THE EUROPEAN CONFEDERATION OF FLAX AND HEMP

The European Confederation of Flax and Hemp (CELC) is the only European agro-industrial organization federating all the stages of production and transformation for linen & hemp.

It is the privileged spokesperson for 10 000 European companies and oversees the fiber's development from plant to finished product.

Created in 1951, the **CELC** incites reflection, market analyses, industry concertation and strategic orientations. The confederation creates an ideal competitive environment for industry companies. Its actions, inscribed in an international context, stimulate innovation and rely on the value of these natural fibers with their proven environmental qualities.

Through its **Textile section**, it assures the promotion of the European industry in the areas of fashion and lifestyle. With its **Technical section** and *European Scientific Council*, the CELC helps its members move towards the future to discover new technical opportunities such as ecoconstruction and high-performing composite products.

The Linen Dream Lab is a showroom dedicated to creativity and to textile or technical innovations.

The Linen Dream Lab offers services to innovators in the fashion, lifestyle and design industries:

Accompaniment in creation

Aid in sourcing

Publications & Studies

Material library

Yarn & Fabric library
