Numbers of days with traffic delays > 10 minutes	8	17	-52.9%	24	27

1. International passenger figures and prior corresponding period comparisons are based on airline passenger movement data for inbound and outbound services to international destinations. Figures may include estimates, with any adjustments incorporated into year-to-date results in future months.
2. Includes Domestic-on-Carriage.
3. All data is for arriving and departing international passengers. All data is taken from management accounts, is provisional and subject to revision. All data has been rounded to the nearest thousand and in some instances the total may not be equal to the sum of the parts. Percentage changes have been calculated based on actual figures.
4. The percentage of flights which departed within 0-15 mins of the scheduled off block time. First departure for the day before 9am
5. The airside movement of an aircraft from the moment it touches down on the runway to arriving at the boarding gate.
6. The time it takes for 90% of passengers to clear immigration after they disembark from their flight.

ENDS

About Sydney Airport

For more than 100 years, Sydney Airport has connected Australia with the world, supporting trade, tourism and economic growth. Today, more than 42 million passengers travel through the airport each year, generating more than \$40 billion in annual economic activity and supporting approximately 355,000 jobs. As demand grows, Sydney Airport is investing in innovation, technology and service efficiency to support its long-term growth and prepare for more than 72 million passengers annually by 2045.
