CONDITION MIX

Condition Mix is a flake mix for horses and ponies with normal activity levels. This mix is a perfect combination of easily digestible energy, protein, and fibre. This product contains all the necessary vitamins, minerals, and trace elements and offers the perfect solution for a balanced diet and a healthy horse.

This mix contains ingredients of superior quality:

- **Flaked grains** are highly digestible as a result of steaming and flaking.
- **Slow sugars** EquiSweet is a healthy sugar syrup that ensures the progressive and gradual release of energy.
- **Alfalfa** High-quality fibre containing essential amino acids and calcium.
- **Grain corrector** Enriched with vitamins, minerals and trace elements, this corrector ensures a good balance between the various nutrients in the ration.
- **Organically bound Selenium** belongs to the antioxidant family, and this form of selenium is very easily absorbed by the body.
- **Sodium bicarbonate** is a powerful acid-neutralising agent.

INSTRUCTIONS:

Use 0.5 g to 1.0 g per 100 kg of live weight per day. To be adjusted depending on the breed, intensity of exercise and quality of roughage. Always supplement the concentrated feed with high-quality roughage without restriction. The horse must always have access to fresh water. Always store the feed in a cool, dry and dark place.
