

SME Questionnaire

Supply Chain Standard Supplier Support Webinar

June 2025

A solid red triangle pointing towards the bottom-left corner of the slide.

Viewing the slides in German

The screenshot shows a presentation slide with the CDP logo in the top right corner. The slide title is "SME Questionnaire", followed by a subtitle "Supply Chain Standard Supplier Support Webinar" and the date "Juni 2025". A red triangle in the bottom left corner indicates a zoomed-in area. A context menu is open over this area, showing options: "Magnify slide only for me", "View slides in high contrast", and "Translate slides". The "Translate slides" option is selected, and a sub-menu is open showing language options: "Original", "Deutsch" (checked), "English", "Español", "Français", and "Gaeilge". The "Deutsch" option is highlighted with a red rectangle. The bottom of the slide shows navigation controls, including a back arrow, "1 of 53", a forward arrow, a grid icon, and a menu icon (three dots) which is also highlighted with a red rectangle.

Contents

1. Who's SME Questionnaire for ?

2. Full vs. SME Questionnaires : Key Differences

3. Questionnaire Overview

4. Collecting & Reporting Essential Data

5. Getting Started & Key Resources

Who's SME Questionnaire for ?

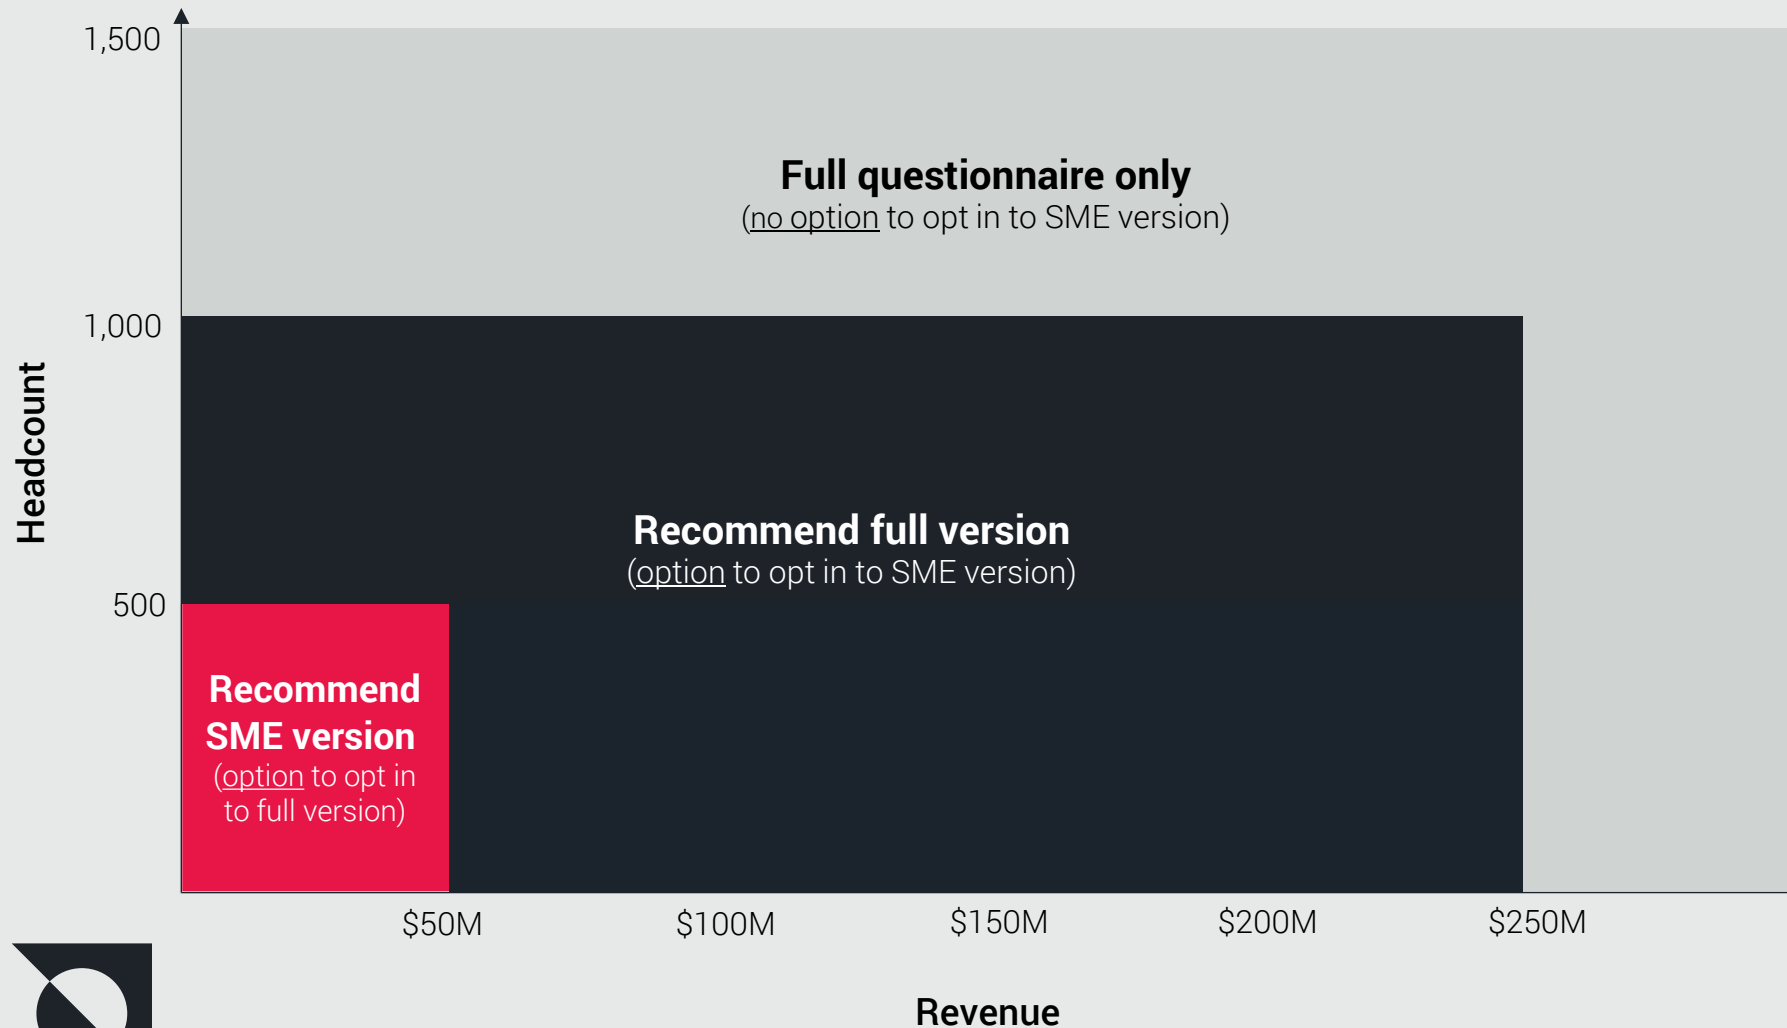

No One Size Fits All

- CDP recognizes that **Small and Medium Enterprises (SMEs)** may have different **reporting capabilities & requirements** compared to larger organizations.
- **CDP SME Questionnaire** is dedicated to small- and medium-enterprises (SMEs). This will make it easier to understand where SMEs should focus their attention, **build capacity and act**.
- **CDP SME Questionnaire** is tailored to the needs of SMEs and contains fewer questions, simplified format and enhanced guidance, which makes CDP's climate-focused SME questionnaire well-matched to the resources of SMEs.

SME Criteria and Options for Disclosure

Questionnaire Eligibility:

- SME recommended (option to opt to full): IF headcount <500 AND revenue <US\$50 million
- Full recommended (option to opt to SME): IF headcount <500 AND revenue 50M> US\$250 million, OR IF headcount 500-1,000 AND revenue < US\$250 million
- Full (no option to opt to SME): IF headcount >1,000 OR revenue >US\$250 million

Scope of SME Questionnaire

- Headcount, revenue, and Activity Classification System (ACS) data.
- Tailored integrated datapoints, including risk and opportunities, governance, and strategy.
- Tailored environmental performance climate change module.
- Integrated Forests and Water security datapoints to kickstart disclosure journey for these themes.
- Supply chain requested content, spread throughout the questionnaire.

Questionnaire Differences Full vs SME

Corporate Questionnaire: Full & SME

Module 1 – Introduction

Module 2 – Identification, Assessment & Management of Dependencies, Impacts, Risks, & Opportunities

Module 3 – Disclosure of Risks & Opportunities

Module 4 – Governance

Module 5 – Business Strategy

Module 6 – Environmental Performance – Consolidation Approach

Module 7 – Environmental Performance – Climate Change

Module 8 – Environmental Performance - Forests

Module 9 – Environmental Performance – Water Security

Module 11 – Environmental Performance – Biodiversity

Module 10 – Environmental Performance – Plastics

Module 12 – Environmental Performance – Financial Services

Module 13 – Further Information & Sign off

Integrated modules

Across Climate Change, Water Security and Forests
Only Climate Change is scored.

Climate-specific modules

Integrated module

SME Questionnaire Modules

Module 14: Introduction

Module 15: Identification, Assessment & Management of Risks & Opportunities

Module 16: Disclosure of Risks & Opportunities

Module 17: Governance

Module 18: Business Strategy

Module 19: Environmental Performance – Consolidation Approach

Module 20: Environmental Performance – Climate Change

Module 21: Further Information & Sign off

Comparable Insights Across Full & SME versions

Questions (datapoints) commonly prioritised by Members for 1st time disclosers

	Full corporate questionnaire	SME questionnaire
Scope 1, 2 & 3 emission	7.6 , 7.7, 7.8	20.4, 20.5, 20.7
Verification	7.9, 7.9.1, 7.9.2	20.8
Emission allocation	7.26, 7.45	20.12
Target	7.53, 7.53.1/7.53.2	20.16, 20.16.1or 20.16.2
Emission reduction activities	7.55.2	20.17
Energy consumption	7.30, 7.30.1	20.15.2

