

Fibre Mash

Fibre Mash

Suitable for older horses
Easy to digest • Rich in fibre

FIBRE MASH

Fibre Mash is a fibre-rich mash that has been specially developed for older horses and ponies with dental problems. This mash is also ideal for sugar-sensitive horses and horses prone to muscle stiffness and laminitis. The mash contains ingredients such as Timothy grass, dried chicory pulp (naturally rich in inulin), pea flakes, soybean flakes and carrot pieces. It also has a high fibre content and contains high-quality nutrients that optimise muscle mass. This feed must be soaked (15 mins.)!

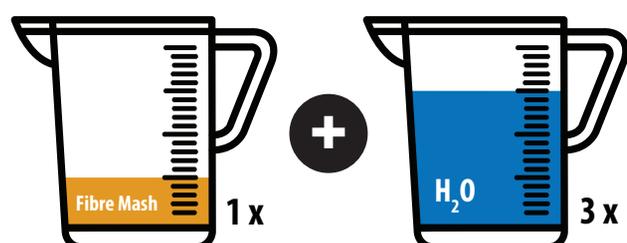

This mix contains ingredients of superior quality:

- **Timothy grass** is a very high-quality form of roughage.
- **Chicory** is a natural source of inulin. This polysaccharide promotes the proper development of intestinal flora and has a prebiotic effect.
- **Soybean flakes** contain high-quality protein (essential amino acids). And since they are cooked and crushed, they are easy to digest.
- **Ground beet pulp** is naturally rich in digestive fibre and calcium.
- **Linseed** is a source of omega-3 fatty acids, which greatly benefit the health of the horse.

INSTRUCTIONS:

Use **0.5 g to 1.0 g per 100 kg** of live weight per day. To be adjusted depending on the breed, intensity of exercise and quality of roughage.

Always supplement the concentrated feed with high-quality roughage without restriction. The horse must always have access to fresh water. Always store the feed in a cool, dry and dark place.

COMPOSITION:

Dried chicory pulp, Timothy grass, Lucerne, Wheat feed, Linseed, Dried sugar beet pulp, Wheat bran, Rapeseed meal, Sugar cane molasses, Carob, Rapeseed oil, DDGS maize, Dried sugar beet pulp, Peas, Carrot flakes, Isomaltulose molasses, Linseed, Calcium carbonate, Sodium chloride

Analytical constituents:

Crude protein	11.8%
Crude fat	7.5%
Crude fibre	20.5%
Crude ash	8.3%
Starch	4%
Sugars	8.5%
Calcium	1.13%
Phosphorous	0.37%
Magnesium	0.2%
Sodium	0.11%

Calculated values (/kg):

Horse Forage Units (UFC)	0.77
Digestible nitrogenous matter / degradable crude protein (Madc/MPBd-c)	9%
Total energy value (VRE)	9%
Digestible energy-horses (DE-p)	11.79
Energy value horses (EW pa)	0.77

Nutritional additives (/kg):

Lysine	4 g/kg
Lysine standard (4% CP)	4.8 g/kg
Methionine	1.4 g/kg
Omega 6	10.8 g
Omega 3	23.4 g
3a672a Vitamin A	5,000 IU
3a671 Vitamin D3	1,000 IU
3a700 Vitamin E (All-rac-alpha-tocopheryl acetate)	155 IU
3a880 Biotin	100 µg
3b405 Copper (Copper(II) sulphate pentahydrate)	16 mg
3b103 Iron (Iron(II) sulphate monohydrate)	35 mg
3b502 Manganese (Manganese(II) oxide)	38 mg
3b603 Zinc (Zinc oxide)	38 mg
3b304 Cobalt (Coated granulated cobalt(II) carbonate)	0.3 mg
3b201 Iodine (Potassium iodide)	0.3 mg
3b801 Selenium (Sodium selenite)	0.1 mg
3b815 Selenium (L-selenomethionine)	0.05 mg
