VITAMIN SUPPORT

Is your horse on a simple ration of roughage or roughage supplemented with grains? Is your mare in the last 3 months of pregnancy, or is she lactating? Is your foal or young horse growing very fast? Is your horse's condition falling behind? Is your horse recovering? Is your horse getting older? Is your horse feeling unwell as a result of moulting? In short, could your horse use a boost of vitamins and minerals? Then find out more about Vitamin Support from the Special Care range.

Vitamin Support is a food supplement rich in vitamins, minerals and trace elements; it can be given as a complete concentrated feed or as a supplement to the concentrated feed. Vitamin Support supports health and vitality. In short; it is perfect for horses that need something extra.

- **Complete vitamin and mineral supplement** for health and vitality support.
- **OS Complex**, a complex of **Copper, Zinc** and **Manganese** for undisturbed bone growth, optimal hardening of the skeleton, and support for tendons and ligaments to ensure the movement mechanism remains healthy.

The above components work together to support the horse's health.
