VITAMIN SUPPORT

Is your horse on a simple ration of roughage or roughage supplemented with grains? Is your mare in the last 3 months of pregnancy, or is she lactating? Is your foal or young horse growing very fast? Is your horse's condition falling behind? Is your horse recovering? Is your horse getting older? Is your horse feeling unwell as a result of moulting? In short, could your horse use a boost of vitamins and minerals? Then find out more about Vitamin Support from the Special Care range.

Vitamin Support is a grain-free food supplement rich in vitamins, on the basis of Timothy grass, alfalfa, dried chicory pulp, and nettle and is rich in vitamins, minerals, and trace elements; it can be given as a complete concentrated feed or as a supplement to the concentrated feed. Vitamin Support supports health and vitality. In short: it is perfect for horses that need something extra.

- **Complete vitamin and mineral supplement** to support health and vitality
- **OS Complex**, a complex of **Copper, Zink** and **Manganese** for undisturbed bone growth, optimal hardening of the skeleton, and support for tendons and ligaments to ensure the movement mechanism remains healthy
- The added **seaweed** contains a range of bioactive substances to support the immune system.
- Contains **calcified seaweed and sodium bicarbonate** which support healthy digestion
- Extra rich in **Vitamin E**
- Contains OS Complex, i.e. trace elements in chelated form Copper is 100% in chelated form
- Contains dried nettles

The above components work together to support the horse's health.

INSTRUCTIONS:

Horses: 100 gram

Ponies: 1/3 to 1/2 of the above amount

Mares in foal: 150 grams (during the last 3 months of pregnancy, up to 3 months after birth)

Foals (2 months – 1 yr.): 50 grams, building up to 100 grams

Breeding stallions: 200 grams (during mating season)

Ideally given with concentrated feed.

EquiFirst's Special Care products are certified as **GM0-Controlled**.

COMPOSITION:

Timothy Grass Meal, Grass Meal, Alfalfa, Rapeseed Meal, Dried Beet Pulp, Dried Chicory Pulp, Monocalcium Phosphate, Cane Molasses, Calcium Carbonate, Dried Seaweed, Dried Leaves (Nettle), Magnesium Oxide, Sodium Bicarbonate, Soybean Oil, Sodium Chloride

Analytical constituents:

Crude protein	12.5%
Crude fat	3%
Crude fibre	18%
Crude ash	22.7%
Calcium	3%
Phosphorous	1.2%
Magnesium	1%
Sodium	0.8%
Potassium	1.5%

Calculated values (/kg):

VRE horse	48 g
ME horse	8.3 MJ
EW Pa	0.72 -
UFC	0.72 -

Nutritional additives (/kg):

3a672a Vitamin A	250,000 IU
3a671 Vitamin D3	25,000 IU
3a700 Vitamin E (All-rac-alpha-tocopheryl acetate)	3750 IU
3a711 Vitamin K3	20 mg
3a821 Vitamin B1 (Thiamine mononitrate)	200 mg
Vitamin B2 (Riboflavin)	200 mg
3a831 Vitamin B6 (Pyridoxine)	160 mg
3a315 Niacinamide	1000 mg
3a841 Calcium D-pantothenate	400 mg
Vitamin B12	750 µg
3a316 Folic acid	50 mg
3a880 Biotin	8000 µg
3a890 Choline chloride	1200 mg
3a312 Vitamin C	2500 mg
3b413 Copper (Copper(II) chelate of glycine hydrate)	500 mg
3b103 Iron (Iron(II) sulphate monohydrate)	300 mg
3b503 Manganese (Manganese(II) sulphate monohydrate)	400 mg
3b506 Manganese (Manganese chelate of glycine, hydrated)	400 mg
3b605 Zinc (Zinc sulphate monohydrate)	1500 mg
3b607 Zinc (Zinc chelate of glycine hydrate)	500 mg
3b304 Cobalt (Coated granulated cobalt(II) carbonate)	5 mg
3b201 Iodine (Potassium iodide)	8 mg
3b801 Selenium (Sodium selenite)	3 mg
3b815 Selenium (L-selenomethionine)	3 mg
