

Lake Ralph Hall

Fast Facts

Located in Fannin County, the lake will benefit the local and regional economy

To be constructed, owned, operated and maintained by UTRWD

180,000 acre-feet of water can be stored in the lake (approximately 58.7 billion gallons)

Lake surface area is approximately 7,600 acres, or just under 12 square miles

A good site, with limited wetlands, a naturally deep channel, and no gas and oil wells

\$490 million dollars to build the project

54 million gallons can be withdrawn daily (on average)*

Providing recreational opportunities, such as fishing, boating and nature watching

UTRWD holds rights and owns the water — reducing dependency on others

Total project size is approximately 16,000 acres, including environmental improvement areas

32 miles (approximately) of new 54–60 inch diameter pipeline to deliver water for treatment