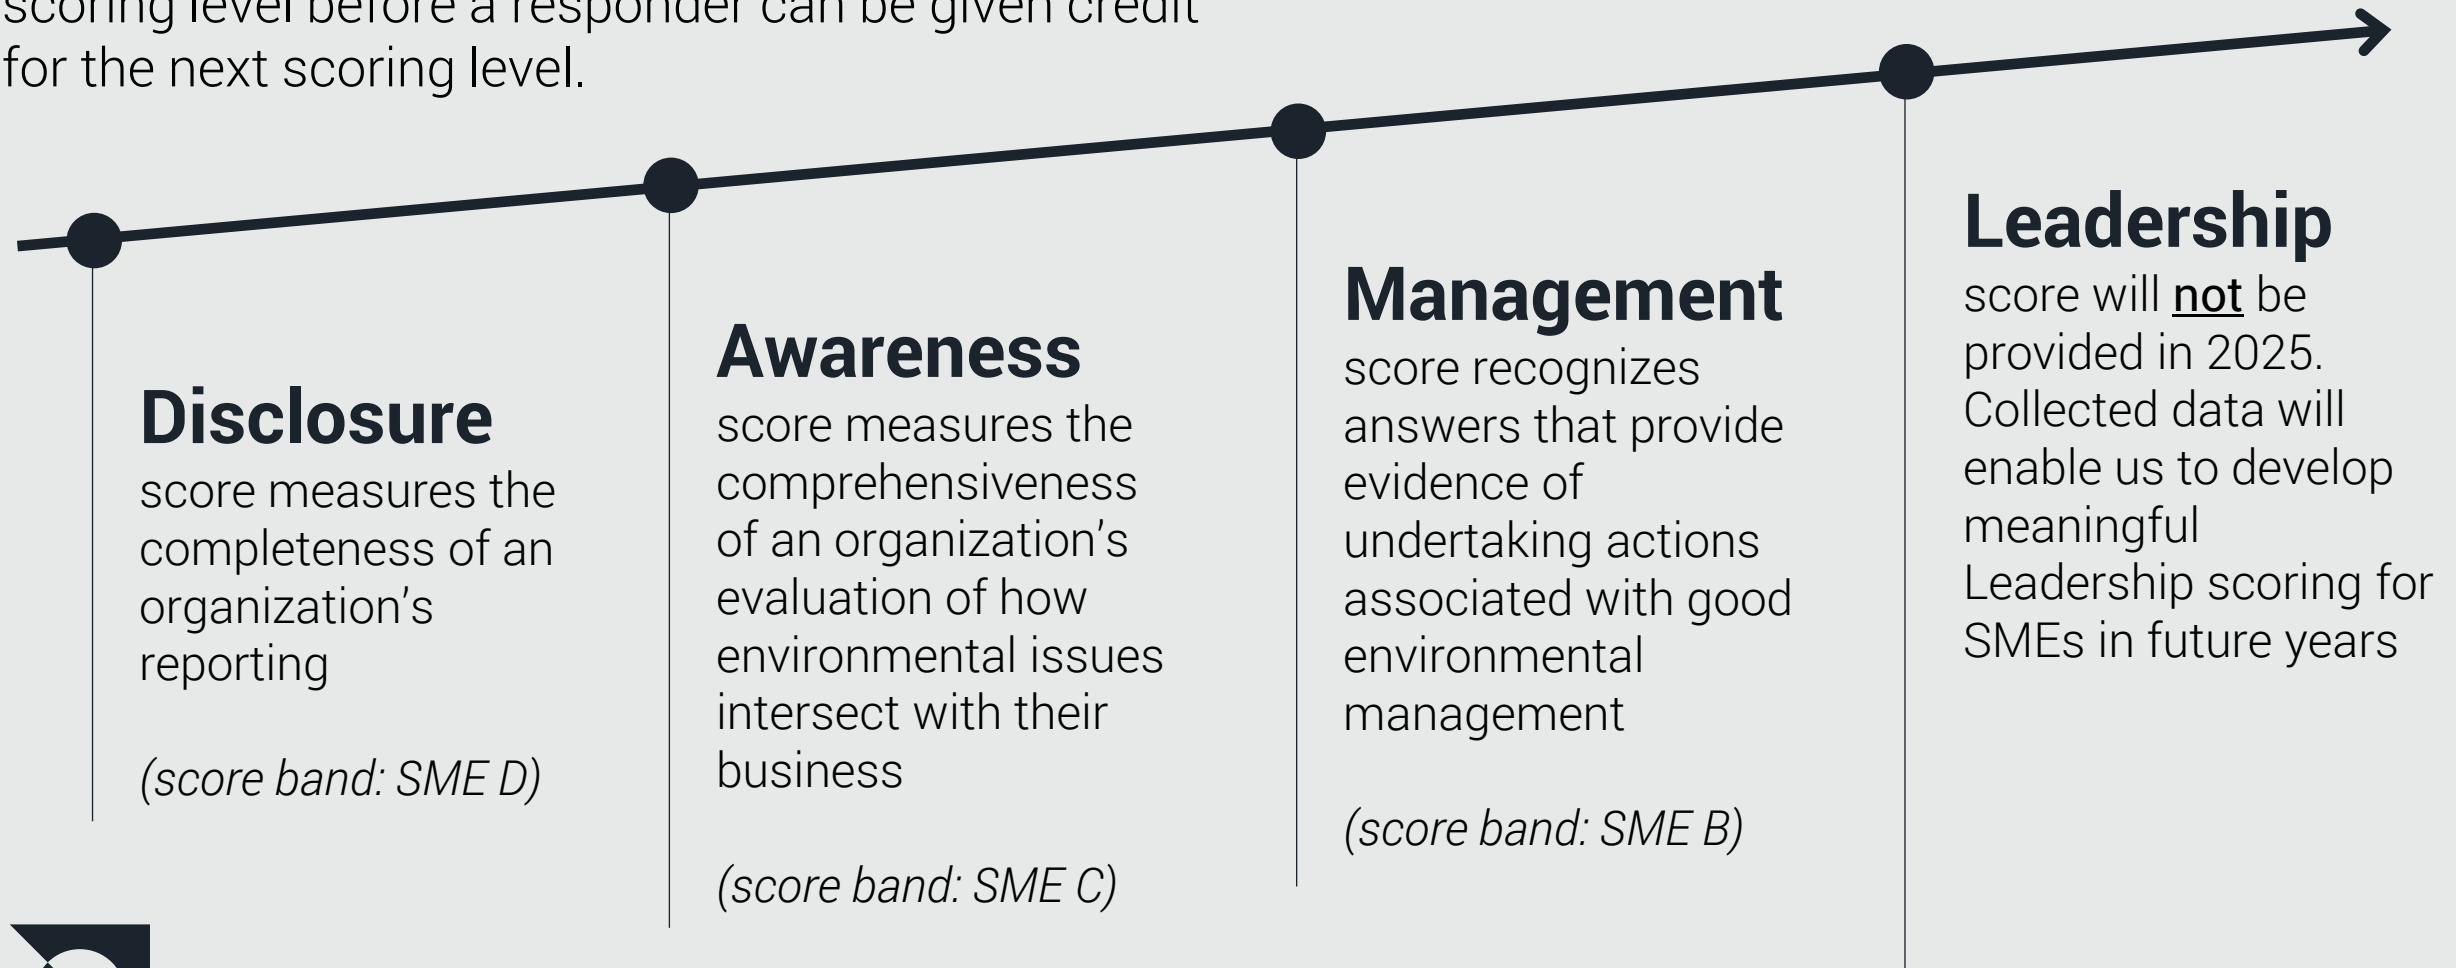

Example of how a question is redesigned to better suit SMEs :

- **Full version (4.1)** - Does your organization have a board of directors or an equivalent governing body ?
- **SME version (17.1)** - Is there responsibility for environmental issues within your organization?

Progressing Towards Environmental Stewardship

Minimum score requirements must be met at one scoring level before a responder can be given credit for the next scoring level.

Questionnaire Overview

Example Roadmap for Disclosing Suppliers

Phase 1: Establish foundation

Phase 2: Build capacity

Phase 3: Improve performance

What kind of information is required?

The 5W1H in reporting for your company

Collecting & Reporting Essential Data

Introductory Module

Reporting Period and General
Information

Start & End Date of Accounting

○ Unanswered 14.4

State the end date of the year for which you are reporting data.

This question allows for the establishment of context to enable consistent year-to-year comparisons and assessments of an organization's environmental progress. It enhances transparency and accountability and aids data users in interpreting your responses in relation to the reported timeframe.

What **period** should I be accounting for?

The best practice for carbon accounting typically **follows** that of **the financial year, e.g. FY2024**

Rationale: There are certain metrics such as intensity – that **requires input of financial data of the same period** to determine your emissions efficiency – e.g. emissions intensity.

This also follows best practice according to ISSB standards and the GHG protocol.

Module Preparation

- Introduction module lays the foundation of the questionnaire
 - What is reported should be applied across the entire response, including currency, reporting period and boundary.
- Scoring language: English, Chinese, Japanese, Portuguese and Spanish
- Reporting year typically align with financial year
- Collaboration among sustainability team, procurement team and finance team is necessary to complete the questionnaire effectively.

Document you may need:

- ☐ Financial Statement
- ☐ Brief introduction of your organization

The WHY

Environmental Risks and
Opportunities

Why Risks and Opportunities?

Risks

SMEs are especially vulnerable to risks, which includes **environmental risks** borne from environmental issues.

Having robust risk assessment and management builds **business resilience**. It is increasingly important to banks and lenders.

Opportunities

SMEs are small and flexible, capable to **innovate towards providing environmental solutions**.

Having robust opportunities identification and management will allow you **to have a competitive edge and capitalise on opportunities**.

Risks and Opportunities - Processes

2024 SME MODULES
M14 Introduction
M15 Identification, assessment and management of risks and opportunities
M16 Disclosure of risks and opportunities
M17 Governance
M18 Business strategy
M19-20 Environmental performance
M21 Further information & sign off

