

MSO™ SPRAY ADJUVANT

PRODUCT BENEFITS

- Enhances wetting of the target and aids with diffusion of the active ingredients through cuticles of weeds
- Assists to help the spray mix cover a larger target surface area and slows the drying time creating more time for waxy surface penetration and improved uptake of actives
- Enhances wetting and spreading of the active ingredient on the target surface

PRODUCT SPECIFICATIONS

FORMULATION

Highly concentrated modified vegetable oil adjuvant

PACKAGING

10 L jugs (x2)

RATES

- For herbicides the higher rate is for use under adverse conditions such as dense weed population, late weed growth stage, or poor environmental conditions or with certain multiple tank mixes.
- Always refer to herbicide product labels for additional details on rate of use and mixing instructions.
- Do not exceed the recommended rate, particularly with products containing their own wetting agent
- Too much wetting agent can lead to loss of spray due to excessive run-off. Consult each product label for complete use instructions
- As this product is not registered for the control of pests in aquatic systems, DO NOT use to control aquatic pests

ALWAYS READ AND FOLLOW LABEL DIRECTIONS. We do not guarantee the accuracy of any information provided on this page or which is provided by us in any form. It is your responsibility to confirm prior to purchase and use that a product is labeled for your specific purposes (including, but not limited to, your target crop or pest, location of use and its compatibility with other products in a tank mix), and that the usage of a product is otherwise consistent with federal, provincial and local laws. We reserve the right to restrict sales on a geographic basis in our sole discretion.
