

Foundation Medicine Mobile Phlebotomy

Convenient Service With No Added Cost

Foundation Medicine is pleased to offer in-home blood draws with mobile phlebotomy through our partner, ExamOne®, to support broader access to our FoundationOne®Liquid and FoundationOne®Heme tests.

Patients can request a remote blood draw for multiple reasons such as:

- ▶ You are more comfortable in the privacy of your own home
- ▶ You live far away from the hospital
- ▶ You live near an ExamOne® service center
- ▶ You are not feeling well enough to travel

Steps for Mobile Phlebotomy:

1. Your doctor places an order for one of our tests.

3. A licensed phlebotomist will come to your location, perform the blood draw, and send the sample to our lab.

2. Our Client Services team will contact you to schedule your appointment with ExamOne®.

4. Your test results will typically be available to your doctor **within two weeks** after we receive your blood sample.

Foundation Medicine offers remote blood draws in every zip code of the United States, including Alaska, Hawaii, and Puerto Rico, through a partnership with ExamOne®. You can contact our Client Services team at 888.988.3639 for help identifying the nearest location to you or to schedule your blood draw.