Module 15: Identification, assessment and management of risks and opportunities

Process for identifying, assessing, and managing risks and opportunities

C F W

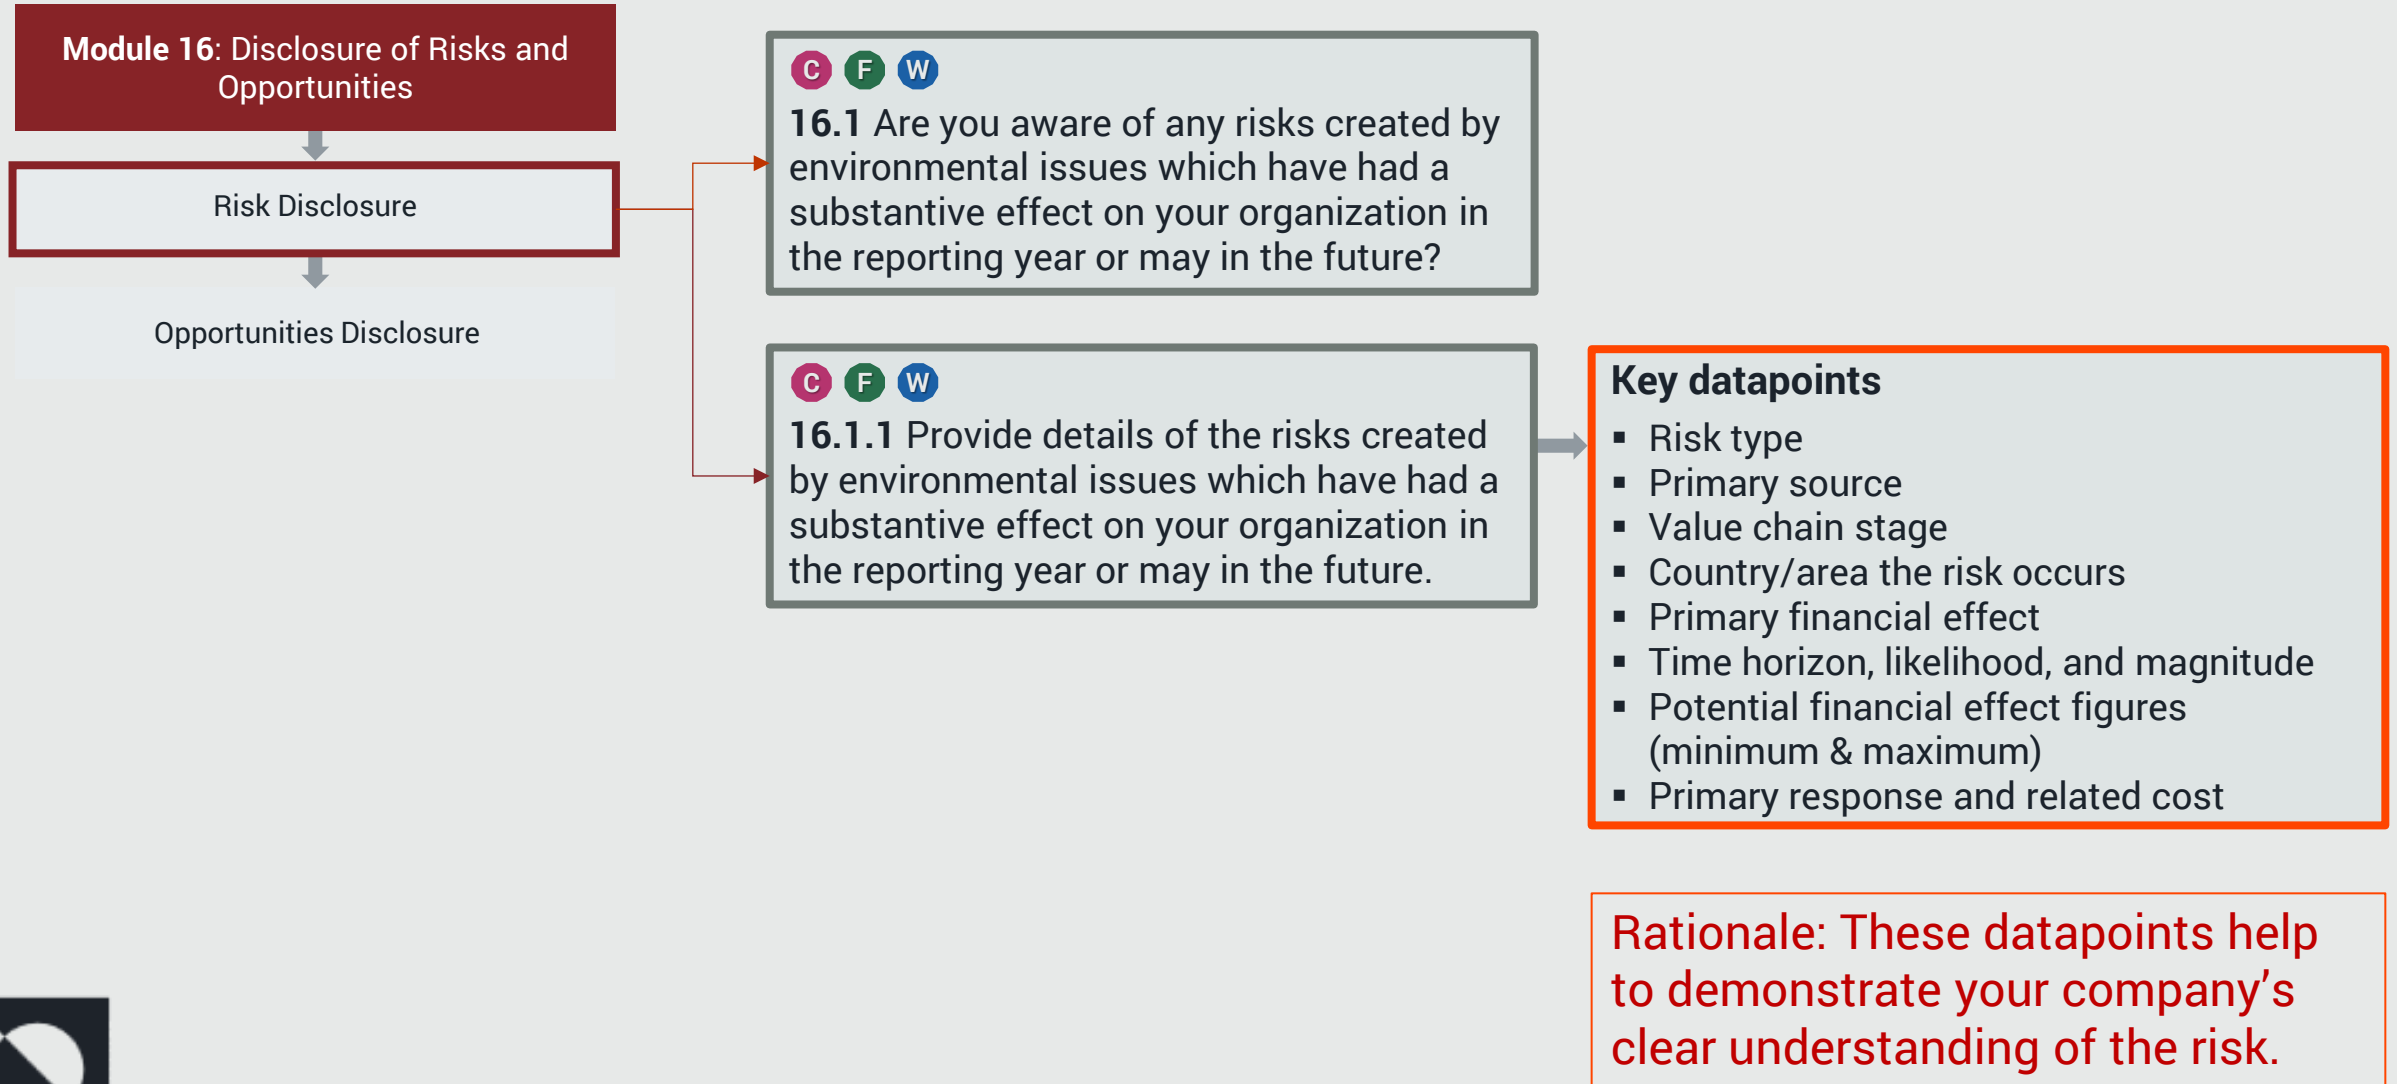

15.1 Does your organization have a process for identifying, assessing, and managing environmental risks and opportunities?

Key datapoints

- Frequency of assessment
- Please explain the process

Risk Disclosure

Opportunities Disclosure

Module Preparation

- Consult your risk manager regarding the definition and the process of identifying, assessing and managing risk and opportunity
- Even without a comprehensive risk assessment, provide details on:
 - Value chain covered
 - Risk/ opportunity type
 - Time horizon
 - Likelihood and magnitude of impact
 - Risk response
- After providing the essential information, next step is to quantify the risk impact.
 - Details are not necessary, a rough estimate would be enough

Document you may need:

- ☐ Risk register
- ☐ Organization risk management policy
- ☐ Information on emerging regulation
- ☐ Understanding on latest industry trend
- ☐ Marketing research
- ☐ Peers benchmarking analysis

The WHO

Governance Structures on Environmental Issues

Governance

What is climate governance in my company?

- Governance refers to the **board-level oversight and decision making on climate-related issues**.
- The questions in this section help to **capture governance structure and mechanisms in place**
- Data on governance is important as it provides an **indication of the importance of climate** to the organization.

Rationale:

This section is for data users to **understand your high-level approach** to climate issues at board and management level.

Environmental Policy

What is the purpose of an environmental policy?

Environmental policies

- **Foundational** governance tools to drive action
- Ensures **accountability**
- **Indication** of organization's environmental responsibility

