BROWSERSTACK ALTERNATIVE

Why Sauce Labs?

Are you frustrated that increased investment in quality is not doing enough to eliminate bottlenecks and minimize the risk of escaped defects? You're not alone: 41% or more developer time is spent on testing apps and remediating issues rather than coding apps and shipping digital innovation faster.

Learn how to close gaps in quality by switching to Sauce Labs, the only all-in-one platform for continuous quality in big, complex test suites. With Sauce Labs, make the most of your investment in quality with proven enterprise solutions to improve DORA metrics, DevEx, and time to remediation and continuous improvement.

What do we offer?

FEATURE CATEGORIES

Why switch to Sauce Labs?

Sauce Labs accelerates testing across the SDLC with coverage you can't beat.

Enterprise-Ready

Sauce Labs' Platform for Test is a one-stop automation shop for enterprise-grade test infrastructure, observability and quality insights to efficiently optimize quality at speed and cost of quality.

Security, Compliance, and Accessibility

Sauce Labs takes security and corporate responsibility seriously by complying with the strictest data protection, privacy and accessibility regulations. Onboarding services include best practices and benchmarking support.

Web Testing

Optimize workloads across any web testing framework, including Selenium, Playwright, Cypress, WebDriver, and more. Orchestrate testing across the widest breadth of device (INTEL and ARM), OS and browser combinations.

Mobile Testing

Designed for the modern mobile test pyramid, only Sauce Labs unifies mobile app testing with crash and error reporting across the broadest range of real devices, Android emulators and iOS simulators.

Observability and Quality Management

Achieve DevOps levels of efficiency, velocity and risk management by consolidating testing on a Platform for Test. With Sauce Labs, optimize TestOps and DevEx with a shared source of real-time and historic truth.

