# HobbyFirst Feline

**We put quality first, through triple protection from the inside out!**

HobbyFirst Feline contains:

**PRO-BIOTICA:** they are living microorganisms that have a beneficial effect on the intestinal flora.

**PRE-BIOTICA:** these stimulate the activity of good intestinal bacteria and thus promote general immunity and health.

**MINERALS:** these protect the intestinal mucosa, prevent digestive problems and ensure consistent bowel movements.

**HobbyFirst Feline and HobbyFirst Feline Soft Filets come in different flavours**

**Chicken** the main source of animal protein has both high acceptance and high biological value.

**Salmon and tuna** is a popular choice as a taste alternative and is a rich source of healthy omega-3 fatty acids.

**Turkey** is a good and tasty alternative to chicken. All poultry-based proteins have good acceptance and hypoallergenic qualities.

## HobbyFirst Feline White Hygiene

**HobbyFirst Feline White Hygiene** is a fine, dust-free cat litter with or without a mild odour that is pleasant for cats' paws. White Hygiene quickly forms solid clumps when it comes into contact with urine, so odours have no chance of developing. Simply remove the lumps and add a few new grains. **As a result, White Hygiene is very economical to use and lasts up to 5 times longer than ordinary cat litter.**

## Wat is GMO?

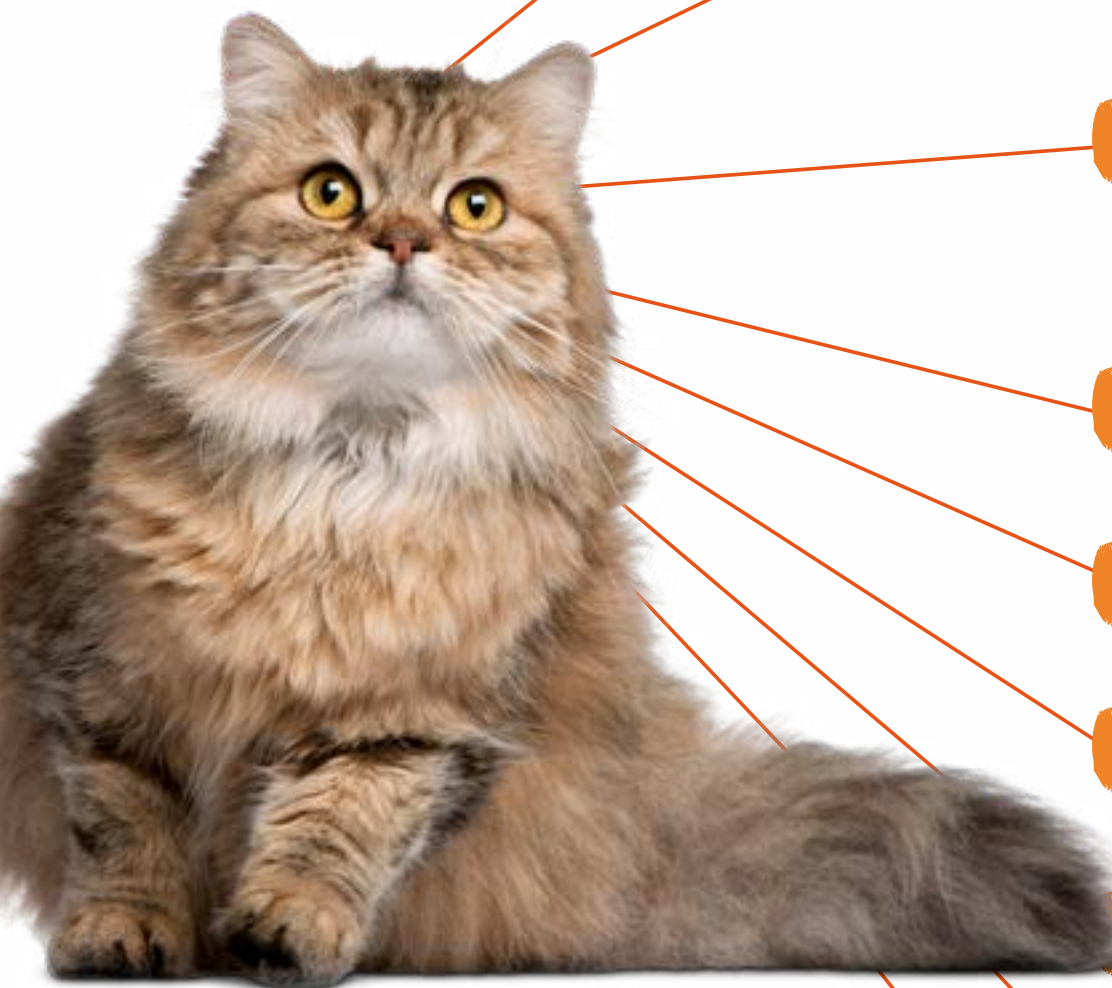

### **GMO-free Formulated**

GMO stands for Genetically Modified Organism. In the case of plant crops, this is done to make them more resistant to certain diseases. Despite the fact that genetically modified crops have been grown and used in animal feed for many years, for many people this is still a situation they would rather not face. In keeping with this philosophy, **HobbyFirst Feline products are made from ingredients that are not genetically modified.**

# Kitten <1Y

800gr – 1,5kg – 4,5kg

Ideal for  
kitten & queen

Easily  
Digestible

Extra Energy  
& Protein

**HobbyFirst Feline Kitten <1Y** provides the extra energy the mother cat needs to suckle her kittens, and that kittens need for healthy and balanced development. The easy-to-digest, high-quality ingredients contribute to strong bones, a shiny coat and a healthy immune system.

**High in chicken**

✓ Contains 44% chicken of which 10% fresh chicken

