Full Corporate Questionnaire

The table below provides details of revisions made to the CDP full corporate questionnaire and reporting guidance following its initial publication. This table will be periodically updated if further revisions are made to the questionnaire and reporting guidance during the 2026 disclosure cycle.

Version	Release / Revision date	Revision summary
1.0	Released: April 22, 2026	Publication of the 2026 full corporate questionnaire and reporting guidance.
1.1	Revised: June 10, 2026	5.10.2: guidance amended for column "Details of how the pricing approach is monitored and evaluated to achieve your objectives" (column 16), to clarify when the column appears. Access to Capital tags added to the guidance to indicate questions that are part of specific CDP capital markets signatory datasets. Alignment with jurisdictional IFRS S2-based climate standards are now indicated under framework alignment.
1.2	Revised: July 13, 2026	5.12: column "Requesting member" updated so it is no longer mandatory. 7.8: column "Emissions calculation methodology" updated so that relevant dropdowns appear. • For category 1 "Purchased goods and services", dropdown "Supplier specific-method" will now appear; • For category 7 "Employee commuting", dropdown "Average data method" will now appear, but "Average spend-based method" will not; And, • For categories 13 "Downstream leased assets" and 14 "Franchises", dropdown "Average data method" will now appear.

	7.12.1: column “Please explain” dependency updated to unlock in every row, except in row “Biogenic product CO2 emissions (as gross CO2 fluxes)” where it will unlock if a selection is made in any of columns “Scope 1”, “Scope 2” or “Scope 3”. 7.30.15: guidance updated with link to the latest RE100 reporting guidance.

SME Questionnaire

The table below provides details of revisions made to the CDP SME questionnaire and reporting guidance following its initial publication. This table will be periodically updated if further revisions are made to the questionnaire and reporting guidance during the 2026 disclosure cycle.

Version	Release / Revision date	Revision summary
1.0	Released: April 22, 2026	Publication of the 2026 SME questionnaire and reporting guidance.
1.1	Revised: July 13, 2026	18.4: column "Requesting member" updated so it is no longer mandatory.

Full Corporate Scoring methodology

The table below provides details of revisions made to the CDP full corporate scoring methodology following its initial publication. This document will be periodically updated if further revisions are made to the scoring methodology during the 2026 disclosure cycle.

You can also see updates to the essential criteria in the CDP essential criteria documents, available on the CDP website.

Version	Release / Revision date	Question number / Essential criteria	Revision summary
1.0	Released: April 2026	N/A	Publication of the 2026 full corporate scoring methodology.
1.1	Revised: June 10, 2026	2.2.2	For organizations disclosing on forests, leadership level criteria vii) has been corrected to include the list of acceptable drop-down options when 'Upstream value chain' is not selected in column 'Value chain stages covered'.
		2.4	For organizations disclosing on forests and water security, management level criteria have been corrected for all sectors to align with climate change.
		4.11.1	For organizations disclosing on climate change, forests or water security, the NOT APPLICABLE ROUTE) has been removed at disclosure level for all sectors as it is redundant.
		5.1.2	For financial services organizations disclosing on water security, awareness criteria have been corrected to reflect the same changes that have occurred for climate change and forests (FS). Please refer to page 33 of the 'CDP Full Corporate

Version	Release / Revision date	Question number / Essential criteria	Revision summary
			Scoring Changes 2026' document for further details of this change.
		5.11.6	For organizations disclosing on climate change, forests and water security, the eligibility criteria at awareness level have been clarified to improve readability of criteria and clarity of its applicability. This update is relevant for all sectors excluding financial services organizations.
		5.11.6	For organizations disclosing on climate change, forests and water security, criteria iii) has been amended at awareness level to incentivise that even where 100% of tier 1 suppliers are in compliance with environmental requirements, the organization still has a response in place if non-compliance arises. This change is in response to questionnaire functionality improvements for 2026. This update is relevant for all sectors.
		5.11.7	For organizations disclosing on climate change, forests and water security, the eligibility criteria at awareness level have been clarified to improve readability of criteria and clarity of its applicability. Scoring pathway for organizations not selecting 'Tier one suppliers' in column 'Upstream value chain coverage' has also been clarified. This update is applicable to all sectors except for financial services for forests and water security.
		5.11.7	For all organizations excluding financial services disclosing on forests and water security, correction to scoring pathway in eligibility criteria at awareness level for organisations selecting 'None' or 'Unknown ' in column % Tier 1 suppliers meeting the threshold for substantive

Version	Release / Revision date	Question number / Essential criteria	Revision summary
			dependencies and/or impacts on the environment' in question 5.11.1
		7.12	For organizations disclosing on climate change, a new non-disclosure route has been added at both disclosure and awareness level for all sectors to reflect question dependencies and incentivise reporting of key data points. The non-disclosure route is only applicable to organizations who leave column 'Agriculture, forestry or other land sector activities' blank.
		7.13	For organizations disclosing on climate change, a new non-disclosure route has been added at both disclosure and awareness level for all sectors to reflect question dependencies and incentivise reporting of key data points. The non-disclosure route is only applicable to organizations who leave column 'Technological CO2 removals or captured CO2 with geologic storage in the reporting year' blank.
		7.15	For coal, energy utilities and power generator and oil and gas organizations disclosing on climate change, the non-disclosure route penalty has been corrected at disclosure level to reflect question dependencies and incentivise reporting of key data points.
		7.15	For organizations disclosing on climate change, the non-disclosure route penalty has been updated at awareness level for all sectors to reflect question dependencies and incentivise reporting of key data points.

