HobbyFirst Canex

HobbyFirst Canex was developed by people with a real passion for dogs. Just like for you, the well-being of dogs is our top priority. With our years of knowledge and scientific expertise, we have developed dog food that keeps your dogs and ours fit and healthy. Above all, we have listened to the wishes of our users, including well-known breeders. With HobbyFirst Canex, you can rely on high and consistent quality and natural ingredients. Our passion for dogs is your guarantee of the best food!

The Canex range consists of 2 food lines:

HobbyFirst Canex Quality is a line of fully balanced and tasty food for dogs of all ages, species and breeds, including the **HobbyFirst Canex Brocks** food line, which is complemented by the different flavours **HobbyFirst Canex with Lamb** and **HobbyFirst Canex with Salmon**.

HobbyFirst Canex Premium is a food line that has been put together with special care to meet your dog's specific needs. Consisting of **HobbyFirst Canex Chicken & Rice**, **HobbyFirst Canex Fish & Rice**, **HobbyFirst Canex Lamb & Rice**, **HobbyFirst Canex Grainfree** and **HobbyFirst Canex Grainfree Salmon**.

What is GMO?

GMO stands for genetically modified organism. In genetic modification, the DNA of an organism is adapted by humans. In plants – such as maize and soybeans – this is done to make them more resistant to certain diseases or pesticides. Genetic modification is subject to strict regulations set by European legislation to ensure safe use.

GMO-free / NON-GMO raw materials / GMO-controlled

Despite the fact that genetically modified crops have been cultivated and used in animal feed for many years, for many people it remains a situation they would rather not choose. Many animal owners and animal lovers are close to nature and want to treat nature with respect. They do not want to interfere too much with biodiversity and want to give the animals as much opportunity as possible to act out their natural behaviour and feed them with purely natural ingredients. Feed without genetically modified raw materials fits perfectly with this philosophy. The claim that a product is 100% GMO-free is not always feasible in practice, as the collection of raw materials, intermediate storage, transport, processing, etc. can always create the possibility of cross-contamination. This involves residues, however small, of maize containing GMOs, for example. The legislator has provided for this and this is why we speak of NON-GMO raw materials. This term refers to batches of raw materials that are at least 99.1% purely non-GMO.

GMO-free formulated

Strict requirements for the purchase of raw materials, careful production and close monitoring of feed ensure that feed is indeed always as GMO-free as possible. This way of working is laid down in an additional GMP+ quality system and is called GMO-Formulated.

These feeds are therefore formulated GMO-free, so to speak.

HobbyFirst Canex Quality

HobbyFirst Canex Quality is a line of fully balanced and tasty foods in a variety of flavours. HobbyFirst Canex Brocks, HobbyFirst Canex with Lamb and HobbyFirst Canex with Salmon are foods for adult dogs of all breeds with an average energy requirement and normal weight. Whichever variety you choose, HobbyFirst Canex will keep your dog active and in top condition.

+ For an optimal metabolism

+ With prebiotics FOS and MOS for a healthy intestinal flora and proper intestinal function

+ Contains omega-3/-6 fatty acids in an optimal ratio

+ Rich in omega-3 fatty acids EPA and DHA for support of the natural resistance and skin care.

Puppy-Junior Brocks

3 + 12 kg

HobbyFirst Canex Puppy-Junior Brocks is an extruded dog food for (growing) puppies and juniors of small and medium-sized breeds. It is for puppies in their first growth phase, from 4 weeks onwards. Puppy-Junior Brocks contains a high proportion of dried chicken and rice, which makes the food easily digestible and promotes good digestion.

Proteins, fats, carbohydrates, vitamins and minerals are found in the right daily amounts. Added lecithin helps prevent skin irritations and ensures a shiny coat! Puppy-Junior Brocks helps your pup to grow undisturbed.

Product plusses Puppy-Junior Brocks

Contains the prebiotic FOS, and the insoluble fibre contributes to a healthy intestinal flora and good intestinal function.

Intestinal Security

Contains a combination of astaxanthin, omega-3 fatty acids and FOS to support the immune system.

Immunity Support

Contains an optimal ratio of omega-3/-6 fatty acids and is rich in omega-3 fatty acids EPA and DHA to strengthen the natural resistance and care of the skin and to promote learning ability.