	 Sauce Labs	 Browserstack
<p align="center">ENTERPRISE SUPPORT AND SCALABILITY</p> <p>75% of enterprises [Enterprise Strategy Group] recognize highly automated test processes as a competitive differentiator. Sauce Labs' Platform for Test is a one-stop automation shop for enterprise-grade test infrastructure, observability and quality insights to efficiently optimize quality at speed and cost of quality with a reliable source of single truth.</p>		
<p>Massive Parallel Testing and Concurrency Enterprise test speed is measured by the ability to run big, complex test suites with massive parallel testing. And then rinse and repeat without degrading performance again and again and again as needed.</p>	<p align="center">✓</p>	<p align="center">Limited</p>
<p>Flexible Capacity Transparent, simple pricing and flexible service terms allow customers to flex into additional capacity to keep pipelines flowing.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p>Enterprise Support and Optional Premium Services From optimizing test strategies with Sauce Dev Advocates to optimizing Cost of Quality with true business partnership and premium services, Sauce Labs delivers unmatched use case expertise and dedicated support in North America and Europe.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p>Onboarding and Implementation Support Whether your organization is new to Sauce Labs or you're adding new teams, Sauce Labs simplifies onboarding and handoffs with on-demand services led by DevOps and testing experts. From quality gating to improving release speed and frequency, Sauce Labs offers true enterprise partnership.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p>Dedicated Customer Success Manager and Engineering Support With true enterprise partnership, ensure that your organization's leaders stay close to Sauce Labs' product teams and corporate leadership.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p>Test Strategy Expertise With decades of experience and enterprise customers in every vertical, we know how to help. Use Sauce Labs Platform Configurator to quickly convert strategy into action.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p>Widest Breadth of Device, OS and Browser Combinations (7500+ real devices and emu/sims) Due to a lack of private real devices and integrated support for virtual devices (emulators and simulators – including ARM support), BrowserStack cannot match Sauce Labs' range of devices and OS combinations.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p>Instant-boot Simulators and Private Devices Maximize quality-at-speed without compromising security, coverage and test flakiness by centralizing highly stable on-demand test environments for any team, anywhere. Eliminate latency for highly secure ephemeral testing.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p>Flexible Test Environments Sauce Orchestrate and a unified platform make it easy to centralize quality management across all test environments, ensuring high stability, performance, availability and cost efficiency.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p align="center">SECURITY AND COMPLIANCE</p> <p>Sauce Labs takes security and corporate responsibility seriously by complying with the strictest data protection, privacy and accessibility regulations. Only Sauce Labs includes complete test security onboarding and strategy support to ensure best practices and proper benchmarking.</p>		
<p>SOC 2 Type II Sauce Labs protects test data with internal security controls and systems that maintain the highest levels of operational effectiveness across Sauce Labs cloud services.</p>	<p align="center">✓</p>	<p align="center">✓</p>
<p>ISO 27001 and ISO 27701 Sauce Labs takes security seriously by taking every step to protect data security and privacy, including showing security posture for audited compliance with global policies that include GDPR.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p>KY3P Compliance DevOps and security leaders increasingly recognize the need to Know Your 3rd-Party (KY3P) vendors. Sauce Labs is KY3P compliant.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p>Proxy Tunneling Sauce Labs' high-availability tunnels support massive parallelism and concurrency, minimizing the number of tunnels needed for big, complex test suites.</p>	<p align="center">✓</p>	<p align="center">Limited</p>
<p>Quality Gating and Limitless Bursting Sauce Labs is trusted to gate quality for the most valuable digital portfolios. Only Sauce Labs delivers the highest levels of confidence across quality at speed and cost of quality.</p>	<p align="center">✓</p>	<p align="center">Limited</p>
<p align="center">WEB TESTING</p> <p>Sauce Labs' founders invented modern web test automation with the Selenium framework. After automating 7+ billion tests, Sauce Labs now optimizes any web testing framework, including Playwright, Cypress, WebDriver, and more. Orchestrate any type of web testing across the widest breadth of device (INTEL and ARM), OS and browser combinations..</p>		
<p>Live and Automated Testing As a true Platform for Test, Sauce Labs simplifies test orchestration and management with good DevEx across all manual (live) and automated testing.</p>	<p align="center">✓</p>	<p align="center">✓</p>
<p>Visual Testing (Web) Inject Sauce Visual Testing with just one line of code--and rinse and repeat as-needed across multiple projects, users and teams. Get 2X or more snapshots for diff analysis at half the cost of competitors.</p>	<p align="center">✓</p>	<p align="center">✓</p>
<p>Low-code Testing with Self-Healing Sauce Labs' integration with Eggplant and other partners provides a great experience with true test script self-healing and maintenance.</p>	<p align="center">✓</p>	<p align="center">Limited</p>
<p>Accessibility Testing Sauce Labs integrates with Deque axe™ in a trusted partnership. In early 2024, BrowserStack was sued by Deque for alleged IP theft (lawsuit).</p>	<p align="center">✓</p>	<p align="center">Unknown</p>
<p>ARM Support for Real Devices and Emu/Sim With the most complete mix of devices, Sauce Labs helps enterprises confidently transition to ARM testing to ensure flawless experiences on every platform.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p>Electron Desktop App Testing (Beta) Sauce Labs natively supports automated testing of Electron desktop apps.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p align="center">MOBILE TESTING</p> <p>From the creators of Selenium and Appium, Sauce Labs unifies web and mobile testing (live and automated) for breakthrough efficiencies and scalability. Designed for the modern mobile test pyramid, only Sauce Labs unifies mobile app testing with crash and error reporting across the broadest range of real devices, Android emulators and iOS simulators.</p>		
<p>Private Real Devices Private devices support advanced use cases and team management. Capture real-world scenarios from SIM-enabled Android and iOS devices, including talkback, Apple Pay, MDM, password locks, and more.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p>Live and Automated Mobile Testing with Emu/Sim Mobile teams can flexibly provision the right blend of test infrastructure and test applications to optimize any type of testing in the modern mobile test pyramid. Efficiently orchestrate real devices and mobile Emu/Sims for on-demand testing (instant-boot sims and private devices).</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p>Visual Testing (Mobile) Inject Sauce Visual Testing with just one line of code--and rinse and repeat as-needed across multiple projects, users and teams. Get 2X or more snapshots for diff analysis at half the cost of competitors</p>	<p align="center">✓</p>	<p align="center">✓</p>
<p>Accessibility Testing Sauce Labs integrates with Deque axe™ in a trusted partnership. In early 2024, BrowserStack was sued by Deque for alleged IP theft (lawsuit).</p>	<p align="center">✓</p>	<p align="center">Unknown</p>
<p>Mobile App Diagnostics Accelerate root cause analysis, diagnosis, and triage of mobile app errors. Streamline remediation and improve Mean Time to Recovery (MTTR). Combine with AI-augmented Insights (with observability extending into production) to better isolate and prevent mobile app crashes and error patterns.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p align="center">OBSERVABILITY AND QUALITY MANAGEMENT</p> <p>Enterprises achieve DevOps levels of efficiency, velocity and risk management by consolidating testing on a Platform for Test. With Sauce Labs, data moves dynamically and securely between services and integrations to optimize TestOps and DevEx with a shared source of real-time and historic truth.</p>		
<p>Debugging and Intelligent Insights Unified visibility across emulators, simulators and real devices allows you to spot global failure patterns and optimize your testing. Sauce Labs demo.</p>	<p align="center">✓</p>	<p align="center">Limited</p>
<p>Crash and Error Reporting Sauce Labs logs, groups (by similarity) and prioritizes (by severity) crashes and errors, enabling teams to align and accelerate MTTR and improve DORA metrics.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p>Test Case Management Sauce Labs integrates with TestRail for enterprise-grade test case management and requirements traceability. BrowserStack's solution was just released, and is not as robust.</p>	<p align="center">✓</p>	<p align="center">Limited</p>
<p>Test Orchestration Optimize CI/CD pipelines for greater efficiency, and bring any test environment to Sauce Labs for greater speed, scalability and QA and performance insights.</p>	<p align="center">✓</p>	<p align="center">✗</p>
<p>CDP Support Natively support Playwright tests in the UI. Extend Selenium-4 and WebDriverIO with new test and debug efficiencies, including log or event-based testing. Grab full-page screenshots for visual and UI testing and more.</p>	<p align="center">✓</p>	<p align="center">✓</p>
<p align="center">ADDITIONAL FEATURES</p>		
<p>Appium Inspector</p>	<p align="center">✓</p>	<p align="center">✓</p>
<p>Logs</p>	<p align="center">✓</p>	<p align="center">✓</p>
<p>Session Record</p>	<p align="center">✓</p>	<p align="center">✓</p>
<p>GPS</p>	<p align="center">✓</p>	<p align="center">✓</p>
<p>Geolocation Mocking</p>	<p align="center">✓</p>	<p align="center">✗</p>

