8	659.3

<sup>1</sup> Represents cash paid as per the Consolidated Statements of Cash Flows. Also refer to note 1.

In respect of the quarter ended 31 December 2017, the directors approved a final ordinary dividend of \$146.0 million (2016: \$115.1 million) and an RPS distribution of \$69.7 million (2016: \$69.7 million). These amounts were paid on 29 January 2018.

## Significant changes in the state of affairs

On 10 July 2017, the Sydney Airport Corporation Limited, a wholly-owned subsidiary of the SCACH Group, acquired 100% of the equity in SA (F1) Pty Limited (refer to note 9).

There were no other significant changes in the state of the affairs of the Group during the reporting year.

## Significant events after the balance date

On 29 January 2018 an ordinary dividend of \$146.0 million (2016: \$115.1 million) and an RPS distribution of \$69.7 million (2016: \$69.7 million) was paid for the quarter ended 31 December 2017. The final dividend has not been recognised in this financial report because it was declared after 31 December 2017.

Other than the matter referred to above, and those referred to elsewhere in the financial report, there has not been any matter or circumstance that has arisen since the end of the reporting period that has significantly affected, or may significantly affect, the operations of the Group, the results of those operations, or the state of affairs of the Group in future reporting periods.

# Directors' report

for the year ended 31 December 2017

## Environmental regulation and performance

The primary piece of environmental legislation applicable to Sydney Airport is the *Airports Act 1996* (the Airports Act) and regulations made under it, including the Airports (Environment Protection) Regulations 1997 (the Regulations).

The main environmental requirements of the Airports Act and the Regulations include:

- The development and implementation of an environment strategy;
- The monitoring of air, soil, water and noise pollution from ground-based sources (except noise from aircraft in flight, landing, taking off and taxiing and pollution from aircraft, which are excluded by the Airports Act and Regulations); and
- The enforcement of the provisions of the Airports Act and associated regulations is undertaken by statutory office holders of the Commonwealth Department of Infrastructure and Regional Development. These office holders are known as Airport Environment Officers (AEOs).
- Sydney Airport's Environment Strategy 2013 – 2018 (the Strategy) now forms part of the Sydney Airport Master Plan and was approved by the Australian Government on 17 February 2014. The Strategy was developed following an extensive community and stakeholder consultation process and outlines the plans and actions of Sydney Airport to measure, monitor, enhance and report on environmental performance over the five year period from 2013 to 2018. Sydney Airport's aims, reflected in the Strategy, are to continually improve environmental performance and minimise the impact of Sydney Airport's operations on the environment. The Strategy supports initiatives in environmental management beyond regulatory requirements. The Strategy is available for download from Sydney Airport's website ([www.sydneyairport.com.au](http://www.sydneyairport.com.au)).

Sydney Airport is not aware of any material breaches of the above regulations.

Sydney Airport provides an annual environment report to the Commonwealth Government outlining its performance in achieving the policies and targets of the Strategy and compliance with the relevant environmental legislation.

## Indemnities and insurance of officers and auditors

### Indemnities

SCACH's constitution indemnifies each officer of SCACH and its controlled entities against any liability incurred by that person as an officer unless that liability arises out of conduct involving a lack of good faith. The constitution also provides that SCACH may make a payment to an officer or employee (by way of advance, loan or otherwise) for legal costs incurred by them in defending legal proceedings in their capacity as an officer or employee.

SCACH has entered into a Deed of Access, Indemnity and Insurance with each director which applies during their term in office and after their resignation (except where a director engages in conduct involving a lack of good faith). SCACH's constitution provides that it may indemnify its auditor against liability incurred in its capacity as the auditor of SCACH and its controlled entities. SCACH has not provided such an indemnity.

### Insurance

During the reporting period and since the end of the reporting period, the consolidated entity has paid premiums in respect of a contract insuring directors and officers of the consolidated entity in relation to certain liabilities. The insurance policy prohibits disclosure of the nature of the liabilities insured and the premium paid.

During or since the year ended 31 December 2017 the company has not paid, or agreed to pay, a premium in respect of a contract insuring against a liability incurred by the auditors of SCACH and its controlled entities.

# Directors' report

for the year ended 31 December 2017

## Directors' meetings

The number of meetings of directors (including meetings of board committees) held during the year ended 31 December 2017 and the number of meetings attended by each director are as follows:

Directors		Trevor Gerber <sup>3</sup>	Michael Lee	John Roberts	Stephen Ward	Ann Sherry	Grant Fenn	Kerrie Mather
Board of Directors	H <sup>1</sup>	5	5	5	5	5	5	5
	A <sup>2</sup>	5	5	5	5	5	5	5

The Safety, Security and Sustainability Committee is no longer a committee of SCACH, but a committee of Sydney Airport Limited.

1 Number of meetings to which director was invited to attend

2 Actual attendance

3 Chairman of the SCACH Board

## Non-audit services

Details of amounts paid or payable to the auditor for non-audit services provided during the year are outlined in note 19 to the financial statements.

The directors are satisfied that the provision of non-audit services, during the period by the auditor (or by another person or firm on the auditor's behalf) is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*.

The directors are of the opinion that the services as disclosed in note 19 to the financial statements do not compromise the external auditor's independence, based on advice received from the Sydney Airport Limited Audit and Risk Committee, for the following reasons:

- All non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor, and
- None of the services undermine the general principles relating to auditor independence as set out in the Code of Conduct APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision making capacity for the Company, acting as advocate for the Company or jointly sharing economic risks and rewards.

# Directors' report

for the year ended 31 December 2017

## Lead auditor's independence declaration

The lead auditor's independence declaration required under section 307C of the *Corporations Act 2001* is included on page 10 of the financial report.

## Rounding

The amounts contained in this report and in the financial statements have been rounded to the nearest hundred thousand dollars unless otherwise indicated under the option available to SCACH under ASIC Corporations Instrument 2016/191 dated 1 April 2016.

Signed in accordance with a resolution of the directors made pursuant to section 298(2) of the *Corporations Act 2001*.  
On behalf of the directors.

# Statement by the Directors of Southern Cross Airports Corporation Holdings Limited

for the year ended 31 December 2017

1. In the opinion of the directors of Southern Cross Airports Corporation Holdings Limited (the Company):
  - a. the consolidated financial statements and notes for the SCACH Group that are set out on pages 15 to 49 are in accordance with the *Corporations Act 2001*, including:
    - i. giving a true and fair view of the SCACH Group's financial position as at 31 December 2017 and of its performance, for the financial year ended on that date; and
    - ii. complying with Australian Accounting Standards and the Corporations Regulations 2001; and
  - b. there are reasonable grounds to believe that the SCACH Group will be able to pay its debts as and when they become due and payable.
2. There are reasonable grounds to believe that the SCACH Group will be able to meet any obligations or liabilities to which it is or may become subject to by virtue of the Deed of Cross Guarantee between the Company and the group entities as identified in note 17, pursuant to ASIC Corporations Instrument 2016/785 dated 29 September 2016.
3. The directors draw attention to page 20 to the consolidated financial statements, which include a statement of compliance with International Financial Reporting Standards.

Signed in accordance with a resolution of the directors:

**Trevor Gerber**

Sydney

# Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To the Directors of Southern Cross Airports Corporation Holdings Limited

I declare that, to the best of my knowledge and belief, in relation to the audit of Southern Cross Airports Corporation Holdings Limited for the financial year ended 31 December 2017 there have been:

- i. no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- ii. no contraventions of any applicable code of professional conduct in relation to the audit.

# Independent Auditor's Report

To the shareholders of Southern Cross Airports Corporation Holdings Limited

## Opinion

We have audited the *Financial Report* of Southern Cross Airports Corporation Holdings Limited (the Company).

In our opinion, the accompanying Financial Report of the Company is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the *Group's* financial position as at 31 December 2017 and of its financial performance for the year ended on that date; and
- complying with *Australian Accounting Standards* and the *Corporations Regulations 2001*.

The *Financial Report* comprises:

- Consolidated statement of financial position as at 31 December 2017
- Consolidated statement of comprehensive income, Consolidated statement of changes in equity, and Consolidated statement of cash flows for the year then ended
- Notes including a summary of significant accounting policies
- Directors' Declaration.

