

# Compatible Controls

## for AC Ceiling Fans

### A method of control.

Our ceiling fans come with either a pull chain, wall, or handheld remote so you can change the ceiling fan's speed easily. Some of our fan controls are equipped with a dimmer and also allow you to change the direction of the fan blades to adjust for seasonal changes. Even though your ceiling fan comes with a control, there might be times when you would prefer a handheld remote over a wall control or vice versa. The below chart allows you to quickly see which control system is included with each ceiling fan model and the compatible control options (transmitter only) available for your ceiling fan, should you prefer the alternate accessory.

Fan Family	Model #	Included Control	Optional Control
 Cavelli	300040SBK	 <i>Limited Function Wall Control System</i>	 337214TR <i>Limited Function CoolTouch™ Handheld Transmitter</i>
	300040SNB

### AC Remote Controls - Key Attributes

<b>CoolTouch™ Control</b>	Stylized, intuitive, ergonomic remote design with a wireless radio frequency of up to 30 feet.							
<b>Handheld Control</b>	Similar to a TV remote, you can walk freely and adjust as needed throughout a room.							
<b>Wall Control</b>	Never lose the remote! Simply walk to the stationary wall control as you would for any hard-wired light switch.							
Fan Functionality	High Speed	Medium Speed	Low Speed	Motor On/Off	Light On/Off	Reverse Direction	Dimmable	Location Rating
Basic Function	✓	✓	✓	✓	✓		✓	Dry
Limited Function	✓	✓	✓	✓	✓		✓	Damp
Full Function	✓	✓	✓	✓	✓	✓	✓	Damp

For dimming, press and hold the light button down to achieve the desired light level. *Only applicable with integrated LED fans and LED bulbs.* Frequency uniquely pairs the remote to the fan without interference. Transmitters are Dry-rated for indoor use only.
