

CDP's Commodity Management KPIs

Essential actions to halt deforestation

Foundations

DIRO Assessment

Basic: Value chain mapping, priority locations identification and forest-related risk & opportunity assessment.
Full: Basic + comprehensive forest-related DIRO assessment.

Risks and Opportunities

Basic: Forest-related risks/opportunities disclosure with magnitude and likelihood if substantive.
Full: Basic + quantitative details if substantive.

Scenario Analysis

Full: Scenario analysis used to consider forest-related outcomes.

Governance

Governance

Basic: Board-level oversight (if applicable) and management responsibility, with annual reporting.
Full: Basic + governance mechanisms and incentives for deforestation/conversion action and key board/management position oversight/responsibility and environmental competence.

Policies

Basic: Public, organization-wide no-deforestation/conversion policy for direct operations (if producer) or direct and upstream operations.
Full: Basic + 2025 (or earlier) target date and FPIC and ILO commitments.

Implementation strategy

Strategy & Financial Planning

Basic: Forest-related risks/ opportunities affect strategy and/or financial planning.
Full: Basic + specified financial planning elements affected are disclosed.

Traceability

Basic: Traceability system for sourced volumes.
Full: Basic + >90% of sourced volume traced to production unit or sourcing area (<5% excluded with valid reason).

Ecosystem Protection & Restoration

Basic: Ecosystem restoration/ protection projects supported or implemented.
Full: Basic + benefits monitored biennially and project locations disclosed.

Metrics and targets

Coverage

Full: Discloses on >95% of total commodity volume (>5% excluded with valid reason, e.g., acquisition, embedded soy, recycled content).

Accounting

Basic: Commodity volumes and origins disclosed.
Full: Basic + discloses DF/DCF data, and full commodity info (unless valid exclusion).

Verification

Basic: Third-party verification of volumes and origins.
Full: Basic + third-party verification of DF/DCF data.

No Deforestation/No-Conversion Targets

Basic: No-deforestation/ conversion target.
Full: Basic + organization-wide target with 2020 cutoff and 2025 (or earlier) date.

DF/DCF Status

Basic: DF/DCF status assessed and % of disclosure volume determined as DCF reported.
Full: Basic + >90% of disclosure volume robustly determined as DF/DCF (<5% excluded with valid reason).

Engagement strategy

Value Chain Engagement

Basic: Suppliers/smallholders engaged on deforestation/ conversion, forest-related requirements in supplier contracts and non-compliance policy.
Full: Basic + robust requirements for tier 1 suppliers, non-compliance process, and technical support/ financial incentives for >50% of tier 1 suppliers/smallholders.

Landscape Engagement

Basic: Landscape/ jurisdictional initiatives participation.
Full: Basic + Multi-goal, multi-partner initiative engagement with shared monitoring and initiative area disclosed.

Policy Engagement

Basic: External engagement influencing environmental policy/law assessed or conducted
Full: Basic + public commitment to Kunming-Montreal Framework aligned engagement and alignment of direct/ indirect engagement if it occurs.