The *Group* consists of the Company and the entities it controlled at the year-end or from time to time during the financial year.

## Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with the Code.

## Key Audit Matters

The *Key Audit Matters* we identified are:

- Revenue recognition and measurement
- Carrying value of intangible assets; and
- Hedging and valuation of derivatives

*Key Audit Matters* are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

These matters were addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

# Independent Auditor's Report

To the shareholders of Southern Cross Airports Corporation Holdings Limited

---

## Revenue recognition and measurement (A\$1,483.3m)

Refer to Significant Accounting Policies – ii) Revenue Recognition to the Financial Report

---

### The key audit matter

Revenue recognition was identified as a key audit matter due to the complexity of numerous different underlying contracts which we considered in determining when revenue was recognised. Varying recognition and measurement principles exist across all significant revenue streams.

Assessing revenue recognition and measurement required significant audit effort.

### How the matter was addressed in our audit

Our procedures included:

- Evaluating processes and key controls regarding the Group's revenues. We tested controls for the authorisation of a sample of new or amended contracts, and checked the contract terms to the financial systems;
- Applying data analytic techniques to each significant individual revenue stream, we compared revenue recognised against budget and prior year, and assessed the correlation to movements in passenger numbers (where relevant). We selected a sample of contracts from the data analytic results and tested the revenue recognised by comparing to relevant underlying contract terms, Group accounting policies and the criteria in accounting standards;
- Requesting and obtaining confirmations from relevant airlines for a sample of passenger numbers;
- Checking a sample of the Group's rental income straight-lining calculations for accuracy and conformity with underlying contracts.

---

## Carrying value of intangible assets (A\$3,823.2m)

Refer to Note 11 to the Financial Report

---

### The key audit matter

Carrying value of intangible assets was identified as a key audit matter due to the significant level of judgment involved in forecasting and discounting future cash flows, particularly for the significant length of time relevant to an airport operation, which form the basis for assessing whether intangible assets are impaired.

The impairment assessment of the Group's intangible assets is based on a discounted cash flow methodology, using a financial model covering a twenty year period. The model incorporates significant judgment in respect of future cash flows, discount rates, growth rates and the terminal value.

The Group engages an external expert at least annually to perform a valuation of the Group's enterprise value (including intangibles). The forecast discounted cash flows performed by the Group form the basis of the external valuation.

### How the matter was addressed in our audit

Our procedures included:

- Understanding the Group's cash forecasting process by testing the key approval controls for the internal reporting of forecast income streams and cash flows;
- Assessing the historical accuracy of forecasts by comparing to actual results, to use in our evaluation of forecasts included in the discounted cash flow model;
- Assessing the appropriateness of the future assumptions incorporated into the forecasts for alignment to the Sydney Airport Master Plan through inquiries with the Group and our industry knowledge;
- Involving our specialists we evaluated the externally prepared valuation. This included:
  - Assessing the reasonableness of the valuation approach and methodology against market and industry practices and accounting standards;
  - Comparing market related assumptions, in particular those relating to growth and discount rates, to external data such as the Inflation Target as published by the Reserve Bank of Australia;
  - Performing a sensitivity analysis on key assumptions, in particular the discount rate to assess the risk of bias or inconsistency in application; and
- Assessing the objectivity, scope, competence, experience and skills of the external expert.

# Independent Auditor's Report

To the shareholders of Southern Cross Airports Corporation Holdings Limited

## Hedging and valuation of derivatives (net: A\$225.7m)

Refer to Note 5 to the Financial Report

### The key audit matter

The valuation of derivatives and associated hedge accounting was identified as a key audit matter due to the complexities arising from the application of multiple derivatives to hedge each underlying financial instrument.

Our assessment is made more challenging given the high level of judgement involved in evaluating valuation assumptions and inputs such as yield curves and credit value adjustments.

As such, senior audit team effort and specialist involvement was required.

### How the matter was addressed in our audit

Our procedures included:

- Understanding the Group's processes and key controls for the approval of new derivative contracts;
- Obtaining hedge documentation relating to new hedge relationships and assessing it against the accounting standard requirements;
- For a sample of derivatives and hedge relationships, we agreed the inputs of each sample to confirmations we obtained from counterparties;
- Involving our specialists we assessed the valuation of a sample of derivatives. This included:
  - Re-performing a valuation and comparing this to the Group's valuation;
  - Challenging the Group's assumptions and inputs adopted in the valuation such as yield curves and credit value adjustments by comparing these key assumptions to external market data e.g. Bloomberg.

## Other Information

Other Information is financial and non-financial information in Southern Cross Airports Corporation Holdings Limited's annual reporting which is provided in addition to the Financial Report and the Auditor's Report. The Directors are responsible for the Other Information.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

## Responsibilities of the Directors for the Financial Report

The Directors are responsible for:

- preparing the Financial Report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001
- implementing necessary internal control to enable the preparation of a Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error
- assessing the Group's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

# Independent Auditor's Report

To the shareholders of Southern Cross Airports Corporation Holdings Limited

## Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the Auditing and Assurance Standards Board website at: [http://www.auasb.gov.au/auditors\\_responsibilities/ar1.pdf](http://www.auasb.gov.au/auditors_responsibilities/ar1.pdf). This description forms part of our Auditor's Report.

# Notes to the financial statements

for the year ended 31 December 2017

## General

### Basis of preparation and statement of compliance

This is the financial report for Southern Cross Airports Corporation Holdings Limited (SCACH, the Company) and its controlled entities (collectively referred to as the Group). The Group is a for-profit entity for the purposes of preparing the financial statements.

This financial report:

- Consists of the consolidated financial statements of the Group, as permitted by Australian Securities & Investments Commission (ASIC) Class Order 10/654;
- Is a general purpose financial report;
- Is prepared in accordance with *Corporations Act 2001*, Australian Accounting Standards adopted by the Australian Accounting Standards Board (AASB) and International Financial Reporting Standards (IFRS) adopted by the International Accounting Standards Board (IASB);
- Is prepared under the historical cost convention, as modified by the revaluation of certain financial assets and liabilities (including derivative instruments) at fair value through profit or loss; and
- Is presented in Australian dollars, which is the functional currency of the Group, with all values rounded to the nearest hundred thousand dollars unless otherwise stated, in accordance with ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 dated 1 April 2016.

The financial report was authorised for issue by the directors on 20 February 2018.

### Net current liability position

The SCACH Group is in a net current liability position of \$296.5 million at 31 December 2017 (2016: \$7.3 million) which is fully covered by undrawn committed bank facilities.

### Critical accounting estimates and judgements

In the process of applying the Group's accounting policies, directors have made judgements, estimates and assumptions about future events. Critical estimates and assumptions were made in relation to:

- Fair value measurement of financial instruments (refer note 2 and 4); and
- Impairment test for goodwill (refer note 11).

### Significant accounting policies

This financial report contains all significant accounting policies that summarise the recognition and measurement basis used and which are relevant to an understanding of the financial statements. Accounting policies that are specific to a note to the financial statements are described in the note to which they relate. Other accounting policies are set out below:

#### i) Principles of consolidation

The consolidated financial statements are prepared by combining the financial statements of all the entities comprising the consolidated entity, which are the Company (the parent entity) and its controlled entities as defined in Accounting Standard AASB 127: *Consolidated and Separate Financial Statements*. Controlled entities are listed in note 17 to the financial statements.

The financial statements of the subsidiaries are prepared using consistent accounting policies and for the same reporting period as their parent company. In preparing the consolidated financial statements, all intercompany balances and transactions have been eliminated in full. On 10 July 2017, the Group acquired 100% of the equity in SA (F1) Pty Limited (refer to note 9). There were no other changes to the controlled entities structure during the year.

On acquisition, the assets, liabilities and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognised as goodwill. If, after reassessment, the fair values of the identifiable net assets acquired exceed the cost of acquisition, the deficiency is credited to profit and loss in the period of acquisition.

