

Seamless CDP Reporting with Gravity

Draft responses, track progress, and submit to CDP – directly from Gravity’s integrated platform.

Collaboration tools

Gravity empowers you to assign specific questions to collaborators and track progress to hit CDP submission deadlines.

Draft responses

If you disclosed to CDP last year, Gravity will pull forward historical answers to give you a starting point.

Multi-framework mapping

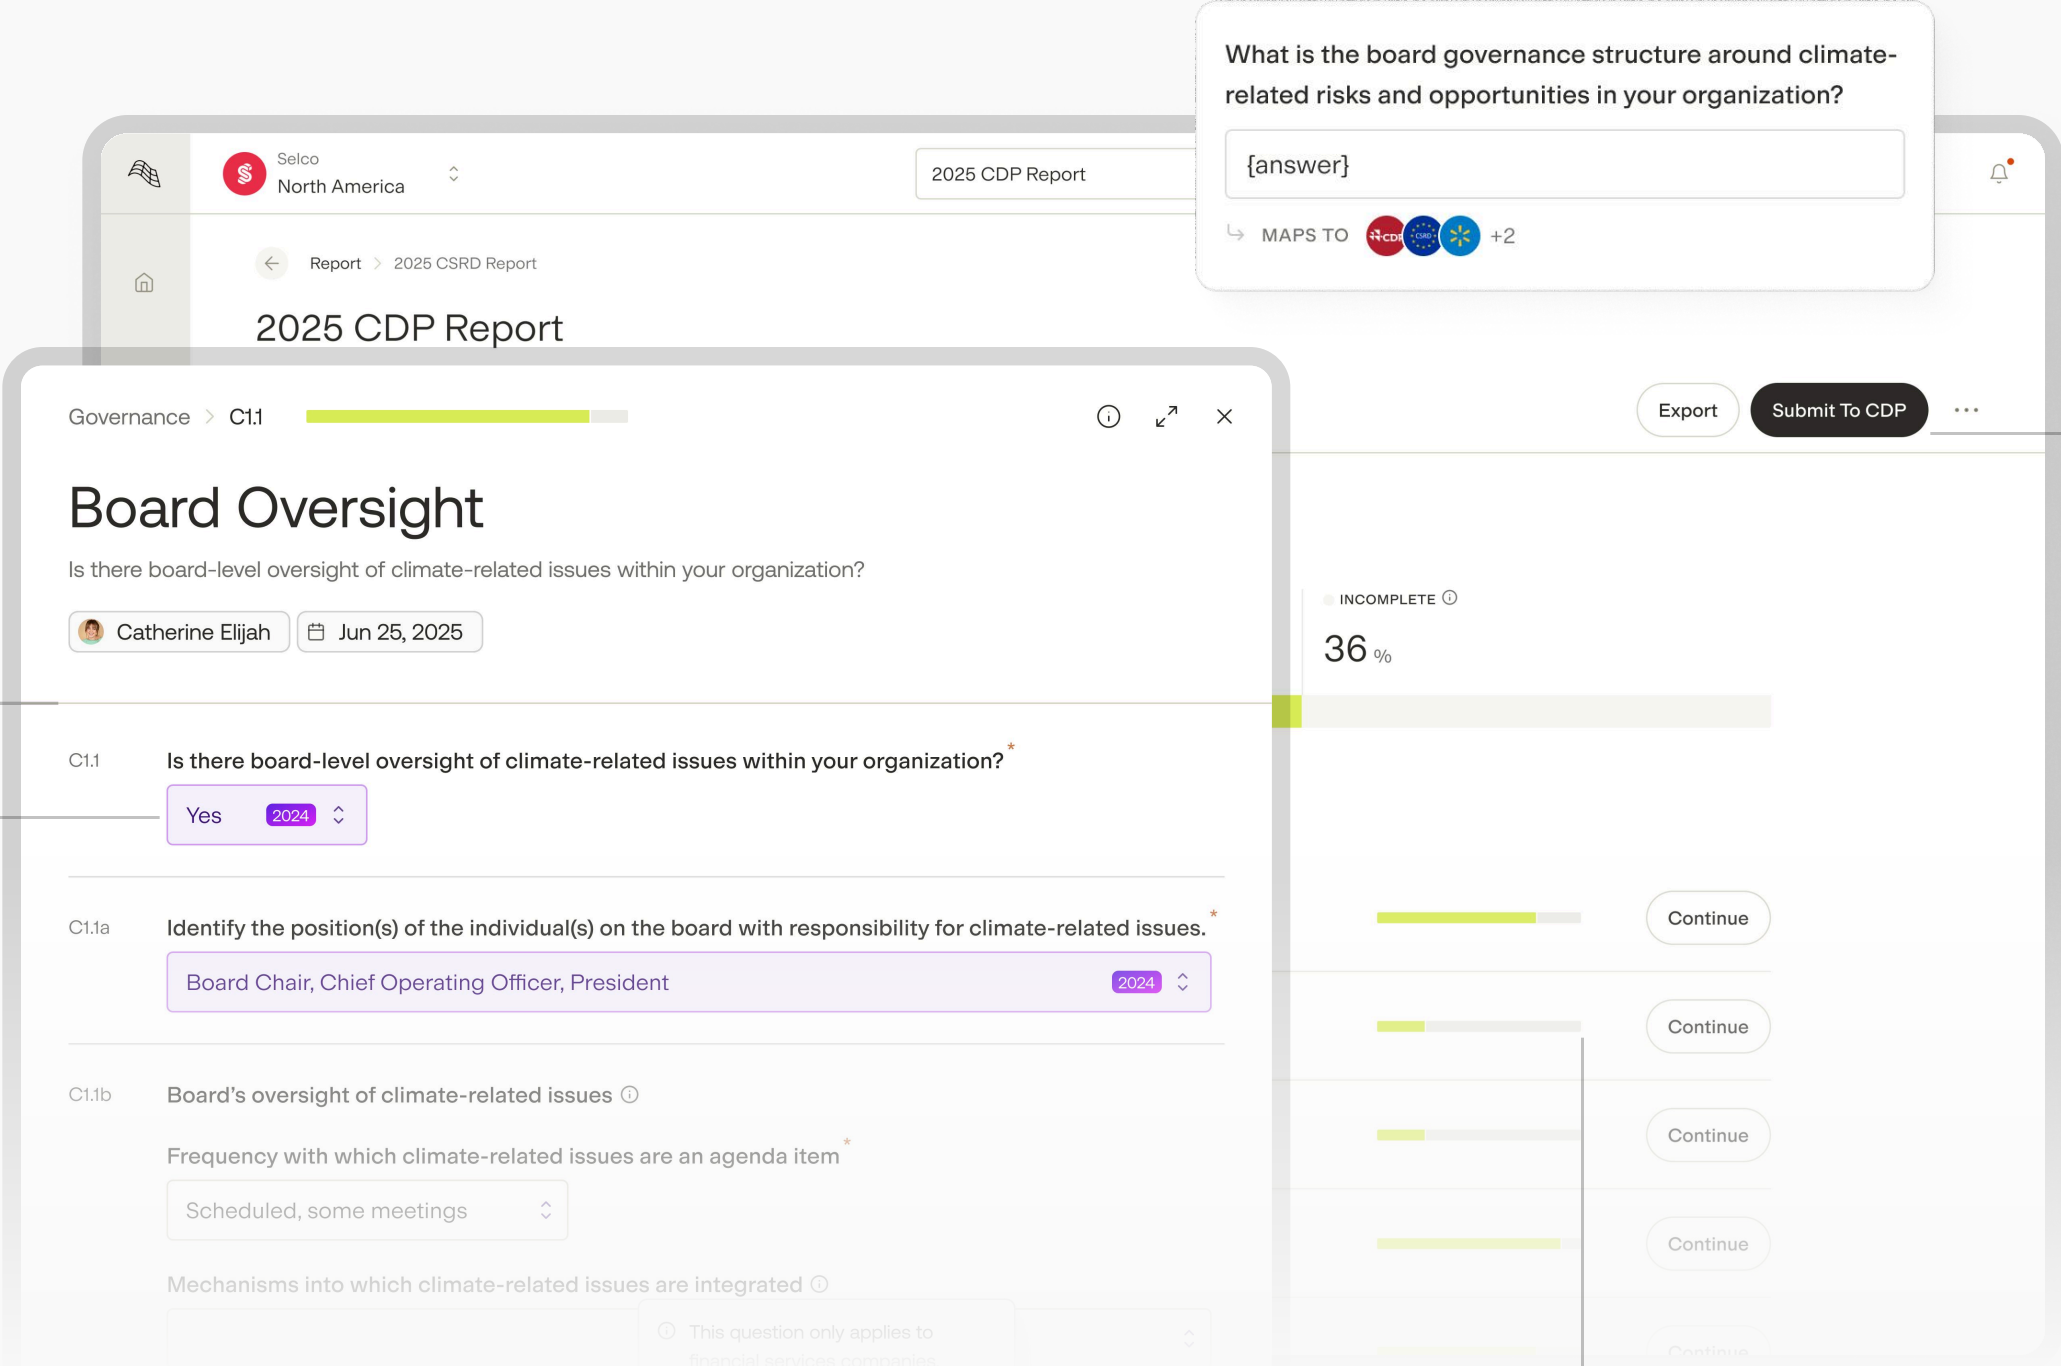

Gravity will leverage your CDP answers to fulfill other framework responses.

One-click submission

Submit your answers to the CDP portal via API, directly from the Gravity platform.

Emissions & energy reporting

Gravity’s utility bill scanning and API integrations process thousands of documents quickly, accelerating emissions and energy reporting.

CDP recommends Gravity as a preferred provider for disclosure with its accredited service provider (ASP) designation.

Each summer, nearly 25,000 companies disclose environmental metrics and narrative responses through the CDP platform.

Streamline Sustainability Disclosure with Gravity

Report against regulatory and voluntary frameworks quickly and with confidence, using Gravity’s integrated tools for drafting, collaboration, and assurance.

Employees	+12 >
Workplace Injury Rate	+8 >
Board Members	+10 >

Automatically Repurpose Answers Across Frameworks

Spend less time repeating yourself. Gravity maps similar questions across reporting frameworks and automatically provides draft answers based on your previous responses.

2025 California Disclosure > Data Requests	
Hybrid Engineering	<div><div></div></div>
Smith Industrials	<div><div>COMPLETE</div></div>
New Value Motors	<div><div>COMPLETE</div></div>

Collaborate on Drafts & Track Completeness

Chase fewer stakeholders. Gravity lets you assign parts of your disclosure to colleagues or other stakeholders, no login required, and track progress against reporting deadlines.

What is the board governance structure around climate-related risks and opportunities in your organization?

{answer}

MAPS TO +2

Start with Preloaded Questions & Clear Guidance

It can be hard to know where to start or what “good” disclosure looks like. Gravity surfaces relevant questions and embeds official guidance and best practices right where you draft.