**41% protein**

**20% fat**

## Product analysis Kitten <1Y

### COMPOSITION

Dehydrated chicken meat (34%), wheat, fresh chicken meat (10%), animal fat, maize gluten, hydrolyzed animal protein, dried chicory, beet pulp, dried Antarctic krill, brewery yeast, salmon oil, minerals, mannan-oligosaccharides, dried cranberries.

### ANALYTICAL CONSTITUENTS

Crude Protein: 41%, Crude Grazing: 20%, Omega 3 Fatty Acids 0.8%, Omega 6 Fatty Acids 2.3%, Crude Ash: 8%, Crude Fiber: 2%, Calcium (Ca): 1.3%, Phosphorus (P): 0.9%

### NUTRITIONAL ADDITIVES (/KG)

Vitamin A (3a672a): 20,000 IU/IU, Vitamin D3 (3a671): 1,750 IU/IU, Vitamin E (all-rac-alpha-alpha-tocopherylacetate 3a700): 450 mg, Vitamin C (3a311): 140 mg, Taurine (3a370): 1,500 mg, Iron(II)sulfate monohydrate: 70 mg, Copper(II) sulfate /monohydrate: 10mg, Zinc-zinc(II)sulfate monohydrate: 100mg, Manganese-manganese(II) oxide: 40mg, Iodine-calcium iodate: 1.5mg, sodium selenite: 0.2mg

### TECHNOLOGICAL ADDITIVES (/KG)

Binder: Bentonite – montmorillonite (E558): 4.500mg

### ZOOTECNICAL ADDITIVES (/KG)

Intestinal flora stabilizer: Enterococcus faecium NCIMB 10415 (4b1707): 10<sup>9</sup> CFU

## QUANTITY OF DIETARY ADVICE (grams/day)

Age (weeks)	<10	10	15	20	25	30	35	40	12 M
Body weight (kg)	0,8	1,1	1,6	2,1	2,6	3	3,3	3,5	3,5
Nutrition (g/day)	48	52	57	65	68	72	71	67	58

This is a feeding guideline: Keep an eye on the growth and condition of your kitten to adjust the daily feeding. Preferably feed your kitten spread out over the day, e.g. in 3 meals. Always have fresh water available for your kitten. When first introducing HobbyFirst Feline to your kitten, slowly increase the amount up to 100% over 7 days.

# HobbyFirst Feline Sensitive

HobbyFirst Feline Sensitive is a food line with fully balanced and tasty food in different flavours. This food line has been specially developed for sensitive cats.

Some cats have sensitive digestion and find it difficult to digest certain ingredients. This is why we have developed a wide range of cat foods to support sensitive digestion.

HobbyFirst has the answer to the most common complaints in veterinary practices. With a very good quality and a pronounced palatability.

