

I-Colors® Bold – redefining color *intensity* in compressed tablets

In compressed tablets, the I-Colors® Bold range delivers what classic powder colors can't. I-Colors® give intense, vibrant shades to the compressed tablets with a spotless visual appeal.

Perfect plating

The reduced particle size of I-Colors® ensures an efficient, uniform plating of the powder base with no irregular spots once compressed to tablets.

No dephasing

I-Colors® Bold particles firmly plate the powder mix and do not separate during production, transport or storage ensuring consistent product quality.

Natural alternative

Based on natural sources, the I-Colors® Bold range delivers intense powder colors and performance to rival those of synthetic lakes.

A full range of bold, natural I-Colors® for fruity, minty and fun flavors
