## Key Crops

- > Spring Wheat
- > Winter Wheat

## Target Weeds

- > Wild Oat
- > Green Foxtail
- > Barnyardgrass
- > Redroot Pigweed

# Vasuvius<sup>TM</sup>

## HERBICIDE

Vasuvius<sup>TM</sup> Herbicide is a selective systemic pre- and post-emergent herbicide for the control of various annual grasses including wild oat, green foxtail, Italian ryegrass, windgrass, cheat, barnyardgrass, Japanese brome and broad leaf weeds including redroot pigweed, wild mustard and shepherd's purse, in spring, durum and winter wheat. Vasuvius<sup>TM</sup> Herbicide also suppresses additional grass and broadleaf weeds, including yellow foxtail, downy brome, and wild buckwheat.