# Notes to the financial statements

for the year ended 31 December 2017

General

## Significant accounting policies (continued)

### ii) Revenue recognition

The Group's revenue is measured at the fair value of the consideration received or receivable and recognised on the basis of the following criteria:

Revenue stream	Nature	Recognition
Aeronautical	Passenger, take-off, parking charges and exclusive first right use of infrastructure.	Revenue is recognised when the related services are provided.
Aeronautical security recovery	Passenger and checked bag screening, counter terrorist first response and other additional security measures.	
Retail	Rental from tenants whose sale activities include duty free, food and beverage, financial and advertising services.	Concessions and rental revenue are recognised on a straight-line basis over the lease term.
Property	Rental for airport property including terminals, buildings and other leased areas. Hotel accommodation and related services.	Hotel revenue is recognised when the services are provided.
Car rental	Concession charges from car rental companies.	Contingent revenue is recognised when the contingent event occurs.
Parking and ground transport	Time-based charges from the operation of car parking services. Tiered charges on ground transport services.	Revenue is recognised when the related services are provided.

All revenue is generated from external customers within Australia.

Income from interest, dividends and other distributions received from investments are measured at the fair value of the consideration received or receivable and recognised in the consolidated statement of comprehensive income.

### iii) Foreign currency transactions and balances

Foreign currency amounts are translated to the respective functional currencies of the Group entities (Australian dollars) using the following applicable exchange rates:

Foreign currency amount	Applicable exchange rate
Transactions	Date of transaction
Monetary assets and liabilities	Reporting date
Non-monetary assets and liabilities measured in terms of historical cost	Date of transaction

Foreign exchange gains and losses on translation are recognised in the consolidated statement of comprehensive income.

### iv) Fair value of financial instruments

The fair values of financial assets and financial liabilities are determined:

- In accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions; and
- Using market prices for the fair value of derivative instruments. Where such prices are not available, discounted cash flow analysis using the applicable yield curve for the duration of the instruments is used.

The directors consider the carrying amounts of financial assets and liabilities recorded in the financial statements to approximate fair value, except for fixed interest rate bonds (refer note 2).

Fair value measurements are determined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

# Notes to the financial statements

for the year ended 31 December 2017

## New standards and interpretations not yet adopted

The Group has adopted new and revised Standards and Interpretations issued by the AASB that are relevant to the Group's operations and effective for the current reporting period. The adoption of these new and revised Standards and Interpretations have not had a material impact on the Group for the year ended 31 December 2017. The accounting standards that have not been early adopted for the financial year 2017 but will be applicable to the Group in future reporting periods are detailed below:

<b>Accounting Standard Requirement</b>	<b>Impact on Financial Statements</b>
AASB 9: <i>Financial Instruments</i> AASB 9 addresses the classification, measurement and derecognition of financial assets and liabilities, and may impact hedge accounting. The standard becomes mandatory for the December 2018 financial year and will be applied prospectively.	No material impact is expected.
AASB 15: <i>Revenue from Contracts with Customers</i> AASB 15 replaces existing revenue recognition guidance and provides a comprehensive new framework for determining whether, how much and when revenue is recognised. The standard becomes mandatory for the December 2018 financial year and will be applied prospectively.	No material impact is expected.
AASB 16: <i>Leases</i> AASB 16 provides a new model for accounting for leases. Early adoption is permitted under certain circumstances. The standard becomes mandatory for the December 2019 financial year and will be applied prospectively.	No material impact is expected.

# Notes to the financial statements

for the year ended 31 December 2017

## Capital management

### Overview

The Group manages and regularly reviews its capital structure to ensure it is able to finance current and future business activities and to continue as a going concern, while optimising the debt and equity balance and returns to security holders.

The capital structure of the Group consists of:

- debt;
- cash and cash equivalents;
- issued capital;
- reserves; and
- retained earnings.

During the year ended 31 December 2017, the Group's strategy remained unchanged.

## 1 Dividends and distributions paid and proposed

### Stapled ordinary and redeemable preference shares

The economic equity for the Group is in the form of ordinary shares stapled 1:1 to redeemable preference shares (RPS) at a nominal value of \$150 each. RPS are redeemable at a premium of \$50 per RPS on 28 June 2032.

### Ordinary shareholders' entitlements

Shareholders of each fully paid ordinary share have the right to receive dividends as declared and, in the event of winding up the Company, to participate in the proceeds from the sale of surplus assets in proportion to the number of and amounts paid up on shares held. Ordinary dividends are paid only after the payment of interest on RPS.

Each fully paid ordinary share entitles its holder to one vote, either in person or by proxy, at a meeting of the Company.

### RPS shareholders' entitlements

The RPS carry an entitlement to a fixed cumulative interest at a rate of 13.5% p.a. Interest is payable quarterly, subject to availability of cash within the Group and distributable profits within SCACH. Principal and interest payments on the RPS are subordinated to other debt and ordinary creditors of the Group. RPS shareholders have no acceleration rights if interest is not paid.

# Notes to the financial statements

for the year ended 31 December 2017

Capital management

## 1 Dividends and distributions paid and proposed (continued)

Ordinary dividends paid and proposed during the year for the Group are shown in the table below:

	2017		2016	
	\$ per share	\$m	\$ per share	\$m
<i>Amounts paid in period</i>				
December quarter paid in January 2017 (2016: January 2016)	8.43	115.1	5.67	77.4
March quarter paid in April 2017 (2016: April 2016)	9.57	130.6	7.94	108.3
June quarter paid in July 2017 (2016: July 2016)	8.45	115.4	6.40	87.4
September quarter paid in October 2017 (2016: October 2016)	9.69	132.3	7.99	109.1
		493.4		382.2
<i>Amounts paid after period end</i>				
December quarter paid in January 2018 (2016: January 2017)	10.69	146.0	8.43	115.1

Total dividends attributable to the period ended 31 December 2017 were \$524.3 million (2016: \$419.9 million). These dividends were unfranked.

## 2 Interest bearing liabilities

The Group has external and shareholder related interest bearing liabilities, as follows:

### External

- Bank facilities;
- Domestic bonds (including capital indexed bonds (CIB));
- US private placement bonds (USPP);
- US144A/RegS bonds;
- Euro bond; and
- Canadian Maple bond.

### Shareholder related

- Redeemable preference shares (RPS).

The balances and other details related to the Group's interest bearing liabilities are presented in the table on the following page.

Capital management

## 2 Interest bearing liabilities (continued)

The maturity profile of interest bearing liabilities is presented in the chart below.

Drawn & Undrawn Debt December 2017

There is no debt maturing until July 2018.

### Assets pledged as security

All external interest bearing liabilities of the Group are of equal rank. The security consists of fixed and floating charges over the assets of the Group (excluding deferred tax and goodwill) and a mortgage over the Airport lease.

### Recognition and measurement

The Group recognises interest bearing liabilities on the date that they become a party to the contractual provisions of the instrument. These are initially recognised at fair value less any attributable transaction costs and subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective rate yield basis.

At 31 December 2017 and 2016, the fair value of all fixed interest rate bonds were determined based on observable market inputs, categorised as Level 2 financial instruments per the fair value measurement hierarchy.

The Group derecognises an interest bearing liability when its contractual obligations are discharged, cancelled or expired.

#### CIBs explained

Capital indexed bonds are inflation linked bonds. The principal amount of the bond is indexed against the Consumer Price Index with the revised capital amount due for repayment at maturity.

#### Effective interest rate method explained

A method of calculating the amortised cost of a financial liability, allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability.

# Notes to the financial statements

for the year ended 31 December 2017

Capital management

## 3 Cash and cash equivalents

Cash and cash equivalents include cash on hand and short-term deposits.

Deposits classified as cash equivalents are considered to be readily convertible to known amounts of cash and subject to an insignificant risk of changes in value and, at balance date, have a remaining term to maturity of three months or less. They are used for the purpose of meeting short-term cash commitments of the Group.

