

Booster Mix

Muscle builder
Quick recovery
With Linamix®
With soya flakes

Booster Mix

Booster Mix is a mix of Linamix®, soya flakes and nettle grains. This premium feed is a sophisticated feed supplement that promotes fast recovery and good muscle development. It is administered together with the feed or ideally soon after exercise (30 minutes). This non-heating feed is the natural solution for good muscle development in sports horses.

This flaked mix contains top quality ingredients:

Nettles

Nettle is rich in minerals (calcium, potassium, magnesium, iron, phosphorus) and trace elements and silicon in particular.

Linamix®

Extrusion based on linseed (omega-3), chicory containing inulin (probiotic), slow-release sugars (EquiSweet) and grains.

Soya flakes

Soya flakes contain good-quality proteins (essential amino acids). As they have been cooked and crushed, they are easy and safe to digest.

Antioxydants

Vitamin E and organic Selenium support muscle recovery after an effort.

Slow-release sugars

EquiSweet is a healthy sugar syrup that ensures progressive and gradual energy delivery.

Electrolytes

Electrolytes ensure that any deficiencies that may have arisen in important minerals, resulting from acute sweating, are quickly alleviated.

INDICATIVE NUTRITIONAL VALUES

UFC/kg	1.11
DE horse (MJ/kg)	14.65
DCP horse	18
Ewpa	1.11
Crude protein (%)	21.5
Crude fat (%)	17
Crude fibre (%)	7.5
Crude ash (%)	6.5
Sugar (%)	8.7
Starch (%)	10
Lysine (gr/kg)	12
Methionine (gr/kg)	3.4
Vitamins (/kg)	
Vitamin E (mg/kg)	500
Omega-3 (gr/kg)	54
Minerals and trace elements (/kg)	
Calcium (%)	0.75
Phosphorus (%)	0.46
Sodium (%)	0.13
Magnesium (%)	0.36
Organic selenium (mg/kg)	0.3

HOW TO USE

To be fed at a rate of 150 to 200 gr per 100 kg of body weight per day. The ration must ideally be given just after the effort or as a supplement to the feed ration. Always store the feed in a cool, dry place away from light.
