CDP States and Regions Scoring Methodology

States and Regions Methodology Changes 2025

Introduction

This document highlights changes to CDP's scoring methodology for the States and Regions questionnaire. The document indicates the main changes that have occurred between 2024 and 2025 in the respective scoring bands. In 2025, few changes have been made and mainly center around improving methodology clarity and updating year requirements, rather than increasing ambition. A summary of the rationale for these changes is provided.

Disclaimer

This scoring methodology changes document is intended to provide guidance to cities in relation to how their response will be scored in 2025. In common with other scoring processes of this type, we expect to make future adjustments, during the disclosure cycle, to optimise the clarity of the scoring methodology in context of responses received. Adjustments to the scoring methodology should have minimal impact on your response planning/resource allocation.

CDP therefore reserves the right to amend or alter scoring criteria displayed in the scoring methodology at any time during the disclosure cycle. Such adjustments will be made without obligation to give advance notice, but any adjustments made from time to time will be listed and displayed prominently. Please refer to the Version Control to view updates notifying you of adjustments.

Notwithstanding that CDP reserves the right to amend or alter its scoring criteria during the disclosure cycle, CDP commits to use best endeavours to only make adjustments where essential to ensure that our scoring methodology remains robust and effective for the purpose of assessing progress towards environmental stewardship.