	2017 \$m	2016 \$m
Cash on hand	95.2	204.3
Deposits <sup>1</sup>	176.8	23.4
<b>Total cash and cash equivalents</b>	<b>272.0</b>	<b>227.7</b>
<b>Cash flow information</b>		
<b>Reconciliation of profit after tax to net cash flows from operating activities</b>		
Profit/(loss) for year	9.9	(16.6)
Non cash interest expense	47.4	46.8
Borrowing costs paid	12.6	8.6
Redeemable preference shares interest	276.4	277.1
Loss/(gain) on derivative instruments	0.2	(22.0)
Depreciation and amortisation	336.9	305.1
WSA project costs expensed	0.6	21.0
Net (gain)/loss on sale	(0.1)	0.1
Operating lease straight lining adjustment	(15.1)	(19.4)
Long term incentive share based payment expense	1.5	0.7
Business acquisition costs	1.9	-
(Increase)/decrease in receivables and other assets	(16.1)	(17.0)
Increase in payables and other liabilities	6.6	10.9
Increase in tax liabilities	140.5	101.5
<b>Net cash flow from operating activities</b>	<b>803.2</b>	<b>696.8</b>

<sup>1</sup> Included in the Group's consolidated deposit balance is \$9.8 million (2016: \$23.4 million) held by SACL which is restricted to fund maintenance capital expenditure.

# Notes to the financial statements

for the year ended 31 December 2017

## Treasury and financial risk management

### Overview

The Group's treasury operations include financing and investment activities, cash management and financial risk management. The strategic focus is to provide support to the business by maintaining the Group's financial flexibility and a minimum credit rating of BBB/Baa2.

This section explains the Group's exposure to and management of various financial risks, and their potential effects on the Group's financial position and performance. It also details finance income and costs incurred during the year.

## 4 Financial risk management

### Financial risk management framework

The Group's overall financial risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. Treasury, under policies approved by the Board, manages the Group's exposure to market risk (including foreign currency risk, inflation risk and interest rate risk), credit risk and liquidity risk.

Treasury identifies, evaluates and hedges exposures to financial risks in close co-operation with the operating units while investing excess liquidity. Speculative trading is specifically prohibited by Board policy.

### 4.1 Foreign currency risk

#### Group policy

The Group's treasury policy is to hedge 100% of foreign currency exposures related to borrowings and to hedge foreign currency exposures relating to revenue, operating expenditure and capital expenditure over certain thresholds.

The Group is primarily exposed to foreign currency risk from interest bearing liabilities denominated in foreign currencies (USD, EUR and CAD). At 31 December 2017 and 2016, these interest bearing liabilities were 100% hedged through cross currency swaps until maturity of the bonds. As a result, a strengthening or weakening of the AUD will have no impact on profit or loss or equity.

The Group's exposure to foreign currency risk, based on notional amounts were:

	2017				2016			
	CADm	EURm	USDm	Equivalent Total AUDm	CADm	EURm	USDm	Equivalent Total AUDm
Senior secured bonds	(225.0)	(700.0)	(2,725.0)	(4,378.3)	(225.0)	(700.0)	(2,725.0)	(4,378.3)
Cross currency swaps	225.0	700.0	2,725.0	4,378.3	225.0	700.0	2,725.0	4,378.3
Exposure	-	-	-	-	-	-	-	-

risk management

## 4 Financial risk management (continued)

### 4.2 Interest rate risk

The Group's interest rate risk arises primarily from interest bearing liabilities with variable interest rates, where interest rate movements can impact the Group's cash flow exposures.

#### Group policy

The Group uses interest rate swap (IRS) contracts to mitigate interest rate risk. The Group's policy is to maintain hedging arrangements in accordance with the annual bands below:

- Year 1 70%-95%
- Year 2-3 50%-75%
- Year 4-5 40%-65%

#### Interest rate swap (IRS) contracts

By entering into IRS contracts, the Group agrees to exchange the net difference between fixed rates and floating interest rate amounts (based on Australian BBSW) calculated by reference to agreed notional principal amounts. IRS settle on a quarterly basis.

All floating for fixed IRS are designated as cash flow hedges. The IRS and the interest payments on the related loan occur simultaneously and the amount deferred in equity is recognised in profit or loss over the loan period.

The fair value of IRS contracts at reporting date are determined by discounting the related future cash flows using the cash and swap curves at reporting date and credit risk inherent in the contract.

The table below details the notional principal amounts and remaining terms of floating for fixed IRS contracts outstanding at reporting date:

	Average contracted fixed interest rate <sup>1</sup>		Notional principal amount		Fair value	
	2017	2016	2017	2016	2017	2016
	%	%	\$m	\$m	\$m	\$m
1 year or less	4.65%	-	200.0	-	(0.8)	-
1 to 2 years	-	4.65%	-	200.0	-	(6.2)
2 to 5 years	3.28%	3.75%	3,207.8	1,998.5	(88.3)	(104.6)
5 years or more	3.15%	3.38%	3,896.7	1,798.6	(98.6)	(80.3)
	n/a	n/a	7,304.5	3,997.1	(187.7)	(191.1)

<sup>1</sup> The average interest rate is based on the outstanding balance at reporting date.

The weighted average cash interest rate of the Group's external interest bearing liabilities was 4.9% for year ended 31 December 2017 (2016: 5.3%).

At 31 December 2017, 93.2% (2016: 87.8%) of senior drawn borrowings (bank debt and capital markets debt) were hedged through IRS.

# Notes to the financial statements

for the year ended 31 December 2017

Treasury and financial  
risk management

## 4 Financial risk management (continued)

### Interest rate sensitivities

In reviewing interest rate sensitivities, a 150 basis point (bp) movement is used by management to assess possible changes in interest rates at reporting date.

	2017 \$m	2016 \$m
<b>Increase in interest rate +150bp</b>		
Profit/(loss) after tax	(6.0)	(10.2)
Equity	170.2	61.3
<b>Decrease in interest rate -150bp</b>		
Profit/(loss) after tax	6.0	10.2
Equity	(187.0)	(62.2)

### 4.3 Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The credit quality of financial assets are regularly monitored by management to identify any potential adverse changes.

#### Group policy

The Group's policy is that all financial institution derivative counterparties must have a minimum long-term rating of Standard & Poor's A- or Moody's A3 and deposit counterparties a minimum rating of A/A2. The Group also has policies limiting the amount of credit exposure to any single financial institution by both volume and term.

Credit risks on receivables relate to aeronautical, retail and property trade receivables at the airport asset level. These corporate counterparties have a range of credit ratings. At the date of signing the accounts, the overdue trade receivables balances were less than 5.0% (2016: less than 5.0%). Key aeronautical customers including the Qantas and Virgin Groups accounted for 40.0% to 50.0% of aeronautical revenue for year ended 31 December 2017 (2016: 40.0% to 50.0%). There are no significant financial assets that have had renegotiated terms that would otherwise, without that renegotiation, have been considered past due or impaired.

The carrying amount of financial assets recorded in the financial statements, net of any allowances for losses, represents the Group's maximum exposure to credit risk without taking into account the value of any collateral obtained.

### 4.4 Liquidity risk

Liquidity risk refers to the risk that the Group has insufficient liquidity to meet its financial obligations when they fall due.

The Group has built in appropriate liquidity management requirements as part of its financial risk management framework. Due to the capital intensive nature of the underlying business, Treasury works to achieve flexibility in funding by maintaining levels of undrawn committed bank facilities available for working capital and capital investment and maintaining capital expenditure reserve.

The table on the following page details the Group's remaining undiscounted principal and interest cash flows and their contractual maturity based on the earliest date on which the Group is required to pay.

Net derivative position	413.5	(187.8)	225.7	726.0	(191.1)	534.9

## 5 Derivative financial instruments (continued)

### Recognition and measurement

#### Hedge accounting

On initial designation of the derivative as the hedging instrument, the Group documents the relationship between the hedging instrument and hedged item, including the risk management objectives and strategy for undertaking the hedge transactions. The Group documents its assessment, both at hedge inception and on an ongoing basis, of whether the hedging instrument is expected to be highly effective in offsetting changes in fair value or cash flows of the hedged items, and whether the actual results of each hedge are in a range of 80 to 125 percent.

Derivative financial instruments are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at each reporting date. Any gains or losses arising from changes in the fair value of derivatives, except those that qualify as effective hedges, are immediately recognised in profit or loss.

When the Group designates certain derivatives to be part of a hedging relationship, and they meet the criteria for hedge accounting, the hedges are classified as either fair value or cash flow hedges.

