

CORN POP UP 6-22-2

GUARANTEED MINIMUM ANALYSIS

Total Nitrogen (N) 6%

Available Phosphate (P_2O_5) 22%

Soluble Potash (K_2O) 2%

Zinc (Zn) 0.1% (Actual)

Humic Acid 2%

Derived from Ammonium Polyphosphate, Potassium Hydroxide, Zinc Acetate, and Humic Acid

PACKAGING

1,000 L Tote

RATE

10-20 L/Ac

TIMING

At seeding time or right before seeding.

CROPS

Corn, Cereals, Canola and Pulses (including soybeans)

TECHNOLOGY AND BENEFITS

Corn Pop Up is a starter fertilizer that goes in furrow with the seed to give it quick access to phosphorus and zinc that are essential for early plant development. It can be used with corn as well as soybeans, canola, cereals and pulses.

Corn Pop Up is a reacted liquid with a very low salt index (near zero) to ensure seed safety and formulation stability.

Corn pop up includes Zinc to help with plant growth under cool conditions, as well as Humic Acid for a better water retention, enhanced nutrient uptake, increased microbial activity, and ultimately better germination. Phosphorus content is 0.67 lbs P_2O_5 / L and product density is 1.38 Kg/L.

COMPATIBILITY

This product is designed to go in furrow with the seed, but it can be sprayed on crops to correct any phosphorus deficiencies. If you are intending to tankmix it with a pesticide, always conduct a jar test to ensure compatibility.