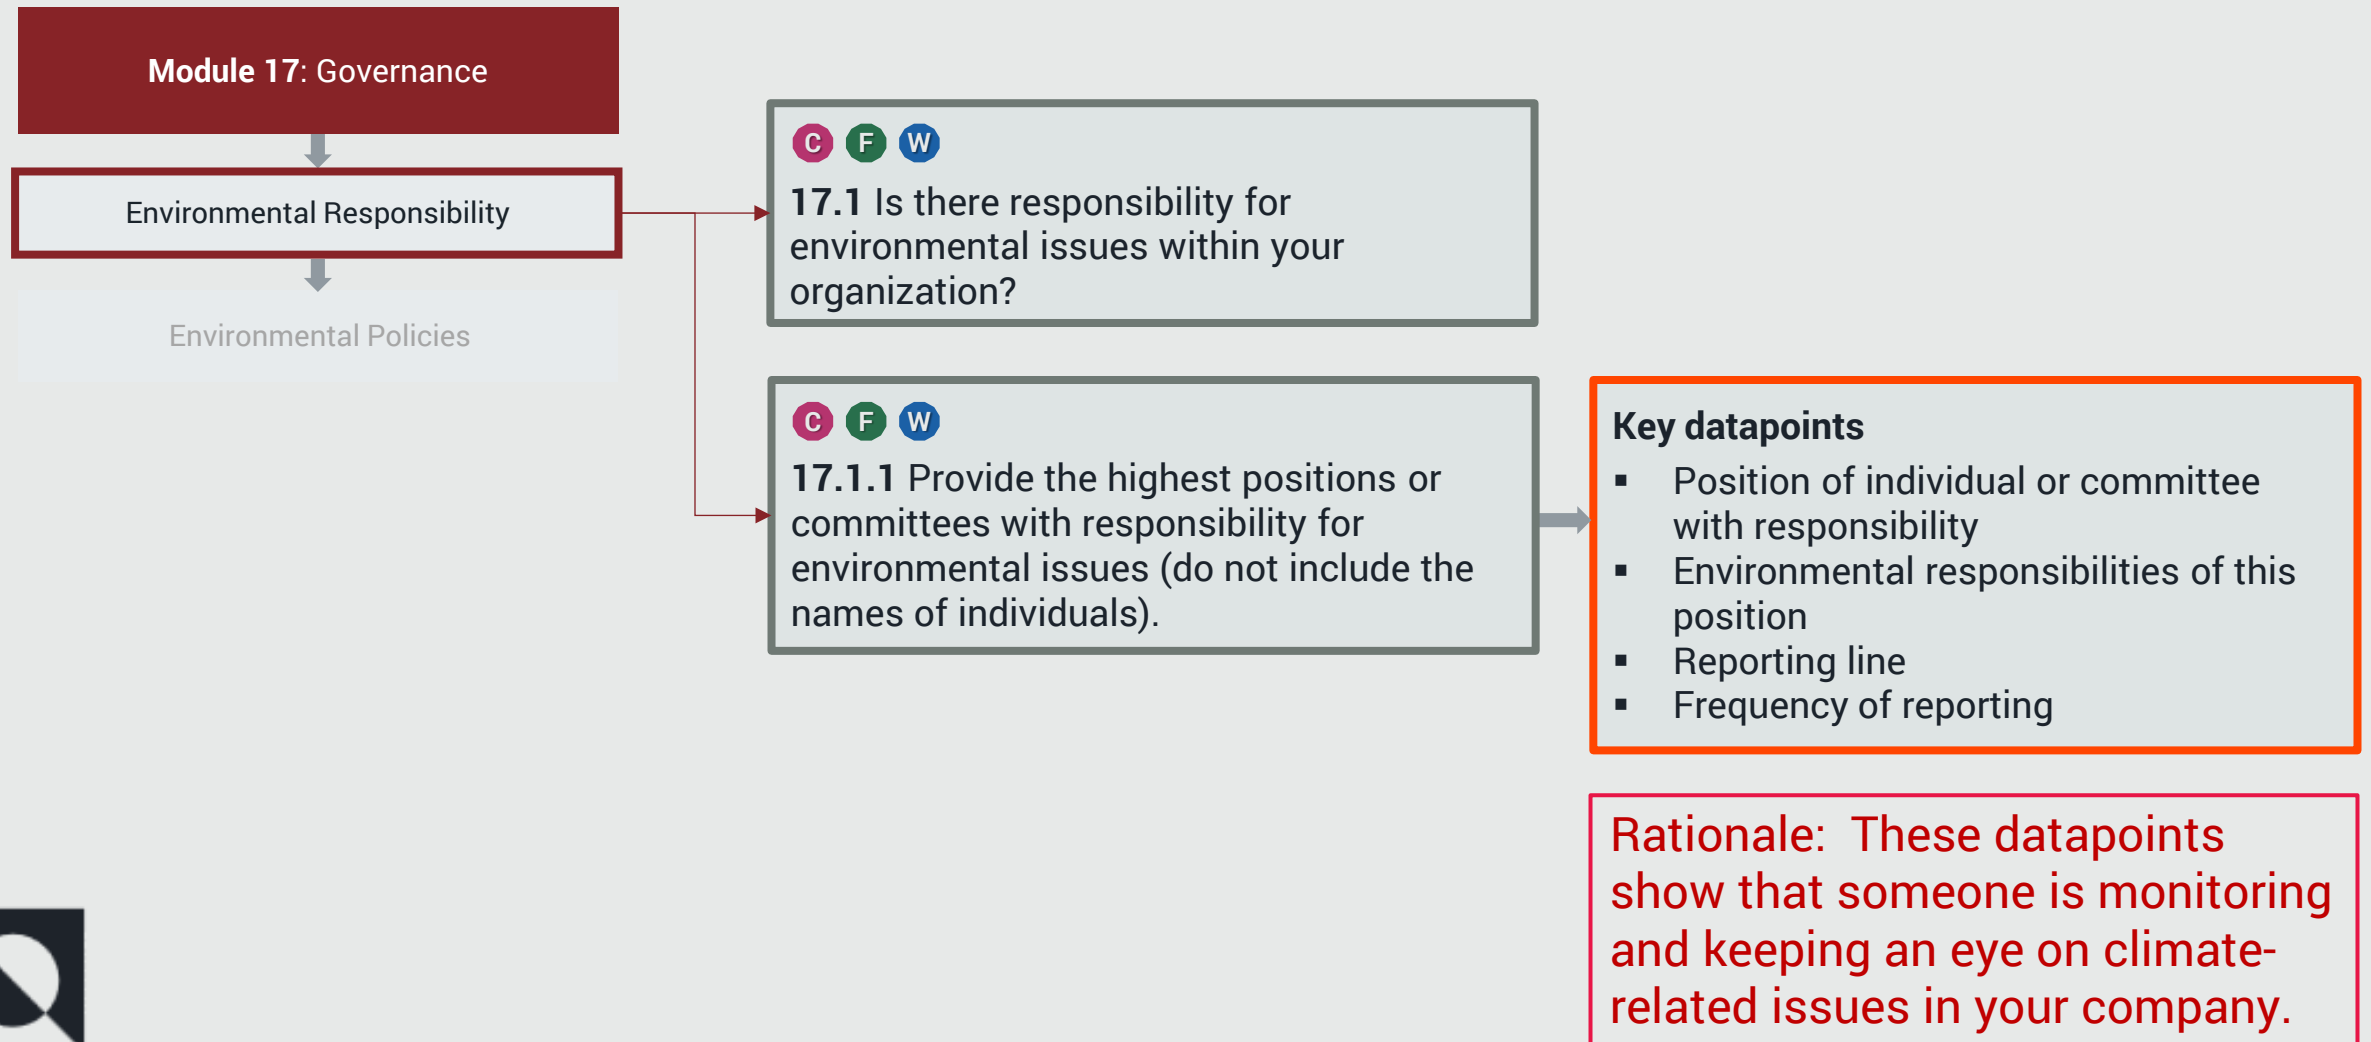

Rationale:

Environmental policies are a way for organisations to **showcase acknowledgement of risks and opportunities with environmental issues**, and the **company's intentions and directions** for action. It should be **publicly available**.

Environmental Responsibility

Environmental Policies

Module Preparation

- Specify the most senior member in your organization who is responsible for overseeing environmental issues.
 - Sometimes it could be a working committee, doesn't necessarily have to be a single person
 - Indicate the reporting line and frequency
- Environmental policy is a statement that expresses and communicates the goals and plans related to an organization's environmental performance
 - It doesn't have to be complicated, but it should include your organization's environmental commitment and be reviewed by senior management.

Document you may need:

- ☐ Organization chart
- ☐ Organization environmental policies

The HOW

Transition plans, Financial
Planning to show your actions

Climate Change Strategy

Climate Transition Plans

A climate transition plan is a sum of all your company's efforts to align your business model to a 1.5 -2.0 degree world.

It should include **the all actions the company will take**; to serve as a **mechanism for accountability and transparency**.

Financial planning

For companies that have identified your risks and opportunities with climate change, this knowledge **might influence your future financial planning**.

Value Chain Engagement

Value Chain Engagement and Action

Engaging with value chain stakeholders can be especially valuable **for sharing learnings, building expertise, enhancing risk management**, and taking action to address environmental impacts.

Examples include: education within your company; environmentally responsible sourcing with suppliers; educating customers of sustainable practices and products, etc.

Rationale: Value Chain engagement data is crucial for users to **understand how your company is dealing with Scope 3 emissions**, and an opportunity to collaborate with your value chain on climate change.

What is my value chain?

Your value chain **is the entire chain of business**, from resource extraction to the end of consumption. Current **actions typically involve Tier 1 relationships**(direct contacts) but ambitions are moving beyond that.

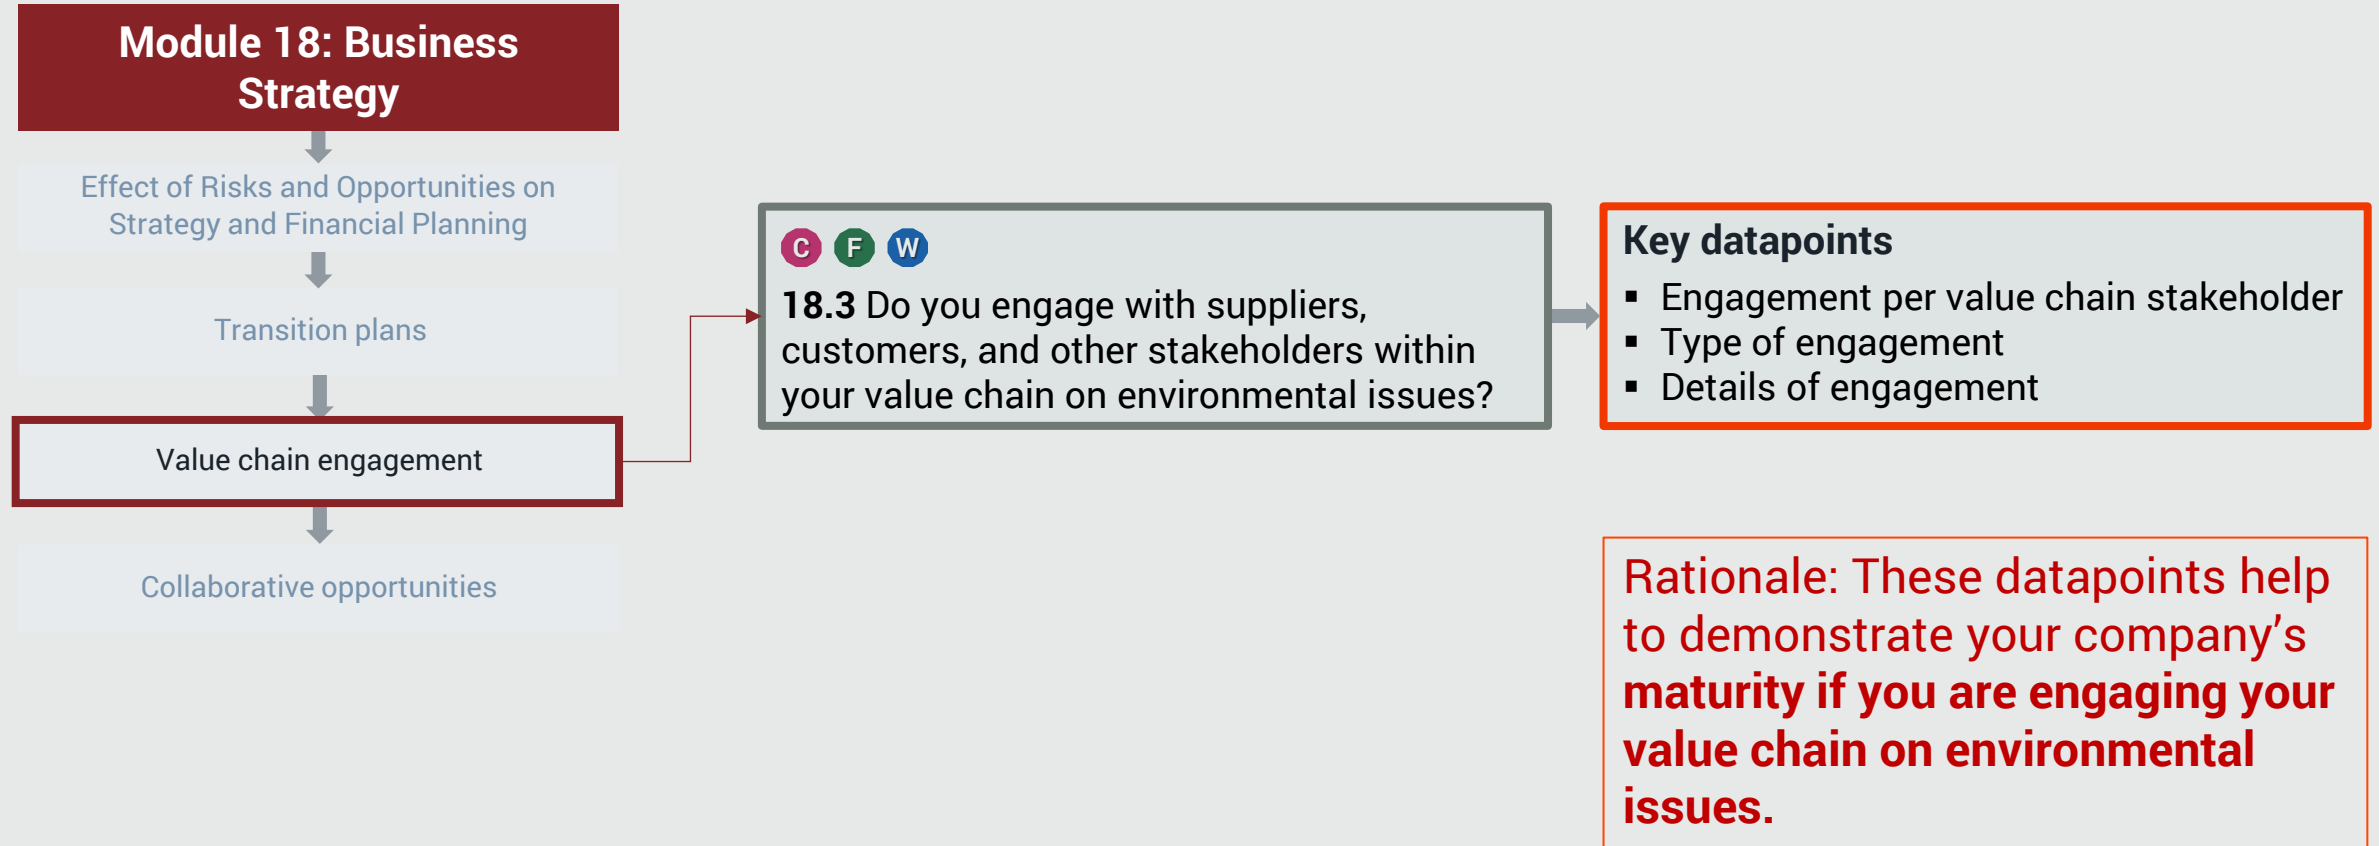

Strategy & Financial planning

Climate Transition Plans

Value Chain Engagement

Collaborative Opportunities

These are key datapoints for supply chain requested companies, as they want to look for **opportunities of collaboration.**

*If you have received a supply chain request from your customers through CDP

Module Preparation

- Emerging risk, such as new regulation could impact both organizational strategy and financial planning, so do environmental opportunities.
 - Consult management and indicate whether your strategy/ financial planning have been influenced by environmental issues
- A climate transition plan is a tool that helps organizations align their climate goals. This is accomplished by establishing specific strategies and clear accountability mechanisms to track progress. Indicate,
 - Temperature alignment
 - Whether it is publicly available
 - Feedback mechanism
- Collaborate with procurement team on value chain engagement

Document you may need:

- ☐ Risk register
- ☐ Latest information on environmental related regulations and standards
- ☐ Climate transition plan

The WHAT

Metrics And Targets
Performance indicators for
Climate Change

Emissions data – Foundation of reporting

Carbon emissions

Measuring and reporting this data is **the key measure of your company's climate impact** – direct or indirect

This is calculated **using data from company consumption data**, such as e.g. company vehicles, manufacturing processes, etc.

Rationale: Carbon Emissions is the key metric of a company's impact, the foundation and basis of climate reporting. Should be accounted by business units (if > 1).