#### Cash flow hedges

The Group's IRS are accounted for as cash flow hedges. They are used to hedge the exposure to variability in forecast cash flows where the transaction is committed or highly probable. Initial recognition of the derivative is at fair value with attributable transaction costs recognised in profit or loss as incurred. Subsequent to initial recognition, the effective portion of changes in the fair value of the derivative is recognised in other comprehensive income and presented in the cash flow hedge reserve under equity. Any ineffective portion of the derivative is recognised immediately in profit or loss.

The amount accumulated in the cash flow hedge reserve is reclassified to profit or loss in the same period that the hedged cash flow affects profit or loss. If the derivative no longer meets the criteria for hedge accounting, for example if it expires, is sold, terminated, exercised or the designation is revoked, then hedge accounting is discontinued prospectively and the balance in equity is reclassified to profit or loss when the forecast transactions are not expected to occur any more.

#### Fair value hedges

The Group's cross currency swaps are accounted for as fair value hedges. They are used to hedge the exposure to variability in the fair value of assets or liabilities that could affect profit or loss. Initial recognition of the derivative is at fair value of the hedging instrument and subsequent changes, being hedging gains or losses, are recognised in profit or loss. The carrying value of the hedged items are adjusted for the hedging gain or loss, with the adjustment being recognised in profit or loss. If the derivative no longer meets the criteria for hedge accounting, for example if it expires, is sold, terminated, exercised or the designation is revoked, then hedge accounting is discontinued prospectively and any adjustment between the carrying amount and the face value of a hedged item is amortised through profit or loss using the effective interest rate method.

#### **Critical estimates and assumptions – fair value measurement of financial instruments**

The fair value of financial instruments is estimated by management at each reporting date.

At 31 December 2017 and 2016, all derivative financial instruments were determined based on observable market inputs, categorised as Level 2.

# Notes to the financial statements

for the year ended 31 December 2017

risk management

## 6 Net finance costs

Finance costs consist of borrowing costs and the fair value adjustments of the derivative instruments.

	2017 \$m	2016 \$m
<b>Finance income</b>		
Bank interest	4.2	4.4
<b>Total finance income</b>	4.2	4.4
<b>Finance costs</b>		
Senior debt interest paid or accrued	(295.0)	(296.8)
Net swap interest expense	(95.0)	(105.7)
CIBs capitalised	(24.0)	(10.5)
Amortisation of debt establishment costs	(16.0)	(27.4)
Recurring borrowings costs paid	(6.1)	(6.5)
Borrowing costs capitalised	9.3	9.6
RPS interest paid or accrued	(276.4)	(276.4)
Amortisation of RPS debt establishment costs	(13.3)	(11.6)
<b>Total finance costs</b>	(716.5)	(725.3)
Change in fair value of swaps	(0.2)	22.0
<b>Net finance costs</b>	(712.5)	(698.9)

### Recognition and measurement

Finance income relates to the interest income on cash and loan receivable balances which are brought to account using the effective interest rate method.

Finance costs are recognised as expenses when incurred using the effective interest rate method, except where they are directly attributable to the acquisition, construction or production of qualifying assets.

### Capitalisation of borrowing costs

Finance costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use, are capitalised as part of the cost of those assets.

# Notes to the financial statements

## Financial results and financial position

### Overview

This section provides additional information about those individual line items in the financial statements that are considered relevant to the operations of the Group.

## 7 Aeronautical security recovery

The consolidated statement of comprehensive income includes both revenues and costs relating to aeronautical security recovery.

These recovery charges are in accordance with ACCC guidelines for pass-through of Government mandated security costs. The charges are levied on a per passenger basis, and are for the following services:

- International services include checked bag screening, passenger screening and additional security measures.
- Domestic services include additional security measures, Terminal 2 checked bag screening and Terminal 2 passenger screening.

Security charges are not levied on regional passenger services (other than as noted above).

Security recovery details:

	2017 \$m	2016 \$m
<i>Revenue</i>		
Security recovery	91.3	87.3
<i>Expenses</i>		
Employee benefits expense	(3.0)	(3.1)
Services and utilities	(76.2)	(70.5)
Other operational costs	(0.5)	(0.5)
Property and maintenance	(3.9)	(4.8)
<b>Total direct costs</b>	<b>(83.6)</b>	<b>(78.9)</b>
Depreciation	(5.5)	(5.8)
Borrowing costs	(2.2)	(2.6)
<b>Surplus/(deficit)</b>	<b>-</b>	<b>-</b>

### Recognition and measurement

Aeronautical security recovery is recognised based on the rendering of the above-listed services.

Security recoveries include any direct operating expenses incurred together with recovery of depreciation expense and the recovery of the costs associated with the assets employed in providing the services required.

# Notes to the financial statements

for the year ended 31 December 2017

Financial results and  
financial position

## 8 Trade and other receivables

	2017 \$m	2016 \$m
<b>Current</b>		
Trade receivables	95.3	85.2
Provision for doubtful debts	(0.1)	(0.2)
<b>Total trade receivables</b>	95.2	85.0
Accrued revenue	70.5	58.9
Other receivables	8.2	10.9
<b>Total current receivables</b>	173.9	154.8
<b>Non-current</b>		
Accrued revenue	9.3	10.2
Operating lease receivable	68.6	54.4
Other receivables	0.5	1.0
<b>Total non-current receivables</b>	78.4	65.6

Trade receivables are generally collected within 30 days of invoice date.

### Recognition and measurement

The Group's trade and other receivables are initially recognised at fair value, which approximates their carrying value. Subsequent measurement is recorded at amortised cost using the effective interest rate method, less any allowance for impairment raised for any doubtful debts based on an ongoing review of all outstanding amounts.

# Notes to the financial statements

for the year ended 31 December 2017

Financial results and  
financial position

## 9 Acquisition of a business

On 10 July 2017, Sydney Airport Corporation Limited, a 100% owned member of the Group, acquired 100% of the equity in SA (F1) Pty Limited (SAF1) for \$34.5 million in cash. SAF1 owns the Ibis Budget Hotel on Ross Smith Avenue at the Domestic precinct. The management agreement with Accor, the operators of the hotel, was retained by the Group. This acquisition is part of Sydney Airport's hotel strategy to provide passengers choice in seeking convenient access to Sydney Airport.

### Purchase consideration

The total purchase consideration was \$34.5 million, paid in cash.

Due diligence activities and stamp duty costs relating to the acquisition of \$1.9 million were expensed.

### Identifiable assets acquired and liabilities assumed

The fair values of the assets and liabilities of SAF1 at acquisition date are:

	<b>\$m</b>
Receivables	0.1
Other assets	0.4
Property, plant and equipment	26.5
Payables	(0.5)
Deferred tax liability	(4.4)
<b>Total identifiable net assets acquired</b>	<b>22.1</b>

### Goodwill

Goodwill arising from the acquisition of \$12.4 million has been recognised:

	<b>\$m</b>
Gross purchase consideration	34.5
Fair value of identifiable net assets acquired	(22.1)
<b>Goodwill recognised</b>	<b>12.4</b>

### Revenue and EBITDA contribution

From the date of acquisition to 31 December 2017, revenue of \$4.6 million and EBITDA of \$2.3 million were included in profit and loss.

If the acquisition had occurred on 1 January 2017, annualised revenue of \$9.5 million and EBITDA of \$4.9 million would have been recognised for the year ended 31 December 2017.

1 Includes capitalised borrowing costs of \$9.3 million (2016: \$9.6 million).

2 Additions in 2016 are net of \$21.0 million WSA project costs expensed. The 2017 WSA costs of \$0.6 million were expensed as incurred.

3 Additions of \$26.5 million relate to the fair value of property, plant and equipment on acquisition of SAF1 (refer note 9).

### Capital expenditure commitments

At reporting date, the Group had capital expenditure commitments of \$123.7 million (2016: \$103.4 million).

# Notes to the financial statements

for the year ended 31 December 2017

Financial results and  
financial position

## 10 Property, plant and equipment (continued)

### Recognition and measurement

The Group recognises items of property, plant and equipment at cost which includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials, direct labour, capitalised borrowing costs and any other costs directly attributable to bringing the assets to a working condition for their intended use.

