# Omega 3 Mix

For endurance performances  
Without oats

**Omega 3 Mix**

**EQUIFIRST**  
feeding your dream

Omega 3 Mix is a flaked mix without oats. This product was specifically developed for racehorses and performance-oriented competition horses that have to do strenuous activity for long periods. This mix has a very high Linamix® content and stimulates the supply of energy via omega-3-type fatty acids and slow-release sugars. This non-heating mix contains all the necessary vitamins, minerals and trace elements and is suitable for horses with an intense workload over a long period.

This flaked mix contains top quality ingredients:

#### Flaked cereals

Flaked cereals are highly digestible further to their cooking and rolling.

#### Linamix®

Extrusion based on linseed (omega-3), chicory containing inulin (probiotic), slow-release sugars (EquiSweet) and grains.

#### Alfalfa

High-quality fibres containing essential amino acids and calcium.

#### Slow-release sugars

EquiSweet is a healthy sugar syrup that ensures progressive and gradual energy delivery.

#### Premix

High-quality vitamins, minerals and trace elements in adequate dosage.

#### Premix

High-quality vitamins, minerals and trace elements in adequate dosage.

## INDICATIVE NUTRITIONAL VALUES

<b>UFC/kg</b>	<b>0.91</b>
<b>DE horse (MJ/kg)</b>	<b>11.87</b>

Cobalt (mg/kg)	0.42
Organic selenium (mg/kg)	0.2
Selenium (mg/kg)	0.3
Iodine (mg/kg)	0.7

## HOW TO USE

To be fed at a rate of 0.5 to 1 kg per 100 kg of body weight per day. To be adjusted depending on the breed, the intensity of work and the quality of the roughage. The feed must be supplemented with good quality, free-choice roughage. The horse must always have access to clean and fresh water. Always store the feed in a cool, dry place away from light.
