

Drive-through vaccination journey

When you arrive

- Please wear a mask at all times.
- Open all windows prior to vaccination
- Please remain in your vehicle.
- Please drive slowly and carefully and follow the signs.
- The vaccine is administered in your upper arm.
 - If you have chosen to receive the vaccine in your left arm, please sit on the passenger side (left side) of the vehicle.
 - If you have chosen your right arm, sit on the driver's side (right side) of the car.

1

Health Check

You will be asked if you:

- are symptomatic
- are waiting on a COVID-19 test
- are a close or casual contact of a COVID-19 case
- have visited a location of interest.

Registration

- A staff member will confirm your details.
- Please remove any jackets, jumpers or other bulky clothing items.
- You will be directed to one of ten lanes. Drive slowly until you are asked to stop.

2

3

Vaccination

A nurse will ask each person for consent to be vaccinated. They will then vaccinate everyone in the car (12 years and over) that has given consent.

Observation

- You will be directed to the observation area where you will park your car and remain for at least 15 minutes. Clinicians will monitor you for any adverse reactions.
- **Keep your doors unlocked in case of an emergency.**
- If you are feeling unwell, especially difficulty breathing, dizziness, swelling or develop a rash:
 - honk your vehicle's horn and turn your hazard lights on to indicate that you need medical help.
- You will be directed when to leave.
