## EquiFirst Mineral Block

In spring, horses go out to pasture more often. It is quite a switch for the horse's gastrointestinal system from a stable ration to a grass-rich ration. Prevent problems by gradually getting the horses used to a grass-rich ration.

This is also the time when couples of horses are boarded. These horses will not be stabled for the next few months and are therefore dependent on what the pastures have to offer. Not all pastures are rich in vitamins and minerals and during the grazing season, nutrients often decrease. To prevent deficiencies, we advise to place a Mineral Block in the pasture. The EquiFirst Mineral Block contains several vitamins and minerals and is on average sufficient for 8 horses during 1 month. Horses will use the Mineral Block themselves according to their needs, so that they still get all the daily nutrients they need.

**Rich in vitamins and minerals**

## EquiFirst Mineral Block (20 kg)

502510

Vitamin and mineral mixture with garlic for horses in a licking bucket, ideal for pasture supplementation or winter feeding.

The EquiFirst Mineral Block contains several vitamins and minerals and is on average sufficient for 8 horses for 1 month. Horses will use the Mineral Block themselves according to their needs, so that they get all the daily nutrients they need.

### Analytical constituents

Moisture	7%
Calcium	12%
Phosphorus	3%
Sodium	6%
Magnesium	4%

### Trace elements

3b202	Iodine (calcium iodate, anhydrous)	250 mg/kg
3b304	Cobalt (Coated grains of cobalt II carbonate)	50 mg/kg
3b405	Copper (copper (II) sulphate pentahydrate)	1750 mg/kg
3b406	Copper (chelated amino acids)	30 mg/kg
3b503	Manganese (manganese (II) sulphate monohydrate)	4000 mg/kg
3b504	Manganese (chelated amino acids)	60 mg/kg
3b605	Zinc (Zinc sulphate monohydrate)	6250 mg/kg
3b606	Zinc (chelated amino acids)	90 mg/kg
3b801	Selenium (sodium selenite)	50 mg/kg

### Vitamins

3a672a	Vitamin A	750000 IE/kg
3a671	Vitamin D3	150000 IE/kg
3a700	Vitamin E (all-rac-alfa-tocoferyacetaat)	1200 mg/kg

### Composition

Molasses, Monocalcium phosphate, Calcium carbonate, Magnesium oxide, Sodium chloride, Whey powder.
