Yarn	Swift	

Experiences

9/2020 — present

Founder **Louder Minds**

Digital agency focused on creating unique digital experiences with the newest web technologies.

6/2019 — 8/2019

Front-end developer **Devign.it**

At this internship I've developed websites with HTML5, CSS3, React, Gatsby, and GSAP, focusing on user interaction and revamping older cases.

6/2018 — 8/2018

App developer **Superhero Cheesecake**

Working with React Native and discovering the possibilities of app development.

6/2017 — 8/2017

Front-end developer **A friend of mine**

With the guidance of my internship supervisor I build the foundation of planning and executing a project, eventually creating my first portfolio site.

6/2016 — 8/2016

Front-end developer **Ogilvy**

During my first internship I worked on the basics of web development. Mainly working with HTML5 and CSS3.

Extras

10/2020 — 02/2021

Teacher of Design

At my former school I got the opportunity to teach students how to dissect, understand and design websites. Further elevating my knowledge of design.
