

A chance to establish or enhance your presence at Sydney Airport

Hangar 708

- State-of-the-art new hangar capable of housing a Boeing 737-800¹ or multiple private jets.
- Under construction and scheduled for completion in early 2027.
- 2,283sqm main hangar space plus 926sqm of office, storage and workshop spaces.
- 2,000sqm space for on-grade car park.

Hangar 3

- A living piece of airport history, in continuous use since the 1940s.
- 3,916sqm Gross Internal Area.
- Significant refresh and remediation works scheduled to support continued occupation of this key site.

SYD

¹Based on hangar dimensions. Subject to final door design. Pavement strength may limit maximum aircraft weight and testing is underway to establish tolerances. In addition, taxi lines on approach have a wingspan limit of 32m, although SYD is open to increasing this to accommodate larger wingspans.
