Numbers of days with traffic delays > 10 minutes	5	40	-87.5%	10	43

ENDS

1. Due to data availability, all international passenger numbers (including PCP, prior corresponding period comparisons) are based on Confirmed Airline Passenger (CAP) data. As per previous information releases, these figures may contain estimates with any adjustments to preliminary statistics included in the year-to-date results in future months.
2. Includes Domestic-on-Carriage.
3. The percentage of flights which departed within 0-15 mins of the scheduled off block time. First departure for the day before 9am.
4. The airside movement of an aircraft from the moment it touches down on the runway to arriving at the boarding gate.
5. The time it takes for 90% of passengers to clear immigration after they disembark from their flight.

Sydney Airport is Australia's international gateway and at the heart of the country's domestic aviation network. Part of the social and economic fabric of Sydney for more than 100 years, Sydney Airport continually strives to deliver its purpose – to be a leading global airport connecting Australia. Sydney Airport welcomes more than 40 million passengers annually, generates more than \$42 billion in annual economic activity, and supports 336,000 jobs.