The subsequent measurement of items of property, plant and equipment is at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation of property, plant and equipment is on a straight-line basis in profit or loss over the estimated useful lives of each component, from the date that they are installed and ready for use, or in respect of internally constructed assets, from the date that the assets are completed and ready for use.

Subsequent expenditure is capitalised only when it is probable that future economic benefits will flow to the Group. Ongoing repairs and maintenance are expensed as incurred.

## 11 Intangible assets

	Goodwill	Airport operator licence	Leasehold land	Total

<sup>1</sup> Additions to goodwill resulted from the SAFI acquisition (refer note 9).

### Intangible assets items explained

The Commonwealth of Australia granted Sydney Airport Corporation Limited, a wholly-owned subsidiary of SAL, a 50 plus 49 year lease of land and granted it an airport operator licence.

Leasehold land and the airport operator licence have been recognised at their cost of acquisition by reference to the purchase consideration and independent valuation.

## 11 Intangible assets (continued)

### Recognition and measurement

Except for goodwill, the Group recognises intangible assets at cost directly attributable to the acquisition of the asset. The subsequent measurement of intangible assets is at cost less accumulated amortisation and any accumulated impairment losses. Amortisation is accounted for on a straight-line basis in profit or loss over the assets' estimated useful lives from the date they are available for use.

Goodwill arises on acquisition of a business. It is subsequently measured at cost less accumulated impairment losses and tested for impairment annually.

### Impairment of intangible assets

The carrying amounts of the Group's intangible assets other than deferred tax assets are reviewed at each reporting date to determine any indication of impairment. Assets with finite lives are subject to amortisation and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Assets that have an indefinite useful life (including goodwill) are not subject to amortisation and are tested for impairment annually or more frequently if events or changes in circumstances indicate that they may be impaired.

An impairment loss is recognised in profit and loss for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the greater of its fair value less costs to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows - cash generating units (CGU).

Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU and then to reduce the carrying amounts of other assets in the CGU on a pro-rata basis.

An impairment loss in respect of goodwill is never reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

For year ended 31 December 2017 no intangible assets were impaired (2016: nil).

### Critical estimates and assumptions - impairment test for goodwill

Assessing value in use requires directors to make significant estimates and assumptions.

Goodwill has been allocated to the Group's CGU, identified as being the investment in Sydney Airport. Discounted cash flow methodology has been adopted to value the Group's investment. Under this methodology, estimated cash flows are discounted to their present value using a post-tax discount rate. The discount rate used reflects current market assessment of the time value of money and the risks specific to Sydney Airport as CGU.

The cash flows used are projected based on a Financial Model covering a twenty year period, as follows:

- Cash flows for the first five years are based on a detailed bottom-up business planning process referencing historical performance and the Group's views on key drivers
- Long-term cash flows to equity after year five are extrapolated consistent with an average growth rate that is consistent with the forecast Australian Gross Domestic Product, and
- Terminal value is calculated as a multiple of EBITDA in the twentieth year.

Cash flows are discounted using a post-tax discount rate calculated based on the Capital Asset Pricing Model (CAPM). The Group takes into account historical and related market data in estimating individual components of the CAPM. An increase of approximately twenty percentage points in the risk premium (a component of the discount rate) would not result in an impairment of goodwill.

Other key assumptions used in the fair value less costs to sell calculation include international and domestic passenger numbers and inflation. Total passenger numbers were 43.3 million for year ended 31 December 2017 (2016: 41.9 million) and experienced growth of 3.6% during 2017 (2016: 5.6%). Average long-term inflation rates are assumed to be within the Reserve Bank of Australia (RBA) target range.

The valuation derived from this discounted cash flow methodology is benchmarked to other sources such as the ASX-listed Sydney Airport security price, analyst consensus and recent market transactions to ensure the valuation provides a reliable value in use measure.

# Notes to the financial statements

for the year ended 31 December 2017

Financial results and  
financial position

## 11 Intangible assets (continued)

### Valuation of Sydney Airport

As at 31 December 2017, the Group had net liabilities of \$3,292.7 million (2016: \$2,807.3 million). An independent valuation of the SCACH Group equity value by Deloitte as at 31 December 2017 supported an equity value that, if applied in the financial report of the Group as at 31 December 2017, would have more than absorbed the consolidated deficiency position at 31 December 2017.

## 12 Taxation

### Income tax expense

Reconciliation of tax expense to prima facie tax payable:

	2017 \$m	2016 \$m
Profit/(loss) before income tax	150.4	84.8
Income tax (expense)/benefit calculated at 30%	(45.1)	(25.4)
Expenses that are not deductible	(94.8)	(97.8)
Change in recognised deductible temporary differences	(1.3)	0.9
Utilisation of previously unrecognised deferred tax asset on capital tax losses	0.5	-
Adjustments recognised in the current year that relate to the prior year <sup>1</sup>	0.2	20.9
<b>Income tax expense reported in the income statement</b>	<b>(140.5)</b>	<b>(101.4)</b>

<sup>1</sup> The net adjustments in 2016 relate to amendments made to the tax calculations prepared when the SCACH group joined the SAL tax consolidated group.

### Deferred taxes

The movements in deferred tax balances for the Group are shown in the tables below.

	Balance 1 January 2016 \$m	Temporary movements recognised \$m	Balance 31 December 2016 \$m	Temporary movements recognised \$m	Balance 31 December 2017 \$m
Deferred assets/(liabilities):					
Property, plant and equipment	(239.7)	22.7	(217.0)	(3.5)	(220.5)
Deferred debt establishment costs	(7.5)	5.0	(2.5)	1.3	(1.2)
Accrued revenue and prepayments	(12.2)	(5.5)	(17.7)	(4.8)	(22.5)
Defined benefits plan <sup>1</sup>	(1.9)	0.2	(1.7)	(0.3)	(2.0)
Deferred income	0.1	-	0.1	-	0.1
Other payables	12.9	2.6	15.5	0.4	15.9
Cash flow hedges <sup>2</sup>	44.3	(1.6)	42.7	15.0	57.7
Interest bearing liabilities	16.8	(1.7)	15.1	(0.1)	15.0
<b>Total<sup>3</sup></b>	<b>(187.2)</b>	<b>21.6</b>	<b>(165.6)</b>	<b>8.0</b>	<b>(157.5)</b>

<sup>1</sup> \$0.3 million (2016: \$0.2 million) was charged to Equity.

<sup>2</sup> \$16.6 million (2016: \$1.7 million) was charged to Equity.

<sup>3</sup> Tax losses of \$11.6 million (2016: \$147.6 million) were transferred to Non-current other assets.

The balance at 31 December 2017 includes \$4.4 million deferred tax liability recognised on business acquisition. Refer note 9.

## 12 Taxation (continued)

---

### Recognition and measurement

Tax expense comprises of current and deferred tax expense recognised in the profit and loss except where related to items recognised directly in equity. Tax expense is measured at the tax rates that have been enacted or substantially enacted based on the national tax rate for each applicable jurisdiction at the reporting date.

Current tax is the expected tax payable or receivable on taxable income or loss for the year and any adjustment in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities.

Deferred tax assets and liabilities arise from timing differences between the recognition of gains and losses in the financial statements and their recognition in the tax computation. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset. These are recognised only to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realised.

SCACH and its wholly owned Australian subsidiaries are part of the Sydney Airport Limited (SAL) tax-consolidated group (TCG) under Australian income tax law, with SAL the head entity. Each entity in the SAL TCG accounts for current and deferred tax with tax expense and deferred tax assets and liabilities arising from temporary differences recognised in their separate financial statements using the 'standalone tax payer' approach. Under the tax sharing agreement between SAL TCG entities, amounts are recognised as payable to or receivable by each member of the SAL TCG in relation to the tax contribution amounts paid or payable between SAL and members of the SAL TCG. Any tax losses and current tax liabilities from subsidiaries are transferred to SAL.

# Notes to the financial statements

for the year ended 31 December 2017

## Employee benefits

### Overview

The Group aims to attract, retain and motivate high performing individuals and has various compensation and reward programs in place for employees and management, which are detailed in this section.

## 13 Key management personnel

The remuneration structure of key management personnel (KMP) and other executives comprises of:

- Fixed annual remuneration (FAR), consisting of base salary and benefits inclusive of the minimum regulatory superannuation contribution; and
- At risk remuneration (ARR), being the components which are variable and directly linked to the delivery of individual key performance targets and Sydney Airport's key financial and business objectives.