Version	Release / Revision date	Question number / Essential criteria	Revision summary
		7.30.15	For organizations disclosing on climate change, ROUTE D criteria have been corrected at awareness level to clarify that the cross-check with question 7.30.9 refers to row 'Electricity'. This update is applicable to all sectors excluding energy utilities and power generators and financial services organizations.
		7.30.15	For organizations disclosing on climate change, a correction to a column reference has occurred at awareness, management and leadership level. Column ‘Country/area of electricity consumption’ updated from ‘Country/area’ to align with the questionnaire. This update is applicable to all sectors excluding energy utilities and power generators and financial services organizations.
		7.53.1 / 7.53.2	For organizations disclosing on climate change, the SBTi route criteria at awareness level has been updated for all sectors to remove the check on the date the target was set. Validated targets will have already been assessed by the SBTi.
		7.53.2	For organizations disclosing on climate change, SBTi ROUTE) criteria i) has been updated at management level to align with 7.53.1. This is a clarification that both scope 1 and scope 2 targets are required to be awarded points along the SBTi ROUTE.
		7.62 / 7.63	For oil and gas and coal organizations disclosing on climate change, a minor correction has been made to drop-down option referenced in ROUTE B at management level to reflect the questionnaire.

Version	Release / Revision date	Question number / Essential criteria	Revision summary
		7.79.1	For organizations disclosing on climate change, leadership level criteria has been updated to expand the list of approved standards accepted in column 'Carbon-crediting program by which the credits were issued' for all sectors to also include 'Global Carbon Council', 'Puro.earth' and 'Riverse'.
		9.2.7	For organizations disclosing on water security, a correction has been made to clarify that option 'About the same' in column 'Comparison with previous reporting year' for row 'Groundwater – non-renewable 'does not meet the eligibility criteria for management level. Note this is the same approach taken in 2025. This change is relevant to all sectors excluding financial services.
		9.2.9	For organizations disclosing on water security, the point allocation has been corrected from 7 to 6 at disclosure level for all sectors excluding financial services organizations. This change is to reflect the number of columns in the question.
		9.14	For organizations disclosing on water security, reference to a drop-down option that was removed in the questionnaire has been removed from the scoring methodology at awareness level. The removed option was 'Other efficiency indicator used, please specify'. This update is relevant for all sectors excluding financial services.
		9.15	For organizations disclosing on water security, ROUTE A criteria at awareness level has been updated to denote the categories of targets that are acceptable if 'Yes' is selected in column 'Target set in this category' in row 'Other'. This is to clarify

Version	Release / Revision date	Question number / Essential criteria	Revision summary
			that 'Other, please specify' options will not be awarded points.
		9.15.1	For organizations disclosing on water security, the eligibility criteria at management level has been clarified in line with the wording of climate change criteria to improve readability. There is no change to how this level is scored. Criteria i has also been clarified.
		9.15.1	For organizations disclosing on water security, the formula at leadership level has been corrected for all sectors excluding financial services organizations.
		EC-CC28	For financial services organizations disclosing on climate change, EC-CC28 has been updated at Leadership level to clarify the applicability of ROUTE A and ROUTE B criteria. Please refer to the 'CDP Climate Change Scoring Essential Criteria 2026' document for more details.
		EC-CC7	For organizations disclosing on climate change, EC-CC7 has been updated at A-list level for all sectors to clarify the scoring approach. Please refer to the 'CDP Climate Change Scoring Essential Criteria 2026' document for more details.
		EC-F3	For organizations disclosing on forests, EC-F3 has been updated to clarify the question number (1.22) that is cross checked at Leadership level. Please refer to the 'CDP Forests Scoring Essential Criteria 2026' document for more details
		EC-W6	For organizations disclosing on water security, EC-W6 has been updated at A-list level to clarify that

Version	Release / Revision date	Question number / Essential criteria	Revision summary
			ROUTE B is applicable to organisations who do not have a board of directors or equivalent governing body. Please refer to the 'CDP Water Security Scoring Essential Criteria 2026' document for more details

SME Scoring methodology

The table below provides details of revisions made to the CDP SME scoring methodology following its initial publication. This document will be periodically updated if further revisions are made to the scoring methodology during the 2026 disclosure cycle.

Version	Release / Revision date	Question number	Revision summary
1.0	Release: April 2026	N/A	Publication of the 2026 SME scoring methodology.
1.1	Revised: June 10 2026	17.1.1	For organizations disclosing on climate change, criteria i at management level has been updated to clarify the requirement that any option excluding 'Other position, please specify' should be selected in column 'Position of individual or committee with responsibility'. This is corrected from 'Other, please specify'.
