digital sk://up

Emerging technologies impact our lives and careers every day. The more you understand their influence, the more you can use them to your advantage, now and in the future. Technological solutions like **artificial intelligence (AI), internet of things (IoT), blockchain, big data, robotics, and augmented/virtual reality (AR/VR)** come with many benefits for our society and economy:

FOR CITIZENS

- Easy access to services
- Staying connected with others
- Better quality of life

FOR THE WORKFORCE

- New job opportunities and future-proof careers
- More time for creative, high-value activities
- Remote work

FOR BUSINESSES

- Innovative products and services
- Increased efficiency
- New business models

...and many more.

Digital SkillUp makes learning about emerging technologies **easy, accessible and engaging** for all European citizens and SMEs.

As a part of the Digital Skills & Jobs Platform's learning pillar, it offers:

1 **3 online courses in 10 EU languages,** covering
- Digital revolution
- Emerging technologies (IoT, robotics, AR/VR)
- Cybersecurity

2 **Extensive Training Course Catalogue** with plenty of high-quality courses on digital skills and emerging technologies available in one place

3 **Dedicated community space** for networking and sharing good practices, in collaboration with the Digital Skills and Jobs Platform initiative

Prepare for the future.
Kick-start your Digital SkillUp journey today.