In the event of termination of KMP with cause, there is no termination payment except for their statutory entitlements.

The CEO's contract allows for the payment of 12 months FAR. Termination without cause results in outstanding deferral elements being payable on their original schedule. Resignation or termination with cause results in the outstanding deferral element being forfeited. The Board has the overriding discretion in relation to treatment upon termination. Any termination payment to the CEO is subject to the statutory requirements under the Corporations Act.

For other executives, termination without cause results in outstanding deferral elements being payable. Termination with cause results in outstanding deferral elements being forfeited. In the case of resignation, the deferral elements are forfeited unless there is specific provision within the employment contract. The Board has the overriding discretion in relation to treatment upon termination.

KMP compensation for the Group comprised the following:

	2017 \$	2016 \$
Short term employee benefits - salary and fees	3,425,068	3,385,315
Short term employee benefits - bonus	2,682,379	1,551,751
Post employment benefits - superannuation	56,331	66,597
Share based payments - LTI	1,129,225	519,625
<b>Total KMP compensation</b>	<b>7,293,003</b>	<b>5,523,288</b>

## 14 Long Term Incentive Plan

Sydney Airport put in place a Long Term Incentive Plan (LTIP) to provide an incentive for certain management personnel, linking their remuneration to Sydney Airport's long-term financial performance and security holder returns.

Under the LTIP, the Board has granted contractual rights (Rights) to receive Sydney Airport stapled securities at a future date subject to the following performance conditions being satisfied:

- One third of the Rights granted are based on a market comparative Total Shareholder Return performance condition (TSR tranche);
- One third of the Rights granted are based on cash flow per stapled security performance conditions (CPS tranche); and
- One third of the Rights granted is at the Board's discretion including metrics and performance conditions specific to each individual taking into account such elements as operational aspects of performance, people and leadership, customer satisfaction and delivery of financial outcomes (Other tranche).

# Notes to the financial statements

for the year ended 31 December 2017

Employee benefits

## 14 Long Term Incentive Plan (continued)

### Fair value calculations

Performance conditions are measured over a three year period. Performance rights do not have distribution entitlements during the vesting period. If a participant resigns, or has their employment terminated with cause, all their unvested rights will immediately lapse. If a participant's employment ends by reason of an uncontrollable event (as defined in the LTI plan) they are entitled to a pro-rata number of their unvested rights or it may be cash settled at the Board's discretion.

Any rights that vest are expected to be satisfied by way of the transfer of stapled securities purchased on-market.

### Recognition and measurement

Equity-settled share-based transactions are measured at fair value at the date of grant. The cost of these transactions are recognised in the profit or loss and credited to equity over the vesting period. At each balance sheet date, the Group revises its estimates of the number of rights that are expected to vest for service and non-market performance conditions. The expense recognised each year takes into account the most recent estimate.

The fair value of rights granted for each tranche is described below:

- The TSR tranche was determined at grant date using the Monte Carlo model;
- The CPS tranche was determined at grant date using the binomial option pricing model; and
- The Other Tranche will be remeasured each year until vesting as the grant date for this tranche has not been reached. The Board will determine what proportion (if any) of the rights will vest, having regard to individual and company performance.

The Board granted the following rights in 2017:

<b>LTI Series 2017 - 2019</b>			
<b>Condition</b>	<b>Number of rights</b>	<b>Grant Value</b>	<b>Vesting date</b>
TSR tranche	54,941	\$4.24	February 2020
CPS tranche	54,941	\$6.37	February 2020
Other tranche	54,941	\$6.04	February 2020

The Board granted the following rights in 2016:

<b>LTI Series 2016 - 2018</b>			
<b>Condition</b>	<b>Number of rights</b>	<b>Grant Value</b>	<b>Vesting date</b>
TSR tranche	97,236	\$3.75	February 2019
CPS tranche	97,236	\$6.27	February 2019
Other tranche	97,236	\$6.11	February 2019

The Board granted the following rights in 2015:

<b>LTI Series 2015 - 2017</b>			
<b>Condition</b>	<b>Number of rights</b>	<b>Grant Value</b>	<b>Vesting date</b>
TSR tranche	112,961	\$2.69	21 February 2018
CPS tranche	112,961	\$4.60	21 February 2018
Other tranche	112,961	\$6.87	21 February 2018

# Notes to the financial statements

for the year ended 31 December 2017

Employee benefits

## 15 Superannuation plan

Group employees are entitled to varying levels of benefits on retirement, disability or death through the Sydney Airport Superannuation Plan (the Plan). The Plan consists of a defined benefit plan, available only to existing members, which is fully funded and provides lump sum or pension benefits based on years of service and final average salary; and a defined contribution plan, available to all Sydney Airport employees. The Plan also provides accumulation style benefits for the Superannuation Guarantee Charge and Members' Contributions. Employees contribute to the Plan at various percentages of their remuneration. Contributions by the Group of 9.5% of employees' remuneration are legally enforceable in Australia and for the year ended 31 December 2017 amounted to \$4.5 million (2016: \$4.2 million).

The following table discloses the Group's details pertaining to the defined benefit plan.

	2017 \$m	2016 \$m
<b>Amounts recognised in Consolidated statement of comprehensive income in respect of defined benefit plans:</b>		
Current service costs	(1.5)	(1.6)
Interest income	0.2	0.2
Total included in employee benefit expense	(1.3)	(1.4)
Remeasurement gains/(losses) recognised in other comprehensive income	1.1	(0.5)
<b>The amounts included in the Consolidated balance sheet arising from the Groups' obligations in respect of its defined benefit plans were:</b>		
Present value of defined benefit obligations	(24.7)	(23.3)
Fair value plan assets <sup>1</sup>	31.5	29.0
<b>Net asset arising from defined benefit obligations</b>	<b>6.8</b>	<b>5.7</b>

<sup>1</sup> Plan assets include investments in unquoted securities of \$18.6 million (2016: \$17.4 million).

### Recognition and measurement

#### Defined contribution plan

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which services are rendered by employees. Prepaid contributions are recognised as an asset to the extent that a cash refund or reduction in future payments is available.

#### Defined benefit plan (DBP)

The net obligation in respect of DBP is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. The fair value of any plan assets is deducted. The Group determines the net interest expense or income on the net defined benefit liability or asset for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the net defined benefit liability or asset.

# Notes to the financial statements

for the year ended 31 December 2017

Employee benefits

## 15 Superannuation plan (continued)

The discount rate is the yield at the reporting date on corporate bonds that have maturity dates approximating the terms of the Group's obligations and that are denominated in the same currency in which the benefits are expected to be paid. The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Group, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements that apply to any plan in the Group. An economic benefit is available to the Group if it is realisable during the life of the plan, or on settlement of the plan liabilities.

The principal actuarial assumptions used in determining the Plan liability and sensitivities were:

	2017	2016
Discount rate	3.5%	3.9%
Future salary increases	3.5%	3.5%

	0.5% increase	0.5% decrease
Discount rate (\$m)	(1.1)	1.2
Future salary increases (\$m)	1.0	(0.9)

Remeasurements arising from DBP comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest). The Group recognises them immediately in other comprehensive income and all other expenses related to DBP in employee benefit expenses in profit or loss.

When the benefits of a plan are changed, or when a plan is curtailed, the portion of the changed benefit related to past service by employees, or the gain or loss on curtailment, is recognised immediately in profit or loss when the plan amendment or curtailment occurs.

The Group recognises gains and losses on the settlement of a DBP when the settlement occurs. The gain or loss on a settlement is the difference between the present value of the defined benefit obligation being settled as determined on the date of settlement and the settlement price, including any plan assets transferred and any payment made directly by the Group in connection with the settlement.

# Notes to the financial statements

for the year ended 31 December 2017

## Other disclosures

### Overview

This section provides details on other required disclosures relating to the Group to comply with accounting standards and other pronouncements.

