

South-South-East Sector

South-South-East Sector

Developable Land Area

Up to 250,000sqm

Suitable Future Uses

Industrial, warehouse, hardstand.

Max Building Height

Various (range from 5-25m depending on location)

SYD
Sydney Airport

The last largely undeveloped sector of the airport, with significant potential for development into an industrial estate.

- Accessed from northbound Foreshore Road, with exit via slip road onto southbound airport ring road.
- Currently the sector consists of a mix of undeveloped land and parcels of industrial hardstand.
- We are exploring ways to unlock the entire sector for development beyond hardstand and to clear the undeveloped areas.
- All uses will be considered although the location lends itself to industrial uses.
- Lots are capable of being combined or subdivided as desired.
