

**vivera**® retainers

From the makers of **Invisalign**® aligners

Keep your patients  
smiling with  
**Vivera**® retainers.

# The choice is clear

**vivera**® retainers

**A premium, long-term retention solution from the makers of Invisalign® clear aligners.**

## Why Vivera® retainers?

Help patients maintain the beautiful smile you've created with a retention program that works for them and your practice. Vivera retainers are custom-made, with the same process used to make Invisalign clear aligners. Doctors who have used Vivera retainers are more satisfied with Vivera retainers than with other retainers.<sup>1</sup>

## The Vivera difference

From the makers of the world's most advanced clear aligner system comes Vivera—a clear retainer manufactured using the same advanced fabrication technology, which means patients get:

- ▶ Material that is at least **30% stronger** and **2x as durable** as other leading clear retainer materials<sup>2</sup>
- ▶ A **precise, smooth, comfortable** fit
- ▶ **Customization** for each patient, with features such as pontics, bite ramps, and more
- ▶ **4 retainers** per arch to protect their smile with a backup, even if a retainer is lost or damaged

## Impact on your practice

Use your valuable practice resources on higher-billable activities and leave the custom manufacturing to us. It's easy to order Vivera retainers from any ClinCheck® stage, intra-oral scan, or PVS impression. We then use our state-of-the-art technology to manufacture custom retainers and deliver them directly to your practice.

Ask your Invisalign representative how our premium 4-set retention solution could make a positive impact to your practice.

Vivera retainers work hard for your practice and your patients by keeping the smiles you created beautiful.
