## Introduction

---

This document details the 2025 CDP full corporate scoring methodology for climate change and should be used in conjunction with CDP’s full corporate questionnaire and reporting guidance for 2025, as well as CDP’s full corporate scoring introduction and other scoring documentation. It is strongly recommended to familiarize yourself with the contents of both the 2025 full corporate questionnaire and reporting guidance before using the scoring methodology. Question dependencies will be detailed in these supplementary documents to inform companies which questions they are eligible to be scored for.

This document provides the scoring criteria and points available for each question in CDP’s 2025 full corporate questionnaire. In 2025, the previously separate CDP questionnaires on climate change, forests and water security are integrated into one corporate questionnaire. Through this questionnaire, organizations can provide data on multiple environmental issues in a single disclosure, encouraging more holistic and balanced reporting.

### Scoring for multiple environmental issue areas in 2025

While the questionnaire has been integrated, separate climate change, water and forests scores will continue to be awarded in 2025, with separate scoring methodologies for each environmental issue area. Modules 1 to 6, and 13 are integrated, which means that questions in these modules cover more than one environmental issue area. Conversely, modules 7 to 11 are specific to an environmental issue area. Modules 10 and 11 are specific to the environmental issues of plastics and biodiversity, which are not scored and therefore not represented within the methodology documents. Organizations in the financial services sector will be presented with module 12, which is an integrated, sector-specific ‘Environmental Performance’ module.

Each question is tagged to one or more of the three environmental issue areas, listed under the question text. The following notations have been used in this document to denote environmental issue areas (Table 1). Some questions that are tagged to multiple environmental issues will be scored in the same way. Other questions tagged to multiple environmental issues may have some differences in scoring, tailored to the environmental issue in question. Please ensure you refer to the specific set of criteria relevant to your organization.

Notation	Theme
CC	Climate change
F	Forests
W	Water security

## Primary sector scoring in 2025

Along with environmental issue areas, each question in the questionnaire is tagged to sectors. Organizations in high-impact sectors will be presented with questions specific to that sector and may be scored differently in general questions that display for all responders.

The sector-based approach allows CDP to make more meaningful assessments of organizations' responses, incorporating each sector's characteristics and nuances, resulting in a score that reflects the organization's progress in environmental stewardship and enabling better benchmarking against other companies.

Responders will only be scored on their primary questionnaire sector. This means that if more than one set of sector questions applies to your organization, then not all questions will be scored. However, CDP encourages organizations to respond to all questions that apply to them.

Each question is tagged to one or more sectors, listed under the question text. The following notations have been used in this document to denote sectors (Table 2). For some questions, different scoring criteria may apply to different sectors. You may need to check further down to find the correct criteria for your sector in these instances.

Notation	Sector
AC	Agricultural commodities
CG	Capital goods
CE	Cement
CH	Chemicals
CO	Coal
CN	Construction
EU	Electric utilities
FB	Food, beverage & tobacco
FS	Financial services
GN	General
MM	Metals & mining
OG	Oil & gas
PF	Paper & forestry
RE	Real estate
ST	Steel
TO	Transport OEMS
TO-EPM	Transport OEMS-EPM
TS	Transport services

## Disclaimer

This scoring methodology is intended to provide guidance to organizations in relation to how their response will be scored. In common with other scoring processes of this type, we expect to make future adjustments, during the disclosure cycle, to optimize the clarity of the scoring methodology in context of responses received. Adjustments to the scoring methodology should have minimal impact on your response planning/resource allocation.

CDP therefore reserves the right to amend or alter scoring criteria displayed in the scoring methodology at any time during the disclosure cycle. Such adjustments will be made without obligation to give advance notice, but any adjustments made from time to time will be listed and displayed prominently. Please refer to the Version Control to view updates notifying you of adjustments.

Notwithstanding that CDP reserves the right to amend or alter its scoring criteria during the disclosure cycle, CDP commits to use best endeavors to only make adjustments where essential to ensure that our scoring methodology remains robust and effective for the purpose of assessing progress towards environmental stewardship.