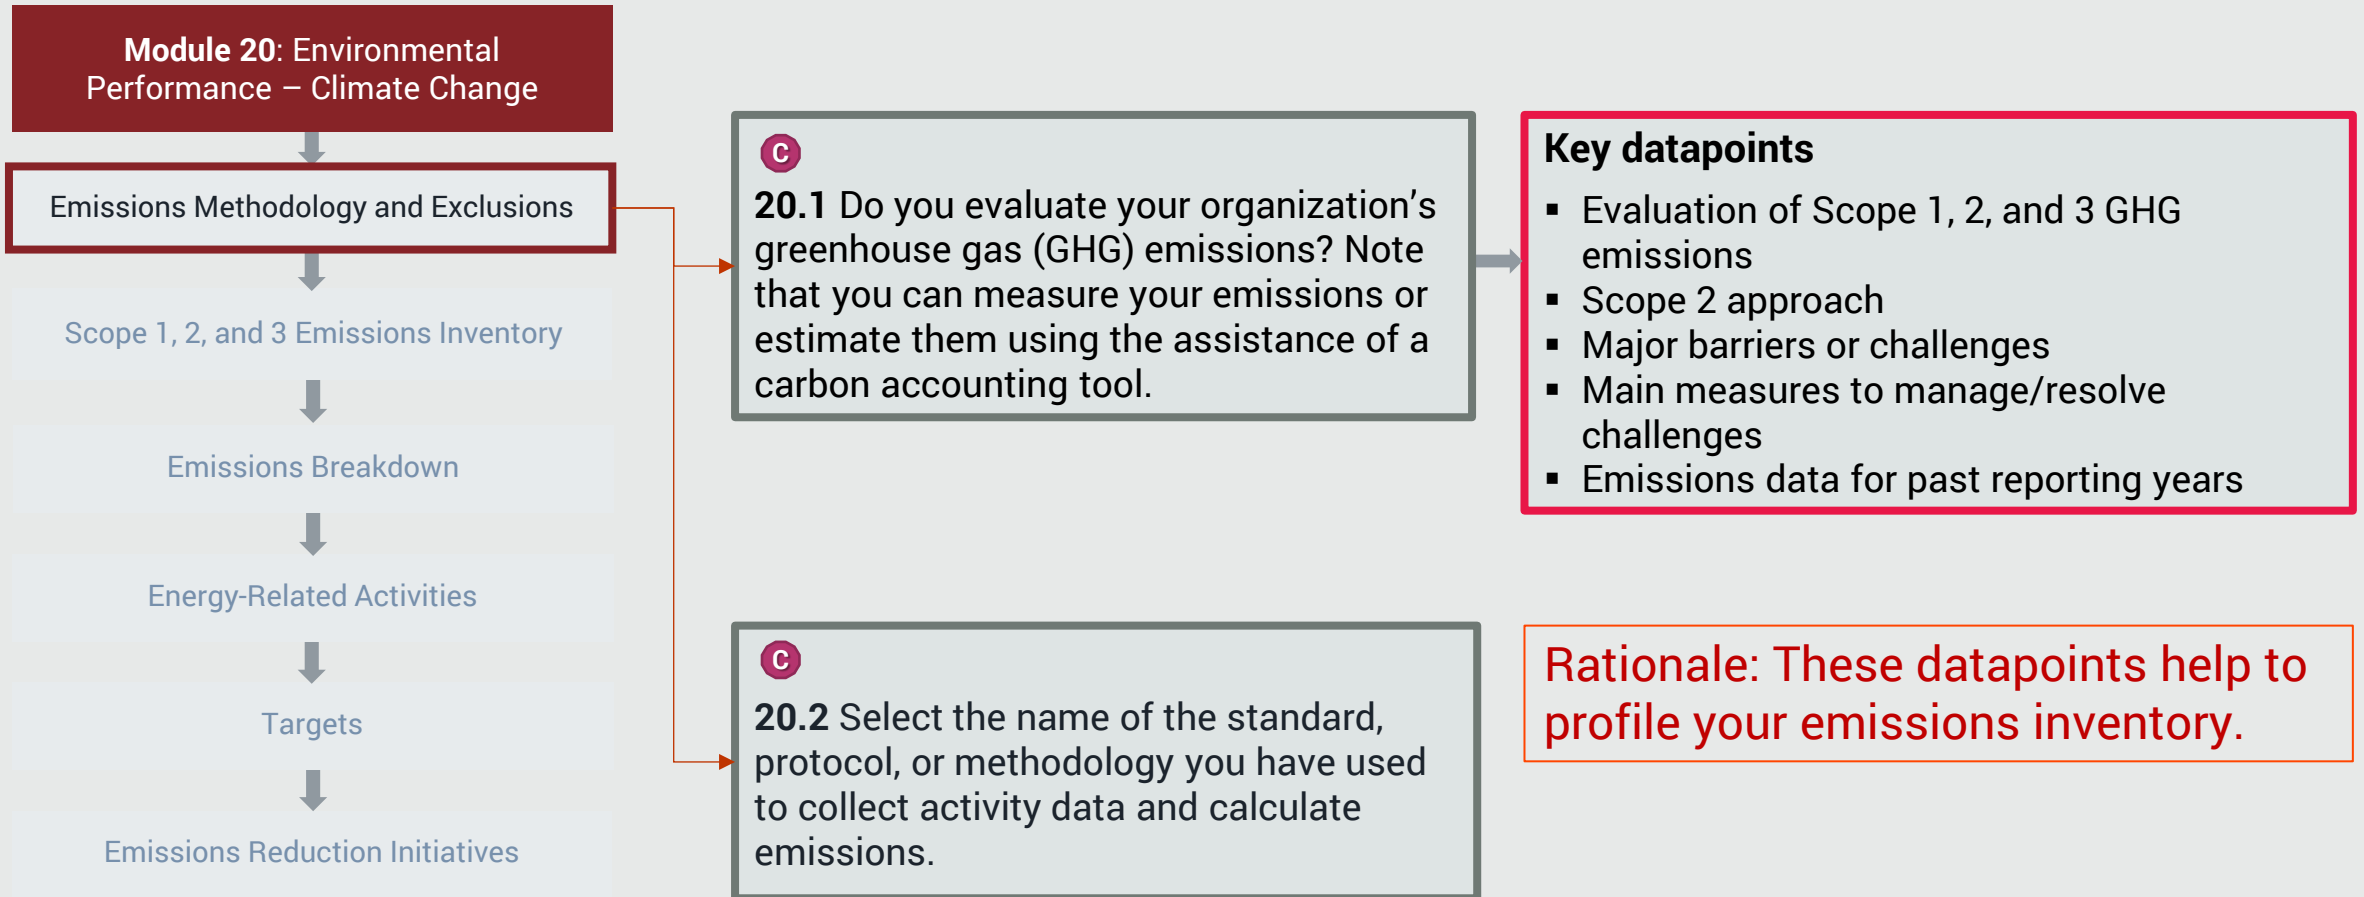

Module Preparation

- Consolidation approach identifies which entities are included within the calculation of your environmental performance data and determines which information is relevant to carbon emission disclosure
- Consult legal or accounting advisor when determining your consolidation approach
- For leasing arrangements, please see the [GHG Protocol Appendix: Categorizing GHG Emissions from Leased Assets](#) and the lease accounting standard from your relevant generally accepted accounting principles (GAAP) to determine the appropriate scope for those emissions.

Approach	Definition	GHG Accounting
Equity share	Percent ownership	% owned
Financial control	Directs financial policies to gain economic benefits	If yes: 100% If no: 0% If joint: % owned
Operational control (Most SME select this option)	Authority to introduce and implement operating policies	If yes: 100% If no 0%

Emissions Inventory & Methodology

Emissions Methodology & Exclusions

Business Carbon Calculator on SME Climate Hub

[Click here](#) to check out the
calculator

- Free to use
- Easy to navigate with step-by-step data input
- Able to calculate Scope 1, 2 and 3
- Every calculator **should specify its calculation methodology**

Module Preparation

- To start evaluating your emission, you may explore the [SME Climate Hub for tools and resources](#). Many resources are available there, including a Business Carbon Calculator (only support scope 1, scope 2 & upstream scope 3 emissions)
 - Methodology used could be found in the calculator

Copyright © Normative 2024

[Privacy policy](#)

[Cookie settings](#)

[Methodology](#)

[Contact Us](#)

[Normative.io](#)

- Scope 2 reporting approach
 - **Location-based** method considers the average emission factors for the electricity grids that provide electricity to the reporting organization (using mostly grid-average emission factor data).
 - **Market-based** method shows emissions that the company is responsible for through its purchasing decisions. It considers contractual arrangements under which the reporting organization procures power from specific suppliers or sources, such as renewable energy.
 - Option [“We are reporting a Scope 2 figure but do not know which approach was used”](#) is available

Emissions Inventory

Module Preparation

- For first-timer, you may use Business Carbon Calculator as a starting point.
 - Emission factors are extracted from government databases, academic studies, company reports, and regulatory disclosures
 - But user has no visibility on the actual number used
- To create an accurate emission inventory, it's important to create your own one
 - Step 1: Set organization boundaries
 - Step 2: Identify emission sources
 - Step 3: Collect activity data
 - Step 4: Collect emission factor
 - Step 5: Calculate emission

Document you may need:

- ☐ Activity data, for example:
 - ☐ Electricity bills
 - ☐ Company vehicle fuel consumption record
 - ☐ Employee travel record
- ☐ Emission factor

GHG Protocol

<https://ghgprotocol.org/calculation-tools>

IPCC Emission Factor Database (EFDB)

