# UNIVERSE OF TESTING AND QUALITY

## Cross-Browser Tests

### RUN TESTS 10X FASTER

- 100s of virtual browser/OS combos + devices
- Better debugging with insights

## Mobile App Testing

### CROSS-DEVICE TESTING AT SCALE

- Real device cloud with 1,000s of Android / iOS devices
- Better debugging with insights

## Test Automation

### SCALE TESTING WITH YOUR FRAMEWORK OF CHOICE

- Cypress, Testcafe, Playwright, Puppeteer, Xcuietest, Sspresso
- Selenium, Appium, Webdriver.io

with Sauce Visual

## UI / Visual Testing

### DISCOVER VISUAL REGRESSIONS USING EXISTING TESTS

- New end-to-end visual regression testing
- Component tests

with AutonomIQ

## Low-Code

### LOW-CODE TESTING FOR SAAS APPS SUCH AS SALESFORCE

- AI/ ML platform
- Automated tests from natural language

with TestFairy

## Mobile Beta Testing

### DEVS AND QA TEST MOBILE APPS WITH REAL USERS

- App distribution
- Bug reporting
- Crash reporting

with API Fortress

## API Testing

### MODERN APPS UTILIZE APIS THAT NEED TO BE TESTED

- API testing / mocking
- Monitoring
- Load testing

with Backtrace

## Error Reporting

### APPLICATION ERROR MONITORING AND CRASH REPORTING

- Application monitoring
- Error monitoring
