Breeding Mix

For mares, foals and young horses
With Linamix®

BREEDING MIX

Breeding Mix is a flake mix suitable for the breeding/rearing process. This product is intended for mares in foal and lactating mares and for foals and young horses up to 3 years of age. The quality of the proteins and fatty acids used ensure optimal development and growth. This mix contains all the necessary vitamins, minerals and trace elements and is the ideal solution for gestating and lactating mares and growing foals.