<p>Test on Multiple Devices Side-by-Side</p>	<p align="center">✓</p>	<p align="center">✓</p>

One Continuous Quality Platform for All Teams

Continuous Quality. Simplified.

For Developers and QE Teams

- **Better Coverage and Confidence**

Scale testing with massive parallelism and concurrency in high-availability, secure tunnels.

- **Faster Time to Remediation**

Optimize DevEx with efficient troubleshooting and debugging. Reduce dev effort to ship faster, more frequently.

- **Support and Community**

Ask us anything—from optimizing web and mobile testing use cases to benchmarking the right test pyramid strategy for your needs.

- **Crash and Error Reporting**

Accelerate testing and debugging with detailed error reporting. Find, prioritize, and remediate issues faster. Minimize the risk of escaped defects.

One Continuous Quality Platform for All Teams

Continuous Improvement. Effective.

For Web and Mobile Team Leaders

- **Continuous Improvement**
Get quality insights throughout the SDLC (including production) to predict, fix and prevent escaped defects.
- **Stable Delivery Pipelines**
Understand failure patterns to minimize the risk of bottlenecks. Optimize quality at speed and cost of quality.
- **Failure Pattern Analysis**
Pinpoint what's wrong with tests, teams and pipelines, and make data-driven decisions to remediate quickly.
- **Optimizing Cost of Quality:** Not all test cases require testing with real devices. Flexibly provision real devices and emu/sims as-needed per project. Control the costs of mobile testing and ensure sufficient coverage.

One Continuous Quality Platform for All Teams

Corporate Responsibility. Customer-first.

For Enterprise and CX Leaders

2024 Winner

Sauce Labs

- **Risk Management**
Partner with Sauce Labs in North America and Europe, and accelerate journeys to continuous quality and rapid digital innovation.
- **Cost of Quality**
Maximize the efficiency of test infrastructure for modern testing pyramids. Scale testing with benchmarking confidence.
- **Enterprise-ready Platform**
Sauce Labs is recognized by organizations including IDC and DeveloperWeek as a worldwide leader in mobile and DevOps testing, as well as a leader in digital quality and quality management.
- **Ship more features, faster**
Massive parallel testing translates into highly efficient test sprints. Expand project scope and turn testing into a primary competitive differentiator.
- **Transform ROI - Minimize the Risk of Escaped Defects**
The world's largest banks, retailers, software companies, financial organizations and media/entertainment companies trust their digital innovation and business risk management to Sauce Labs—a business partner for DevOps and quality gating.
