

FARMERS FIRST™ INHABIT P™

High-Efficiency Phosphorus Starter Fertilizer (0-50-0)

What is Inhabit P™?

Inhabit P™ is a no-salt, high-efficiency starter that provides equal yield performance using 10x less volume compared to traditional high-phosphorus starter fertilizers. Unlike conventional starter fertilizer such as 10-34-0, Inhabit P contains a unique micro-humate/carbon source complexed with phosphorus that keeps nutrients available to the plant and reduces tie-up which results in less product purchased, stored, hauled, and applied.