Omega 3/6

Tasty food with high acceptance.

High Acceptance

Product analysis Puppy-Junior Brocks

COMPOSITION:

Dried chicken (25%), rice (21%), maize, animal fat (chicken), maize gluten, animal protein extract, wheat groats, hydrolysed chicken protein, dried beet pulp, dried chicory (a natural source of FOS and inulin), beer yeast, cellulose, whole dried eggs, dried Antarctic krill (0.4%) (a natural source of EPA and DHA), lecithin, yucca schidigera, minerals.

ANALYTICAL CONSTITUENTS:

Crude protein 27.0%, Crude fat 15.0%, Crude ash 5.0%, Crude fibre 2.8%, Calcium (Ca) 0.9%, Phosphorus (P) 0.8%.

NUTRITIONAL ADDITIVES PER KG:

3a672a Vitamin A 15,000 IU, 3a671 Vitamin D3 1.500 IU, 3a700 Vitamin E 200 mg, 3b103 Iron (ferrous sulphate (monohydrate)) 80 mg, 3b405 Copper (copper sulphate (pentahydrate)) 13 mg, 3b502 Manganese (manganese (II) oxide) 40 mg, 3b603 Zinc (zinc oxide) 40 mg, 3b607 Zinc (zinc chelate of glycine hydrate) 40 mg, 3b201 Iodine (potassium iodide) 1.2 mg, 3b801 Selenium (sodium selenite) 0.3 mg.

TECHNOLOGICAL ADDITIVES PER KG:

1b306(i) Tocopherol extracts from vegetable oils 100 mg.

Stabilized with natural antioxidants

Naturally complete

Well balanced

Yucca included to reduce odor

With Lecithin

With Antarctic krill

No artificial flavours, colors or preservatives added

Puppy-Junior Brocks Maxi

12 kg

HobbyFirst Canex Puppy-Junior Brocks Maxi is an extruded dog food for (growing) puppies and juniors of large breeds. It is for puppies in their first growth phase, from 4 weeks onwards. Puppy-Junior Brocks Maxi contains a very high proportion of dried chicken and rice, which makes the

This makes the food easily digestible and promotes good digestion. Proteins, fats, carbohydrates, vitamins and minerals are found in the right daily amounts. Added lecithin helps prevent skin irritations and ensures a shiny coat!

Puppy-Junior Brocks helps your pup to grow undisturbed. Because puppies of large breeds are sensitive to skeletal disorders, the calcium content of this kibble has been reduced. The higher protein content supports muscle development. An optimal omega 3/6 ratio, the right omega-3 fatty acids and a proven ratio of necessary nutrients promote good resistance, healthy skin, uninterrupted growth and excellent learning ability.

Product plusses Puppy-Junior Brocks Maxi

Intestinal Security

Contains the prebiotic FOS, and the insoluble fibre contributes to a healthy intestinal flora and good intestinal function.

Immunity Support

Contains a combination of astaxanthin, omega-3 fatty acids and FOS to support the immune system.

Omega 3/6

Contains an optimum ratio of Omega-3 and Omega-6 fatty acids, and is rich in the Omega-3 fatty acids EPA and DHA, to strengthen the dog's immune system, care for its skin, and promote its ability to learn.

High Acceptance

Tasty feed with a high acceptance.

Calcium - Protein +

Contains reduced calcium for healthy, balanced bone development and increased protein for developing muscle mass.

Product analysis Puppy-Junior Brocks Maxi

COMPOSITION:

Dehydrated chicken (30%), rice (21%), maize, animal fat (chicken), animal protein extract, wheat grits, hydrolysed chicken proteins, dehydrated beet pulp, dehydrated chicory (a natural source of FOS [fructo-oligosaccharides] and inulin), brewer's yeast, cellulose, locust bean gum, whole dehydrated eggs, dehydrated Antarctic krill (0.4%) (a natural source of EPA and DHA), lecithin, Yucca schidigera, minerals.

Puppy-Junior High in Fish & Rice

3 + 12 kg

HobbyFirst Canex Puppy-Junior High in Fish & Rice is an extruded dog food for (growing) puppies and juniors of small and medium-sized breeds. It is for puppies in their first growth phase, from 4 weeks onwards.

