UNITS
AgilePM® Foundation (APMG International), SCRUM Fundamentals (SCRUMstudy)

COURSE OVERVIEW

The Certified Project Management Professional course is a foundation-level learning path to help you kick off your career in project management, equipping you to work in a variety of roles across a range of industries. This is a skill with increasing demand from employers – the Project Management Institute estimates 33% growth in project management roles as technology continues to develop over coming years.

This course covers the key fundamentals of project management such as Agile Project Management methodology and fundamental concepts of SCRUM.

Further modules introduce you to project management tools, such as Trello, and a wide range of online collaboration tools. You will join separate working groups, to create and deliver your own projects as a team.

Lumify Group is the **largest provider of vendor ICT training in Australia** and trains over 16,000 students each year.

Lumify launched **Lumify Learn** to provide those looking to enter the ICT industry with the most contemporary and future-focused skills to succeed in the industry.

We are proudly partnering with the **Victorian Government on their Digital Jobs** program to build the state's digital workforce by upskilling mid-career Victorians like you, transitioning into digital careers.
