

PRODUCT INFORMATION

CSA Z614

The Rope and Log is a simple balancing, natural playground element. Children can imagine traversing a river or tightrope walking in a circus. The Rope and Log Post and Rope play element will increase core strength as children practice 'balancing' while holding onto a flexible rope.

Maximum height: 3 m
 Fall height: 510 mm
 Area of Safety Surfacing: 30.5 m²

The highest designated play surface and space required are according to CSA Z614. A buffer is included in the fall zone to account for fabrication and material variations.

Resilient safety surfacing is required within the fall zone of equipment.

If you have questions about the equipment or require changes, please contact Earthscape at 1-877-269-2972.
