

# MAXUNITECH SULFENTRAZONE 480 SC

Contains Sulfentrazone, the active ingredient in Authority® 480.

## REGISTERED CROPS

Chickpeas, Field peas, Flax, Sunflower, Soybeans

## PACKAGING

- 4 X 3.8 L jugs

To increase the efficacy and reduce injury, the following steps should be taken into consideration:

- Do not apply to soil with an organic matter content less than 1.5% or greater than 6%.
- Do not apply to soil with a pH of 7.8 or greater.
- Do not apply in coarse textured soil (sand, loamy sand, sandy loam)
- Do not mechanically incorporate in the fall or spring.
- Do not apply to frozen soils or existing snow cover.

A moderate rainfall (or irrigation application) of 0.5-1 inch is required within 10-14 days for proper activation. If weed growth starts before activation occurs, poor control may result on emerged weeds.

## PRODUCT SPECIFICATIONS
