

Linamix®

GRAIN FREE
graanvrij • sans céréales • getreidefrei
FORMULATED

Linamix®

For improved condition
Rich in antioxidants
Slow-release sugars

EQUIFIRST
feeding your dream

Linamix® is an extruded (processed under pressure) linseed supplement with added chicory pulp, slow sugars (EquiSweet), vitamin E and selenium. The product is suitable as a feed supplement. This **grain-free** 'Top-Feeding' provides especially high-quality fats, by way of linseed, inulin (prebiotic), by way of chicory, and proteins, lysine in particular. This product helps improve the general condition of the horse and also promotes intestinal transit. Linamix® contains 2 antioxidants, vitamin E (1,000 mg) and organically bound selenium, both of which play an important role in limiting the damage caused by oxidation reactions. During intensive training, a horse can increase its oxygen consumption by 30%. At that point, the oxidative stress increases significantly. This oxidative stress is always present and ensures the continuous renewal of the body's cells. During intensive training, it is very important to ensure that sufficient nutrients and antioxidants are available for quick muscle recovery. Vitamin E is a powerful natural antioxidant that limits the damage caused by oxidation reactions and prevents the oxidation of the unsaturated fatty acids in the linseed.

This mix contains ingredients of superior quality:

Linseed is a source of omega-3 fatty acids, which greatly benefit the health of the horse.

Chicory naturally contains inulin. This polysaccharide promotes the proper development of intestinal flora and has a prebiotic effect.

Slow sugars. EquiSweet is healthy sugar syrup that ensures the progressive and gradual release of energy.

Antioxidants. The intake of vitamin E and selenium supports muscle regeneration after exercise.

Organic selenium belongs to the antioxidant family, and this form of selenium is very easily absorbed by the body.

INSTRUCTIONS:

100 grams per 100 kg live weight, per horse, per day, mixed in with the main feed and supplemented with 5-7 kg of good quality hay-straw.

COMPOSITION:

Linseed, Peas, Dried sugar beet pulp, Isomaltulose molasses, Potato starch, Chicory root, Sodium chloride

Analytical constituents:

Crude protein	17%
Crude fat	20%
Crude fibre	6%
Crude ash	5%
Starch	17%
Sugars	12%
Calcium	0.4%
Phosphorous	0.36%
Magnesium	0.22%
Sodium	0.25%

Calculated values (/kg):

Horse Forage Units (UFC)	1.13
Digestible nitrogenous matter / degradable crude protein (Madc/MPBd-c)	10.7%
Total energy value (VRE)	10.7%
Digestible energy-horses (DE-p)	14.54
Energy value horses (EW pa)	1.13

Nutritional additives (/kg):

Lysine	7.5 g/kg
Lysine standard (4% CP)	6.8 g/kg
Methionine	2.3 g/kg
Omega 6	31.8 g
Omega 3	98 g
Vitamin E	1,000 mg
Selenium (selenomethionine)	0.6 mg

Technological additives:

E310 Propyl gallate	150 mg