<https://www.ipcc-nggip.iges.or.jp/EFDB/main.php>

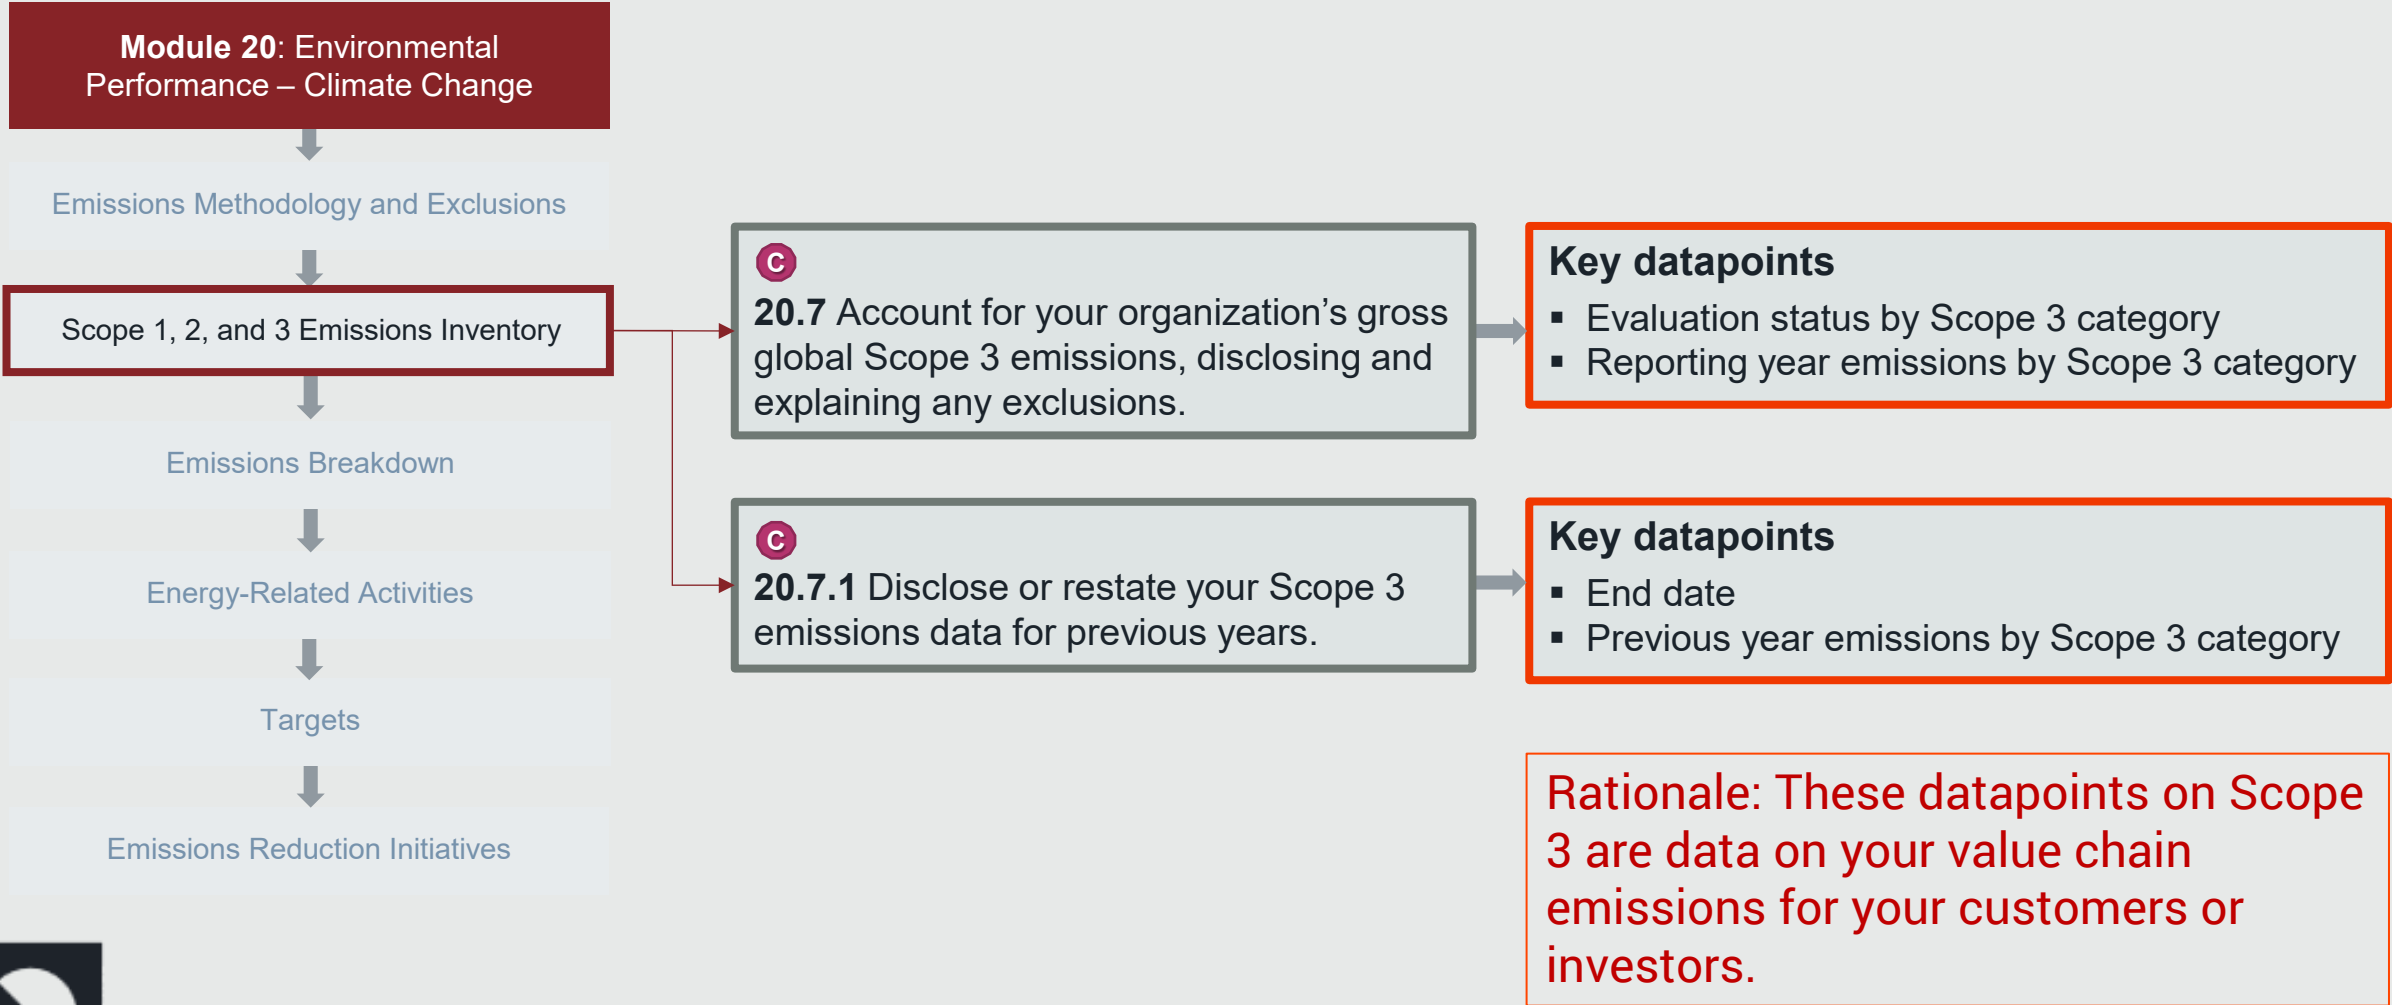

Module Preparation

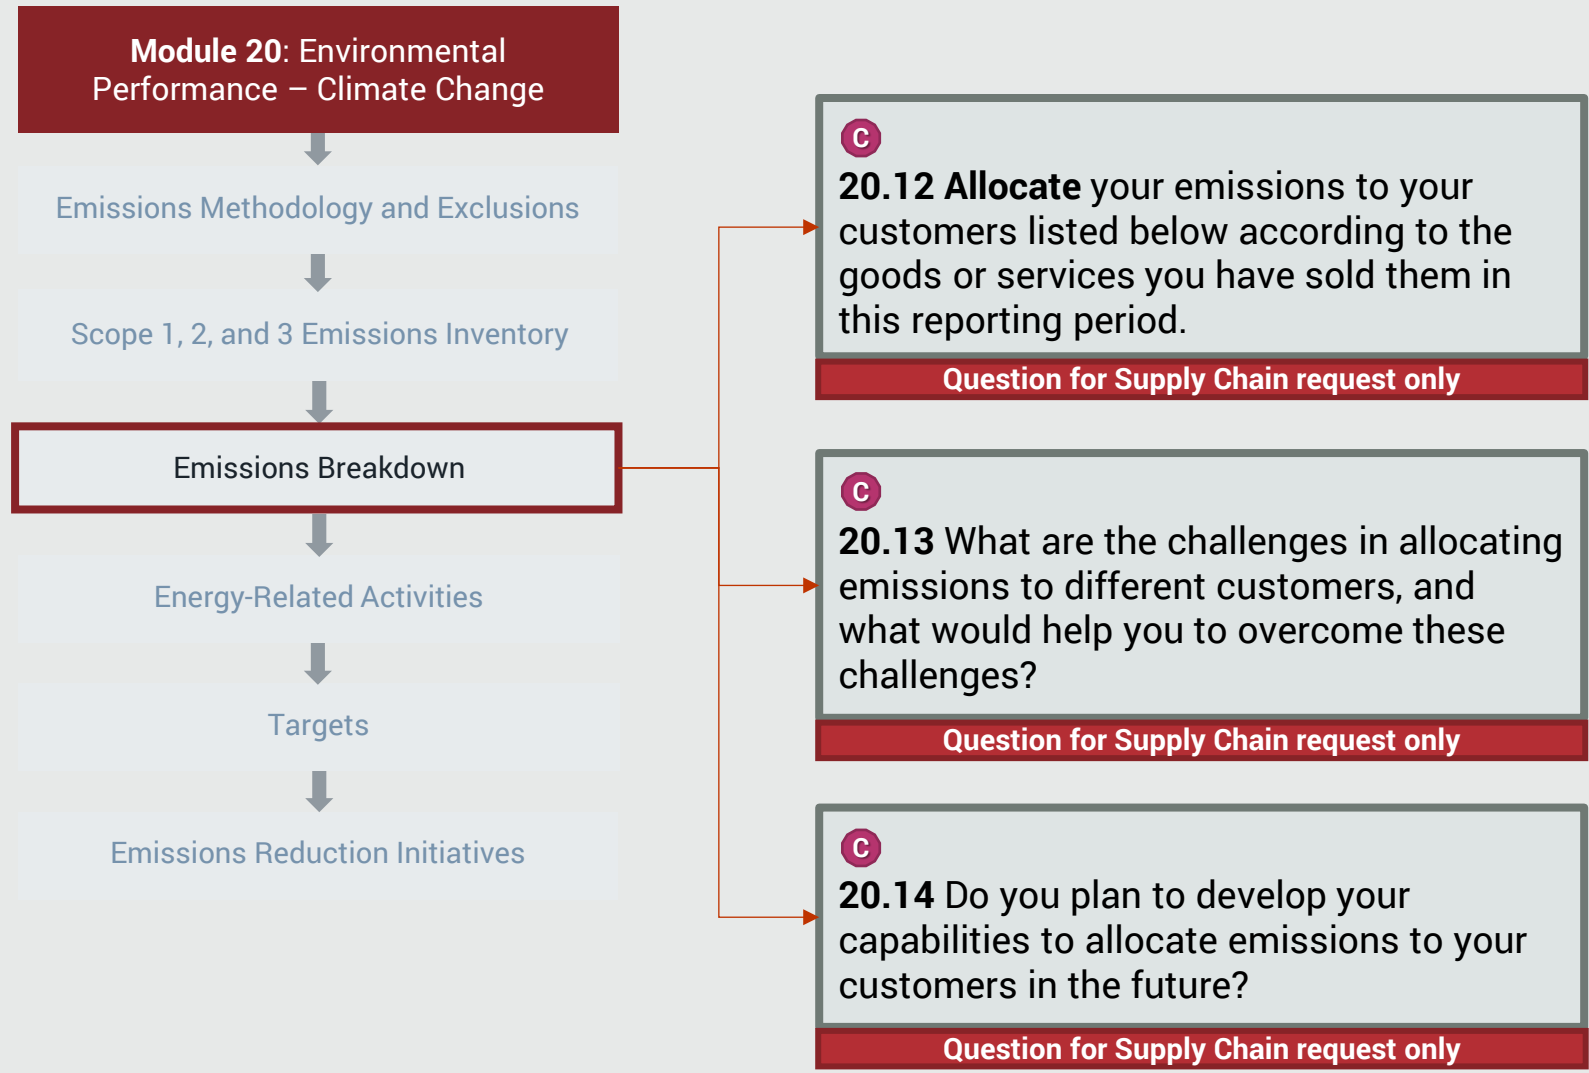

- Global Warming Potential
 - The relative warming impacts of a particular greenhouse gas
 - Used to calculate carbon dioxide equivalent (CO2e)
 - IPCC Fifth Assessment Report, 2014 - https://www.ghgprotocol.org/sites/default/files/ghgp/Global-Warming-Potential-Values%20%28Feb%2016%202016%29_1.pdf
 - IPCC Sixth Assessment Report Global Warming Potentials (small update) - <https://erce.energy/erceipccsixthassessment/>

Emissions Inventory

Emissions Breakdown

Rationale: For Supply Chain requested companies, these are key datapoints that they will need from you.