Each food in the Sensitive range has a unique and original composition to meet the specific nutritional needs of the disorders in question. The raw materials have been chosen with great care and the recipes do not contain any natural colourings, aromas or flavours. Special attention has been paid to taste, protein quality and digestibility. Depending on the cat's needs, in addition to the classic supplements such as vitamins, unsaturated cereal acids, L-carnitine, etc., less frequently used but very important nutritional ingredients are also included, such as yucca or cranberries.

# Sensitive Digestion

800gr – 1,5kg – 4,5kg

**HobbyFirst Feline Sensitive Digestion** is specially developed for cats with sensitive digestion, and therefore contains rice rather than wheat, and natural fibres to prevent hair balls. This food meets the daily requirements of proteins, fats, carbohydrates, vitamins and minerals that contribute to good health.

**High in turkey**

✓ **Contains 25% turkey of which 10% fresh turkey**

**36% protein**

**16% fat**

**Anti-hairball**

**Easily Digestible**

**Adult & Mature**

## Product analysis Sensitive Digestion

### COMPOSITION

Dehydrated turkey meat (15%), rice (15%), maize, dehydrated chicken meat, fresh turkey meat (10%), animal fat, maize gluten, hydrolyzed animal protein, beet pulp, dried chicory, salmon oil, cellulose, minerals, mannan-oligosaccharides, brewery yeast, dried Antarctic krill, dried cranberries.

### ANALYTICAL CONSTITUENTS

Crude protein: 36%, Raw pasture: 16%, Omega 3 fat – acids 0.5%, Omega 6 fats – acids 2.1%, Crude ash: 7.5%, Crude fiber: 3%, Calcium (Ca): 1.3% Phosphorus (P): 1.1%

### NUTRITIONAL ADDITIVES (/KG)

Vitamin A (3a672a): 20,000 IU/IU/IU, Vitamin D3 (3a671): 1,750 IU/IU, Vitamin E (all-rac-alpha-alpha-tocopherylacetate 3a700): 450 mg, Vitamin C (3a311): 140 mg, Taurine (3a370): 1,500 mg, Iron(II) sulfate monohydrate: 70 mg, Copper(II) sulfate /monohydrate: 10mg, Zinc-zinc(II)sulfate monohydrate: 100mg, Manganese-manganese(II) oxide: 40mg, Iodine-calcium iodate: 1.5mg, sodium selenite: 0.2mg

## HobbyFirst Feline Soft Filets

**HobbyFirst Feline Soft Filets** contain real pieces of meat and or fish prepared in a delicious broth. These consist of high-quality non-polemic protein sources, such as chicken, turkey, salmon and tuna. No crazy things were added to our Soft Filets. In fact, they consist of 60% fillets and up to 40% broth! We are also careful with the tuna, limiting it to a maximum of 40%. In doing so, we take into account EU legislation on possible mercury levels.

Our Soft Filets help maintain moisture levels and help prevent urinary tract problems. They also contain fewer calories, but still satisfy the appetite. In short, an ideal and balanced food for your cat!

**Ideal to combine with our HobbyFirst Feline products.**

# White Hygiene Sensitive

10kg – Ca. 12L

**HobbyFirst Feline White Hygiene Sensitive** is a fine, dust-free cat litter without added odour, which is pleasant for cats' paws. White Hygiene quickly forms solid clumps when it comes into contact with urine, so odours have no chance of developing. Simply remove the lumps and add a few new grains. As a result, White Hygiene is very economical to use and lasts up to 5 times longer than ordinary cat litter.

**NO added  
PERFUME**

## INSTRUCTION MANUAL

1. Fill the litter tray with white hygienic granules to a level of about 6 cm.
2. Dispose of litter and other excrement daily as household waste. Do not flush litter down the toilet.
3. Fill the litter box with White Hygiene Pellets to a level of about 6 cm.

**Economical  
in use**

**Quickly  
forms lumps**

**99,9% Dust-Free**

## White Hygiene Sensitive

10 KG

# White Hygiene Aloe Vera

10kg - Ca. 12L

**HobbyFirst Feline White Hygiene Aloe Vera** is a fine, dust-free litter with a mild and pleasant scent for cats' paws. White Hygiene quickly forms solid lumps on contact with urine, so that odours have no chance to develop. Simply remove the lumps and add a few new pellets. This makes White Hygiene very economical to use and lasts up to five times longer than ordinary cat litter.

**Soft & Fresh  
Aloe Vera  
Fragrance**
