

PRODUCT INFORMATION

CSA Z614

The Log Tower 3 is a fantastic playground tower addition to any natural playground. As a playground structure, it is fully transparent. This piece of playground equipment gives the unusual sense of suspension at heights. Children who have climbed to the top level are rewarded with a fun and fast exit down the 3m slide.

Maximum height: 7.29 m
 Fall height: 3.07 m
 Area of Safety Surfacing: Varies based on configurations

The highest designated play surface and space required are according to CSA Z614. A buffer is included in the fall zone to account for fabrication and material variations.

Resilient safety surfacing is required within the fall zone of equipment.

If you have questions about the equipment or require changes, please contact Earthscape at 1-877-269-2972.