*If you have received a supply chain request from your customers through CDP

Energy-related Activities

Climate-related targets

Module Preparation

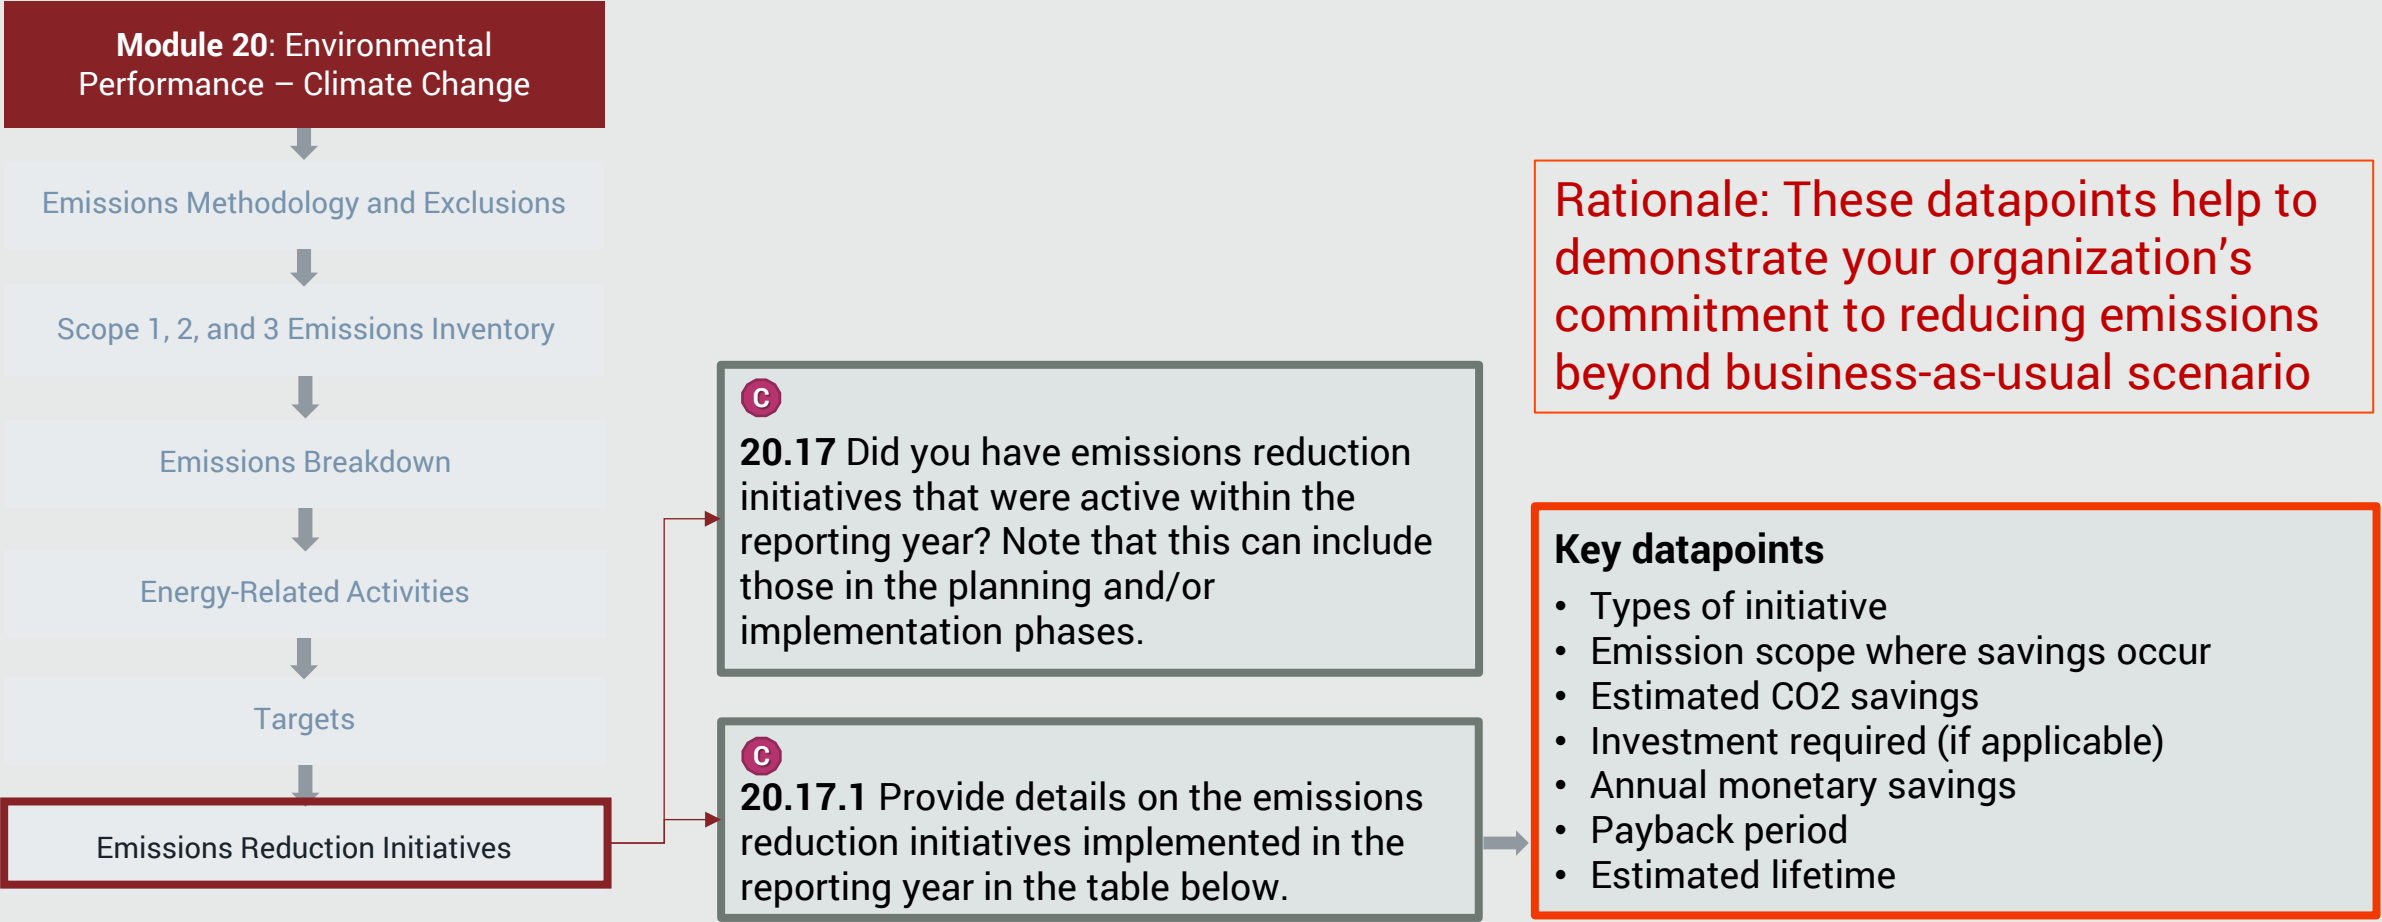

- Targets that are based on a future “business as usual” year are not equivalent to emissions reduction targets
 - It must achieve emissions reductions through comparison to a set base year in the past
- It can be either an absolute target or an intensity target. A target should include:
 - Base year, start year, target year
 - Scopes covered by target
 - Base year emission covered by target
 - Targeted reduction from base year
 - Current progress

Document you may need:

- ☐ Base year emission inventory
- ☐ Emission projection
- ☐ Emission reduction plan
- ☐ Revenue data (Intensity target)

Emission Reduction Initiatives

Questions Prioritized for All Disclosers

Action Item	Question (Full)	Question (SME)	Why do we want you to answer this question?
1. Report your Scope 1, 2 & 3 emissions, preferably verified	7.6, 7.7, 7.8 – S1-3 7.9 – Verification	20.4, 20.5, 20.7 – S1-3 20.8 - Verification	Reporting emissions is best practice and a pre-requisite to understanding and reducing negative environmental impacts. Verification ensures data quality.
2. Report on the trajectory of your Scope 1 and 2 emissions	7.10	20.9	Reporting the trajectory of your emissions is a supportive indicator for assessing your progress and benchmarking performance overtime.
3. Report your emissions intensity or allocate your emissions to your Customer	7.45, 7.26	20.12	By reporting your emissions intensity per unit of revenue or by allocating emissions relevant to your business with us, we can model our supply chain (scope 3) emissions.
4. Share product- or activity-level data with your Customer	7.73		Providing this granularity of data enables is to more accurately model our emissions and supports more complex analysis of where emissions impacts are originating from.
5. Share how your organization is engaging your value chain stakeholders, including suppliers	5.11, 5.11.2, 5.11.5	18.3	Understanding your engagement supports us in assessing your risk management practices and strategy in addressing your own scope 3 emissions.

Questions Prioritized for All Disclosers

Action Item	Question (Full)	Question (SME)	Why do we want you to answer this question?
6. Set an emission reduction target	7.53.1, 7.53.2	20.16	Setting a structured target demonstrates your commitment and level of ambition to reduce emissions. For additional resources on target setting, please refer to the <u>Science Based Targets Initiative</u> .
7. Share any other climate-related targets you've set	7.54	20.16.3	Sharing details on other climate-related targets, beyond emissions, indicates the comprehensiveness of your environmental management.
8. Report emission reduction activities	7.55.2	20.17	We are particularly interested in reducing emissions in our supply chain. Answering this question shows us the actions you are taking to reduce your emissions to meet your target, and any cost-saving benefits from these efficiencies.
9. Report on renewable energy use	7.30, 7.30.1	20.15.2	Reporting on your renewable energy use helps us to track reductions in our suppliers' emissions.
10. Suggest ways in which we can collaborate	5.12	18.4	You can suggest ways we can work together to reduce either our and/or your emissions. This collaboration could result in mutually beneficial changes.

Getting Started

Key Resources

If you are already registered with CDP:

Route 1: Email to login to myportal.cdp.net

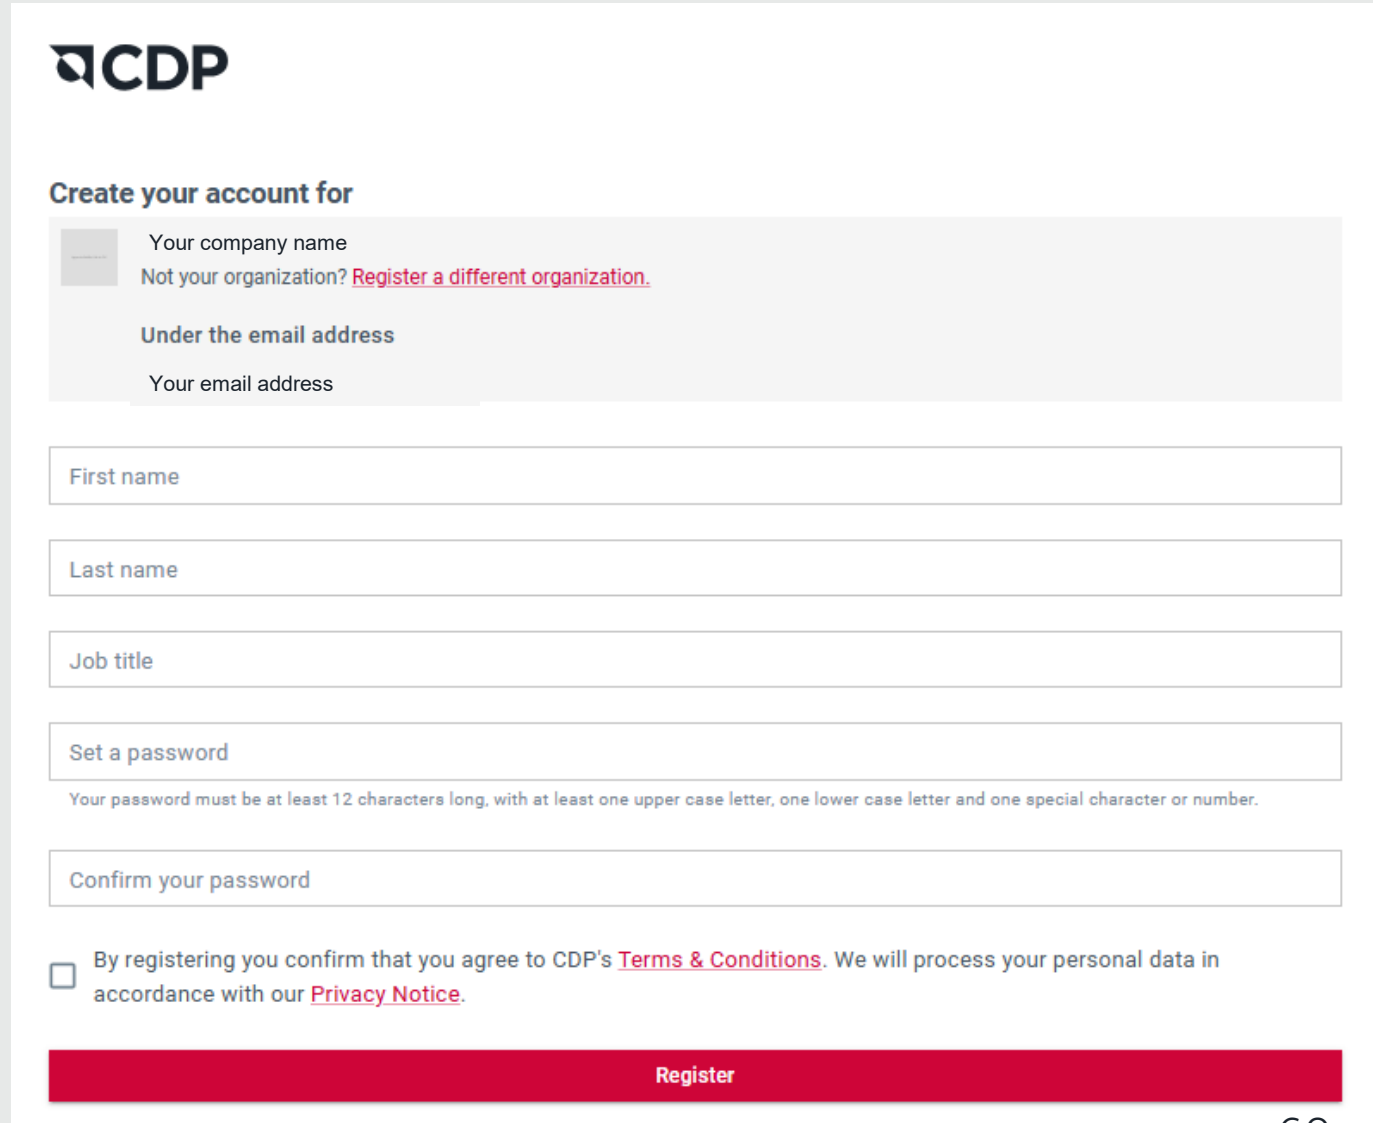

This is a screenshot of the CDP "Sign in" form. It features the CDP logo at the top, followed by the heading "Sign in". Below the heading is a text input field labeled "Email Address". Underneath the input field is a red button labeled "Continue". At the bottom of the form, there is a link for "Not a CDP user? Register" and two additional links: "Go back to Home" and "Click here for support".

To Register a contact with CDP:

Route 2: Activation Link

- You may receive a registration link from CDP or your customer to setup your username and password.
- Please ensure the **company name** and your **email address** are both correct.
- Once you submit your registration, you may login to MyPortal.cdp.net with your username (email) and password.

The image shows a registration form for CDP. At the top is the CDP logo. Below it is the heading "Create your account for". The form is divided into two main sections. The first section is for company information, with a label "Your company name" and a link "Not your organization? Register a different organization." The second section is for email information, with a label "Under the email address" and a label "Your email address". Below these are five input fields: "First name", "Last name", "Job title", "Set a password", and "Confirm your password". The "Set a password" field has a note below it: "Your password must be at least 12 characters long, with at least one upper case letter, one lower case letter and one special character or number." At the bottom of the form is a checkbox and a line of text: "By registering you confirm that you agree to CDP's Terms & Conditions. We will process your personal data in accordance with our Privacy Notice." Below this is a red button labeled "Register".

Register a Contact with CDP:

Route 3: Register to Disclose form

Register to disclose

Thank you for taking the first steps to start your disclosure through CDP.

You should complete this form if your organization is disclosing through CDP for the **first-time** and require access to the CDP Portal to start your disclosure.

If you have colleagues with access to the CDP Portal, we encourage you to contact them instead, to assist with adding you to your organization's CDP Portal account directly.

Please complete this form in English as best as you can to ensure you are accurately matched to your organization.

Please select your purpose for this registration:

My customer(s) and/or CDP Capital Market signatories have requested my organization to disclose through CDP

My organization has not been formally requested to disclose by anyone but would like to disclose through CDP independently

I am part of a City, State or Region that would like to disclose through CDP

Admin fee
All eligible organizations pay an admin fee to disclose through CDP. As a not-for-profit organization, we rely on funding from a range of sources. This fee helps us cover our costs so we can keep delivering our services at a global scale.

You must select a fee [View fee options](#)

Choose admin fee

Please choose an option for your engagement with CDP.

For over 15 years, CDP has worked to help companies and cities assess their environmental impact and take urgent action to build a truly sustainable economy.

Foundation

A basic option for organizations taking their first steps in sustainability.

(Event benefits may vary by region, confirm details with your regional office)

Benefits:

- Report through the CDP Portal.
- Use CDP's suite of tools, reporting frameworks and guidance.
- Enjoy communications opportunities resulting from disclosing through CDP.

Plus:

- Pre-paid entry or priority registration to one regional CDP event.

¥310,000 per year excluding VAT

Select

Enhanced

Our highest level of membership offers extra benefits for organizations taking a proactive approach to disclosure and improvement.

(Event benefits may vary by region, confirm details with your regional office)

Benefits:

- Report through the CDP Portal.
- Use CDP's suite of tools, reporting frameworks and guidance.
- Enjoy communications opportunities resulting from disclosing through CDP.

Plus:

- Pre-paid/priority registration for two people and company recognition at regional CDP events.
- A CDP Supporter badge for external communications.
- Your company's name listed as a CDP Supporter on CDP's website.

Questionnaire Setup

The screenshot shows the 'Set up your CDP questionnaire' page. It includes a sidebar with navigation icons, a 'Home' breadcrumb, and a main content area with a title, introductory text, a note, a list of topics, and a 'Start questionnaire setup' button.

< Home

Set up your CDP questionnaire

These introductory questions help us customize the questionnaire for your organization.

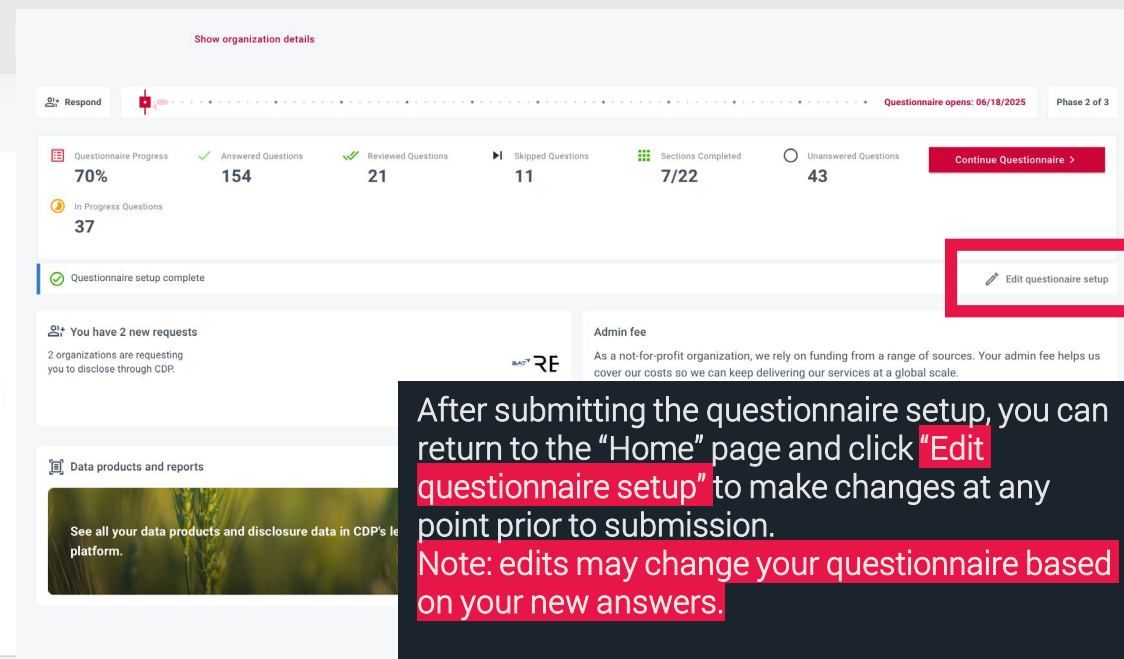

Note:

- Your answers here will not be publicly disclosed, even if you choose to make the rest of your CDP response public;
- These questions are not part of your final submission;
- You can change your answers at any time until you submit your final CDP response;
- If you change your answers, the sections in your CDP questionnaire may change too.

The questions cover the following topics. Some may not be presented to your organization:

- About your organization
- Activity classification
- Assessment of environmental issues
- Intent to submit
- Additional information

Questionnaire set-up questions

The “Questionnaire set-up” allows CDP to customize the questionnaire relevant to the reporting organizations, based on their selections.

Questionnaire set-up is made up of five different sections, including theme relevance and any sector allocation. Note that not all sections may be presented to your organization.

Section	Prompts / Questions
General information	Annual revenue (in US\$) for reporting year Staff headcount Full or SME questionnaire
Activity classification	Review or complete CDP-ACS information
Intent to submit	Request to disclose on climate change Request to disclose on additional environmental issues Intent to submit

*** Please ensure this section is completed accurately so your organization is requested to disclose on the most relevant information**

Questionnaire set-up questions

General information

This first set of questions in the 'Questionnaire setup', based on an organization's annual revenue and staff headcount, determines whether an organization is eligible to complete the full version or the SME version of the questionnaire.

Section	Prompts / Questions
General information	Annual revenue (in US\$) for reporting year Staff headcount Full or SME questionnaire
Activity classification	Review or complete CDP-ACS information
Intent to submit	Request to disclose on climate change Request to disclose on additional environmental issues Intent to submit

Questionnaire set-up questions

Activity classification

Indicate the percentage of your revenue derived per business activity (according to the CDP Activity Classification System).

- This determines that your organization is presented with the most appropriate sector- specific questions. Note that your CDP score is based on your primary questionnaire sector only
- This information is also used to determine forests and water requests according to CDP's Industry Impact Classification.

Section	Prompts / Questions
General information	Annual revenue (in US\$) for reporting year Staff headcount Full or SME questionnaire
Activity classification	Review or complete CDP-ACS information
Intent to submit	Request to disclose on climate change Request to disclose on additional environmental issues Intent to submit

Link: [The full list of classifications for CDP's Activity Classification System](#)

Questionnaire set-up questions

Intent to submit (on forests/water security)

For SME Questionnaire, there is no specific module for Water and Forest. However, There are 2 questions for Water in 16.2 and 21.3. If you would like to report these Water information, please select “YES”.

Note that companies can still opt-in to respond to forests or water on a voluntary basis. If you choose to decline in this case this will not impact your score.

Section	Prompts / Questions
General information	Annual revenue (in US\$) for reporting year Staff headcount Full or SME questionnaire
Activity classification	Review or complete CDP-ACS information
Intent to submit	Request to disclose on climate change Request to disclose on additional environmental issues Intent to submit

A background image showing three people in an office environment. On the left, a person with dark hair is seen in profile, looking towards the center. In the middle, a young man with curly blonde hair is looking down at a desk. On the right, a woman with dark hair is also looking down, holding a pen and writing on a notepad. The office has a modern feel with a desk lamp and a computer monitor visible in the background.

Any Questions?

A satellite map of a coastal region, likely the Mediterranean Sea, with a diagonal white line running from the top-left corner to the bottom-right corner. The text "Thank you!" is overlaid in large white font.

Thank you!
