FBN Direct products and services and other products distributed by FBN Direct are offered by Farmer's Business Network Canada, Inc. and are available only in provinces where Farmer's Business Network Canada, Inc. is licensed and where those products are registered for sale or use, if applicable. Not available in Quebec. Nothing contained on this page, including the prices listed should be construed as an offer for sale, or a sale of products. All products and prices are subject to change at any time and without notice. Terms and conditions apply.

ALWAYS READ AND FOLLOW LABEL DIRECTIONS. It is a violation of federal and provincial law to use any pest control product other than in accordance with its label. The distribution, sale and use of an unregistered pest control product is a violation of federal and/or provincial law and is strictly prohibited. We do not guarantee the accuracy of any information provided on this page or which is provided by us in any form. It is your responsibility to confirm prior to purchase and use that a product is labeled for your specific purposes, including, but not limited to, your target crop or pest and its compatibility with other products in a tank mix and that the usage of a product is otherwise consistent with federal, provincial and local laws. We reserve the right to restrict sales on a geographic basis in our sole discretion. You must have a valid applicator license and/or be a certified farmer, to use restricted and commercial pest control products (exceptions may apply based on province). Please consult your applicable provincial authority for complete rules and regulations on licensing, use, and recording keeping requirements of restricted and commercial pest control products.

GROUP **2 & 4** HERBICIDE

FBN® STERLING CO-PACK

Contains fluroxypyr, MCPA and florasulam, the active ingredient in Stellar®

TANK MIX ORDER:

1. Florasulam
2. Fluroxypyr
3. MCPA Ester

The Graminicide order will depend on product formulation. If it's a dry formulation, it goes into the tank before the Florasulam. If it's a liquid or EC, I would recommend it would be added right after the florasulam. Always double check WAMLEGS chart first.

W Wettable powders, flowables.

A Agitate, anti-foaming, buffering agents.

M Microcapsule suspension.

L Liquids and solubles.

E Emulsifiable concentrate.

G Glyphosate.

S Surfactant.
