

# Sport plus Mix

For top performances  
With Linamix®  
With oats

Sport plus Mix

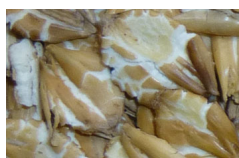

# Sport plus Mix

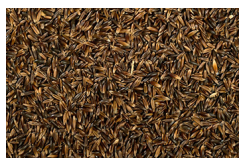

*Sports Plus Mix is a flaked mix with oats. The product was specifically developed for racehorses and competition horses. It is enriched with Linamix® and soya flakes and perfectly combines the various energy sources. This means you can support your horse without increasing its blood sugar level too much. This strengthening mix contains all the necessary vitamins, minerals and trace elements and is suitable for horses with an intensive workload.*

This flaked mix contains top quality ingredients:

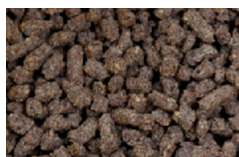

#### Flaked cereals

Flaked cereals are highly digestible further to their cooking and rolling.

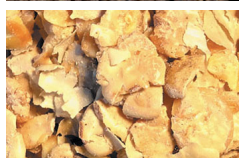

#### Whole black oat grains

Black oats are an alternative source of starch that is digested moderately and more slowly.

#### Linamix®

Extrusion based on linseed (omega-3), chicory containing inulin (probiotic), slow-release sugars (EquiSweet) and grains.

#### Soya flakes

Soya flakes contain good-quality proteins (essential amino acids). As they have been cooked and crushed, they are easy and safe to digest.

#### Slow-release sugars

EquiSweet is a healthy sugar syrup that ensures progressive and gradual energy delivery.

#### Premix

High-quality vitamins, minerals and trace elements in adequate dosage.

## INDICATIVE NUTRITIONAL VALUES

<b>UFC/kg</b>	<b>0.87</b>
<b>DE horse (MJ/kg)</b>	<b>12.03</b>
<b>DCP horse</b>	<b>10.8</b>

Selenium (mg/kg)	0.34
Iodine (mg/kg)	0.63

## HOW TO USE

To be fed at a rate of 0.7 to 1 kg per 100 kg of body weight per day. To be adjusted depending on the breed, the intensity of work and the quality of the roughage. The feed must be supplemented with good quality, free-choice roughage. The horse must always have access to clean and fresh water. Always store the feed in a cool, dry place away from light.
