Upper Trinity Receives Awards for Financial Reporting

December 13, 2023 – Lewisville, TX. Upper Trinity Regional Water District (UTRWD) is proud to announce its 23rd annual consecutive recognition with the Certificate of Achievement for Excellence in Financial Reporting. This award, presented by the Government Finance Officers Association, is a top honor in governmental accounting and financial reporting.

The Certificate of Achievement for Excellence in Financial Reporting acknowledges Upper Trinity's commitment to maintaining high standards in financial management. This accomplishment reflects the district's dedication to transparent and accountable financial practices.

Larry Patterson, Upper Trinity's Executive Director, commented on the achievement, saying, "Receiving this recognition for the 23rd consecutive year is a significant honor for UTRWD. This recognition highlights our ongoing commitment to sound financial record keeping and transparent reporting. We are proud to be consistently recognized as a leader in governmental accounting practices."

The award is a result of a thorough, blind evaluation process assessing the completeness and transparency of financial reporting. UTRWD's 23-year streak of receiving this recognition demonstrates the organization's commitment to maintaining financial integrity.

Upper Trinity's financial information can be found at <https://www.utrwd.com/about-us/financial-information>. More information about these awards can be found on the Government Finance Officers Association website at <https://www.gfoa.org/awards>.

About UTRWD

Upper Trinity is a regional water district created by the Texas Legislature in 1989 for the benefit of cities and utilities in the Denton County area. Its mandate is to develop regional plans for water services, and to provide both water and wastewater services on a wholesale basis to cities and utilities within its service area, including all of Denton County and portions of Dallas and Collin Counties. Upper Trinity is a leader in public education regarding water conservation and water quality protection, and regularly conducts programs concerning drought tolerant landscape techniques, landscape practices and more efficient water use.