## 16 Trade and other payables

	2017 \$m	2016 \$m
Trade and other payables	155.1	134.1
Accrued interest	109.4	108.3
Unearned revenue	42.9	39.5
<b>Total trade and other payables</b>	<b>307.4</b>	<b>281.9</b>

Trade payables and other payables are non-interest bearing and are normally settled on 30 day terms.

### Recognition and measurement

The Group's trade and other payables are initially recognised at fair value, which are estimated to approximate their carrying value, and are subsequently measured at amortised cost using the effective interest rate method, which is also estimated to approximate fair value.

## 17 Group structure and parent entity

### Group structure and corporate information

SCACH is the parent entity of the Group that has 100% equity interest in the following subsidiaries:

- Sydney Airport Corporation Limited (SACL)
- Southern Cross Airports Corporation Pty Limited (SCAC)
- Sydney Airport Finance Company Pty Limited (FinCo)
- Sydney Airport RPS Company Pty Limited (RPSCo)
- SA (F1) Pty Limited (SAF1)

All subsidiaries are incorporated in Australia. SAF1 is a 100% owned member of the SCACH Group, acquired in July 2017. There was no other change to other ownership interest from 31 December 2016.

The registered office and principal place of business of SCACH is:

10 Arrivals Court  
Sydney International Airport  
Mascot NSW 2020

### Deed of cross guarantee

Pursuant to ASIC Corporations (Wholly-owned Companies) Instrument 2016/785 (the Instrument) the wholly-owned subsidiaries listed on the following page are relieved from the Corporations Act 2001 requirements for preparation, audit and lodgement of financial reports, and Directors' reports.

It is a condition of the Instrument that the parent entity and each of the subsidiaries enter into a deed of cross guarantee (the Deed). The effect of the Deed is that the parent entity guarantees to each creditor payment in full of any debt in the event of winding up of any of the subsidiaries under certain provisions of the Corporations Act 2001. If a winding up occurs under other provisions of the Act, the parent entity will only be liable in the event that any creditor has not been paid in full. The subsidiaries have also given similar guarantees in the event that the parent entity is wound up.

# Notes to the financial statements

for the year ended 31 December 2017

Other disclosures

## 17 Group structure and parent entity (continued)

The entities subject to the Deed are:

- Southern Cross Airports Corporation Holdings Limited (SCACH)
- Sydney Airport Corporation Limited (SACL)
- Southern Cross Airports Corporation Pty Limited (SCAC)
- Sydney Airport Finance Company Pty Limited (FinCo)
- Sydney Airport RPS Company Pty Limited (RPSCo)

The SCACH Group consolidated financial statements include SA (F1) Pty Limited (SAF1), an entity acquired in July 2017 that is not party to the Deed. Consolidated information in respect of the SCACH Group that is part of the Deed is set out as follows:

	2017 \$m
<b>SCACH Group excluding SAF1</b>	
<b>Result of the SCACH Group excluding SAF1</b>	
Profit/(loss) after income tax expense	9.6
Other comprehensive (loss)/income	(37.9)
<b>Total comprehensive income for the year</b>	<b>(28.3)</b>
<b>Financial position of the SCACH Group excluding SAF1</b>	
Current assets	452.9
<b>Total assets</b>	<b>8,395.6</b>
Current liabilities	752.9
<b>Total liabilities</b>	<b>11,691.8</b>
<b>Total equity of the SCACH Group excluding SAF1</b>	
Issued capital	1,532.3
Cash flow hedge reserve	(201.1)
Accumulated losses	(4,627.4)
<b>Total equity</b>	<b>(3,296.2)</b>

# Notes to the financial statements

for the year ended 31 December 2017

Other disclosures

## 17 Group structure and parent entity (continued)

### SCACH parent entity financial result and position

	2017 \$m	2016 \$m
<b>Result of the parent entity</b>		
Profit/(loss) after income tax expense	1,361.6	1,086.8
Other comprehensive (loss)/income	-	-
<b>Total comprehensive income for the year</b>	1,361.6	1,086.8
<b>Financial position of the parent entity</b>		
Current assets	1,820.0	1,598.1
<b>Total assets</b>	14,954.8	13,466.1
Current liabilities	3,495.3	2,924.1
<b>Total liabilities</b>	5,563.3	4,978.8
<b>Total equity of the parent entity comprising of:</b>		
Issued capital	1,532.3	1,496.3
Retained earnings	7,859.2	6,991.0
<b>Total equity</b>	9,391.5	8,487.3

The ultimate parent entity and Australian parent entity of SCACH is Sydney Airport Limited (SAL).

### Parent entity guarantees, commitments and contingencies

At 31 December 2017 the parent entity:

- Has no contingent assets or liabilities which are material either individually or as a class other than disclosed in note 20; and
- Has not made any capital expenditure commitments (2016: \$nil).

No liability was recognised by the parent entity in relation to the Deed as the fair value of the guarantee is immaterial.

## 18 Related party disclosures

### Loans from SCACH to SCAC

Loans granted by SCACH to SCAC are repayable on 30 June 2048. Interest on the loan is charged at 18.0% per annum and interest on unpaid interest is charged at 19.0% per annum. These rates were set as at the date of establishment of the intercompany loan to approximate the required rate of return for what is notionally the equity in Sydney Airport based on other relevant benchmarks.

For the year ended 31 December 2017 and 31 December 2016, the Group has not raised any allowance for doubtful debts relating to these loans as the payment history of the interest charges is strong. This assessment is undertaken at each reporting period through examining the financial position of SCAC and the market in which the entity operates.

### Resources Agreement Fee

SACL and The Trust Company (Sydney Airport) Limited (TTCSAL) entered into a Resources Agreement under which SACL provides resources to enable TTCSAL to perform various functions in connection with its role as Responsible Entity of SAT1 and one of its subsidiaries SAT2. Fees are charged from SACL to TTCSAL for resources provided, calculated per the relevant provisions in the Resources Agreement. There were \$112,381 fees charged by SACL to TTCSAL for year ended 31 December 2017 (2016: \$97,910) and \$60,000 remains unpaid at 31 December 2017 (2016: \$20,005).

### Transactions with entities with joint-control or significant influence over the Group

A number of directors of SCACH also hold directorships on the Board of Directors of related companies. Transactions between the Group and related entities are stated above. SCACH's directors do not derive any direct personal benefit from the transactions between the Group and these businesses.

# Notes to the financial statements

for the year ended 31 December 2017

Other disclosures

## 18 Related party disclosures (continued)

### Transactions with other related parties

SACL entered into contracts with wholly owned subsidiaries of Downer EDI Ltd. Grant Fenn is NED of Sydney Airport Limited and is CEO of Downer EDI Ltd. The contracts were made following a competitive tender process and at arm's length. These are detailed below:

Entity	Contract Value \$	Amounts paid during the financial year ended 31 December 2017 \$
Downer EDI Works Pty Ltd	32,855,113	11,438,682

## 19 Remuneration of auditors

	2017 \$	2016 \$
Amounts paid or payable to auditors (KPMG) for:		
Audit and review of financial statements	406,500	400,500
Other services		
- Advisory services	-	333,023
- Other assurance services	126,555	494,573
<b>Total amount paid or payable to auditors</b>	<b>533,055</b>	<b>1,228,096</b>

Advisory services in 2016 related mainly to WSA during the Notice to Consult phase. Other assurance services in 2017 and 2016 included amounts charged for work relating to the refinancing of senior debt and the provision of accounting assistance.

## 20 Contingent assets

Future minimum rentals are receivable under non-cancellable operating leases. The associated revenue will be recognised on a straight-line basis over the lease term in future periods. These are as follows:

	2017 \$m	2016 \$m
Receivable within one year	373.8	353.9
Receivable later than one year but no later than five years	1,029.8	1,219.3
Receivable after five years	51.3	279.3
	<b>1,454.9</b>	<b>1,852.5</b>

## 21 Events occurring after balance sheet date

On 29 January 2018 an ordinary dividend of \$146.0 million (2016: \$115.1 million) and an RPS distribution of \$69.7 million (2016: \$69.7 million) was paid for the quarter ended 31 December 2017. The final dividend has not been recognised in this financial report because it was declared after 31 December 2017.

The directors are not aware of any other matter or circumstance not otherwise dealt with in the financial report that has significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in the period subsequent to the year ended 31 December 2017.
