DA-SDI-HDTV-UHD

12G SDI to HDMI 2.0 Converter with Looping input and Fiber output

DA-SDI-HDTV-UHD

Key Features

- Supports 12G SDI video input and loop out
- Output up to HDMI 2.0 UHD@60Hz (4:4:4)
- Optional 12G SDI fiber input via SFP
- Status LEDs
- Stereo AES and AA audio monitoring outputs
- LED audio meters for signal presence
- 12V DC with power loop to power other devices

Front View

RS-232

- Analog audio monitoring output
- AES audio monitoring output
- Audio channel selection mode
- Switch button between fiber and BNC
- 12V DC power with looping input

Rear View

- SFP cage (optional fiber output)
- 12G SDI input
- HDMI 2.0 output