Puppy-Junior High in Fish & Rice is composed on the basis of easily digestible Fish & Rice components and is therefore extremely suitable for puppies with a tendency towards digestive problems and/or sensitive skin. This food is (wheat) gluten-free and hypoallergenic and ensures a radiant coat. It contains proteins, fats, carbohydrates, vitamins and minerals in exactly the right proportions to let your pup grow undisturbed.

Product plusses Puppy-Junior High in Fish & Rice

Contains the FOS prebiotic and insoluble fibres that promote healthy intestinal flora and proper intestinal function.

Intestinal Security

Contains a combination of astaxanthin, omega-3 fatty acids and FOS to support the immune system.

Immunity Support

Contains an optimum ratio of Omega-3 and Omega-6 fatty acids, and is rich in the Omega-3 fatty acids EPA and DHA, to strengthen the dog's immune system, care for its skin, and promote its ability to learn.

Puppy-Junior High in Fish & Rice Maxi

12 kg

HobbyFirst Canex Puppy-Junior High in Fish & Rice Maxi is an extruded dog food for (growing) puppies and juniors of large breeds. It is for puppies in their first growth phase, from 4 weeks onwards. The large kibble size gives your dog plenty to chew on.

Especially for large breed puppies with a tendency to digestive problems and/or sensitive skin. Puppy-Junior High in Fish & Rice Maxi is composed on the basis of easily digestible Fish & Rice components. This food is (wheat) gluten-free and hypoallergenic and ensures a shiny coat. Because puppies of large breeds are sensitive to skeletal disorders, the calcium content of this kibble has been reduced. The higher protein content supports muscle development.

Product plusses Puppy-Junior High in Fish & Rice Maxi

Intestinal Security

Contains the prebiotic FOS, and the insoluble fibre contributes to a healthy intestinal flora and good intestinal function.

Immunity Support

Contains a combination of astaxanthin, omega-3 fatty acids and FOS to support the immune system.

Omega 3/6

Contains an optimum ratio of Omega-3 and Omega-6 fatty acids, and is rich in the Omega-3 fatty acids EPA and DHA, to strengthen the dog's immune system, care for its skin, and promote its ability to learn.

Hypo Allergenic

Balanced food for dogs with digestive problems and/or that have sensitive skin and a sensitive coat.

Calcium - Protein +

Contains reduced calcium for healthy, balanced bone development and increased protein for developing muscle mass.

Product analysis Puppy-Junior High in Fish & Rice Maxi

Senior Fish & Rice

3 + 12 kg

HobbyFirst Canex Senior Fish & Rice is an extruded dog food for older dogs of all breeds. Senior Fish & Rice is an easily digestible, complete and balanced food for older dogs of all breeds, who are prone to digestive problems and/or sensitive skin and coat.

Senior Fish & Rice is a fully hypoallergenic dog food with a high acceptance. Senior Fish & Rice is tailored to the needs of older dogs, which are also less active. It contains the right daily amounts of proteins, fats, carbohydrates, vitamins and minerals which contribute to the good health of your dog. The high-quality raw materials are of animal and vegetable origin. This senior food contains sodium tripolyphosphate which supports healthy teeth and helps to limit the formation of dental plaque.

Product plusses Senior Fish & Rice

Contains the prebiotic FOS, and the insoluble fibre contributes to a healthy intestinal flora and good intestinal function.

Intestinal Security

Contains an optimum ratio of Omega-3 and Omega-6 fatty acids, and is rich in the Omega-3 fatty acids EPA and DHA, herbal extracts to care for the skin and promote a glossy coat.

Skin & Coat Care

Balanced food for dogs with digestive problems and/or that have sensitive skin and a sensitive coat.

Hypo Allergenic

The added natural polyphenols contribute to reducing the extent of cell ageing and tissue damage.

Cell Protection

Contains sodium triphosphate, which contributes to reducing the formation of dental plaque and supports healthy teeth.

