FARMERS FIRST™ ATARRUS™

Biostimulant (8-0-0)

Photosynthetic Enhancer + Herbicide & Weather Stress Mitigation

What is Atarrus™?

Atarrus™ is a premium photosynthetic enhancer that mitigates the negative impact of weather and pesticide stress on crops with the assimilation of nitrogen into the plant. Atarrus delivers a blend of the 18 amino acids plants need in a concentrated peptide form, which are more consistently available and active within the plant, providing the superior plant vigor and performance needed to mitigate stress. Labeled for application on most crops and can be tank mixed in a wide variety of foliar applications such as herbicide, insecticide and fungicide passes.

What Does the FBN® Data Say?

Corn

24 Trials | 4 Years

8.1 Bu/A Average Advantage

83% Win Rate

Soybeans

25 Trials | 4 Years

7.2 Bu/A Average Advantage

88% Win Rate

How do I use Atarrus™ for Best Results?

- Apply a total of 16 oz/acre per year on any labeled crop
- Applications can be split up into multiple passes
 - Example: 8 oz/acre with herbicide followed by 8 oz/acre with fungicide
- Greatest response is likely to be under known stress events such as:
 - Spraying soybeans with PPO herbicides
 - Spraying high oil content herbicides on corn during high heat
 - Receiving off sight growth regulator drift from a neighboring field

Atarrus™ Grower Results Lyon County, MN

Post-emerge herbicide application with and without Atarrus™

Atarrus™ Grower Results

Plant recovery following misapplication of herbicide

ALWAYS READ AND FOLLOW LABEL DIRECTIONS. It is a violation of federal and state law to use any pesticide product other than in accordance with its label. The distribution, sale and use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. We do not guarantee the accuracy of any information provided on this page or which is provided by us in any form. It is your responsibility to confirm prior to purchase and use that a product is labeled for your specific purposes, including, but not limited to, your target crop or pest and its compatibility with other products in a tank mix and that the usage of a product is otherwise consistent with federal, state and local laws. We reserve the right to restrict sales on a geographic basis in our sole discretion. You must have a valid applicator license to use restricted use pesticides. Please consult your state department of agriculture for complete rules and regulations on the use of restricted use pesticides, as some products require specific record-keeping requirements.