### ***Management criteria***

Points will be awarded for all rows (excluding both rows 'Other (upstream)' AND 'Other (downstream)'):

ROUTE A)

The following conditions must be met to be eligible for Management points:

'Not relevant, explanation provided' selected in column 'Evaluation status' in any row excluding both rows 'Other (upstream)' AND 'Other (downstream)' AND Column 'Base year emissions (metric tons CO2e)' must be completed in all corresponding rows in question 7.5 where either 'Relevant, calculated' OR 'Not relevant, calculated'

selected in column 'Evaluation status' in question 7.8.

i) Sum of all figures provided in column 'Base year emissions (metric tons CO<sub>2</sub>e)' in question 7.5 is greater than the sum of all of the following - 1 point  
Figure provided in column 'Gross global Scope 1 emissions...' in row 'Reporting year' in question 7.6 AND  
Figure provided in either column 'Scope 2, location-based' OR 'Scope 2, market-based (if applicable)' in row 'Reporting year' in question 7.7 AND  
Figure provided in column 'Emissions in reporting year (metric tons CO<sub>2</sub>e)' in question 7.8.

ii) Either 'Relevant, calculated' OR 'Not relevant, calculated' selected in column 'Evaluation status' AND  
Figure greater than 0 provided in column 'Emissions in reporting year (metric tons CO<sub>2</sub>e)' in any of the following rows - 1 point  
- 'Fuel and energy related activities'  
- 'Upstream transportation and distribution'  
- 'Purchased goods and services'  
- 'Capital goods'  
- 'Use of sold products'

iii) For all rows where 'Not relevant, explanation provided' selected in column 'Evaluation status' text answer provided in column 'Please explain' does not contradict information provided in column 'Evaluation status' - 1 point

A maximum of 3/3 points is available for this route.

OR

#### ROUTE B)

The following conditions must be met to be eligible for Management points:

Any option excluding 'Not relevant, explanation provided' selected in column 'Evaluation status' in all rows excluding both rows 'Other (upstream)' AND 'Other (downstream)' AND

### 7.30.14 - (ST) Scoring criteria

#### ***Disclosure criteria***

Column 'Sourcing method' must be completed to be eligible for Disclosure points.

Points will be awarded per completed cell in proportion to the number of rows disclosed (excluding column 'Commissioning year of the energy generation facility...'). Partially completed rows will not receive full points.

A maximum of 7/7 points is available for this question.

#### ***Awareness criteria***

Full Disclosure points must be awarded to be eligible for Awareness points.

##### ROUTE A)

Any option selected excluding either 'None (no active purchases of low-carbon electricity, heat, steam or cooling)' OR 'Default delivered electricity from the grid (e.g. standard product offering by an energy supplier) from a grid that is 95% or more low-carbon and where there is no mechanism for specifically allocating low-carbon electricity' in column 'Sourcing method' – 2 points

A maximum of 2/2 points is available for this route.

OR

##### ROUTE B)

'Default delivered electricity from the grid (e.g. standard product offering by an energy supplier), from a grid that is 95% or more low-carbon and where there is no mechanism for specifically allocating low-carbon electricity' selected in column 'Sourcing method' AND

Any of the following selected in both columns 'Country/area' AND 'Country/area of origin (generation) of the low-carbon energy or energy attribute' in all rows - 2 points

#### **Disclosure criteria**

Points will be awarded per completed cell in proportion to the number of rows disclosed excluding the following columns:

- 'Base year total Scope 3 emissions covered by target (metric tons CO2e)'
- 'Total base year emissions covered by target in all selected Scopes (metric tons CO2e)'
- 'Total Scope 3 emissions in reporting year covered by target (metric tons CO2e)'
- 'Total emissions in reporting year covered by target in all selected scopes (metric tons CO2e)'
- 'Total emissions at the end date of target covered by target in all selected Scopes (metric tons CO2e)'
- '% of target achieved relative to base year'

Partially completed rows will not receive full points.

A maximum of 14/14 points is available for this question.

#### **Awareness criteria**

The following conditions must be met to be eligible for Awareness points:

At least 8 Disclosure points awarded AND

Year provided in column 'Date target was set' is not before year provided in column 'End date of base year'.

i) Date provided in column 'End date of target' is 4 years or more after year provided in column 'Date target was set' - 2 points

ii) Any of the following selected in column 'Is this a science-based target?' - 1 point

- 'Yes, and this target has been approved by the Science Based Targets initiative'
- 'Yes, we consider this a science-based target, and this target is currently being reviewed by the Science-Based Targets initiative'
- 'Yes, we consider this a science-based target, and we have committed to seek validation of this target by the Science-based target initiative in the next two years'

OR

'No, but we anticipate setting one in the next two years' selected in column 'Is this a science-based target?' - 0.5/1 points

iii) Figure greater than 0 provided in column '% of target achieved relative to base year' OR 'New' selected in column 'Target status in reporting year' AND date provided in column 'Date target was set' is within the reporting year indicated by column 'End date' in question 1.4 - 2 points
