OVERVIEW

The world-class Terminal 5 at Chicago O'Hare is the result of a \$26 million transformation completed in 2014 featuring an entirely new retail and dining lineup, redesigned TSA checkpoint, and cutting-edge design. Terminal 5 captures the spirit of Chicago by showcasing the city's vibrant neighborhoods, flavors, shops, art, and architecture.

Recently, the Chicago Department of Aviation completed a \$1.2 billion terminal expansion that added 350,000 square feet of terminal space and 10 gates to serve customers from new domestic carriers including Delta Air Lines and Southwest Airlines.