Teeth Care

Product analysis Senior Fish & Rice

COMPOSITION:

Dehydrated oceanic fish (26%), rice (26%), maize, animal fat (chicken), hydrolysed proteins, linseed, brewer's yeast, fish oil, dehydrated beet pulp, dehydrated chicory (a natural source of FOS [fructo-oligosaccharides] and inulin), whole dehydrated eggs, minerals, dehydrated Antarctic krill (0.5%) (a natural source of EPA and DHA), MOS (mannanoligosaccharides), sodium tripolyphosphate 0.35%), glucosamine hydrochloride (0.05%), chondroitin sulphate (0.02%), Yucca schidigera, vegetable extracts (0.03%) from rosemary, grapes, turmeric, citrus, and cloves (source of polyphenols).

ANALYTICAL CONSTITUENTS (%):

Crude protein: 24.0, Crude fat: 12.0, Crude ash: 7.0, Crude fibre: 3.0, Calcium (Ca): 1.4, Phosphorous (P): 1.0.

NUTRITIONAL ADDITIVES PER KG:

Puppy-Junior Grainfree

3 + 12 kg

HobbyFirst Canex Puppy-Junior Grainfree is an extruded dog food for (growing) puppies and juniors of all breeds. It is for puppies in their first growth phase, from 4 weeks onwards. Puppy-Junior Grainfree is prepared on the basis of a grain-free recipe and therefore extremely suitable for pups with a hypersensitivity to grains, a tendency to digestive problems and/or sensitive skin and fur. This food is hypoallergenic and ensures a radiant coat. It contains proteins, fats, carbohydrates, vitamins and minerals in exactly the right proportions to help your puppy grow undisturbed.

Product plusses Puppy-Junior Grainfree

Intestinal Security

Contains the FOS prebiotic that promotes healthy intestinal flora.

Skin & Coat Care

Contains an optimum ratio of Omega-3 and Omega-6 fatty acids, and is rich in the Omega-3 fatty acids EPA and DHA, herbal extracts to care for the skin and promote a glossy coat.

Omega 3/6

Contains an optimum ratio of Omega-3 and Omega-6 fatty acids, and is rich in the Omega-3 fatty acids EPA and DHA, to strengthen the dog's immune system, care for its skin, and promote its ability to learn.

Immunity Support

Contains a combination of astaxanthin, omega-3 fatty acids and FOS to support the immune system.

Product analysis Puppy-Junior Grainfree

COMPOSITION:

Fresh duck meat (15%), dehydrated duck meat (15%), dehydrated potatoes (14%), animal fat (chicken), peas (10%), split peas (10%), animal protein extract, hydrolysed chicken proteins, dehydrated sweet potatoes (3%), dehydrated beet pulp, dehydrated chicory (a natural source of FOS [fructo-oligosaccharides] and inulin), minerals, dehydrated apples (0.5%), dehydrated carrots (0.5%), dehydrated beer yeast, MOS (mannan-oligosaccharides), dehydrated Antarctic krill (0.2%) (a natural source of EPA and DHA), dehydrated broccoli (0.1%), dehydrated spinach (0.1%), dehydrated cranberries (0.05%), dehydrated blueberries (0.05%), Yucca schidigera, vegetable extracts (0.03%) from Arctium lappa, Trifolium pratense, calendula, Viola tricolor, borage, Rosemarinus sp., Vitis sp., Curcuma sp., Citrus sp., and Eugenia sp. HobbyFirst Canex Snacks

HobbyFirst Canex Premium is a food line of fully balanced and tasty food in various flavours. This food line is now complemented by healthy and tasty snacks.

Single Protein

+ A 'single protein' source contains only one type of animal protein at a time.

Grain & gluten free

+ All our snacks are gluten and grain free. This makes them the ideal hypo-allergenic solution.

100% Pure

+ 100% natural snacks. Without added colourings and flavourings.

Quality Guaranteed

+ Locally made and tasted. We guarantee European production.

Canex Sticks

85 gr

HobbyFirst Canex Sticks are a complementary food for dogs of all breeds. The ideal and healthy snack. Available in 6 different flavours.

A 'single protein' source contains only one type of animal protein at a time. Perfect for allergies or intolerances!

All our snacks are gluten and grain-free. This makes them the ideal hypo-allergenic solution.

100% natural snacks. Without added colourings and flavourings.

Locally made and tasted. We guarantee European production.

This snack consists of 100% muscle meat.
