

PRODUCT INFORMATION

CSA Z614

Log Jam L8 provides a sense of enclosure to children who crawl underneath but also gives the challenge of scaling something big and complex as they climb toward the pinnacle at the centrepoint. Children can climb as high as they feel comfortable and may take notice of how other children are navigating the random log beams.

Maximum height: 2.6 m
Fall height: 2.6 m
Area of Safety Surfacing: 92.2 m²

The highest designated play surface and space required are according to CSA Z614. A buffer is included in the fall zone to account for fabrication and material variations.

Resilient safety surfacing is required within the fall zone of equipment.

If you have questions about the equipment or require changes, please contact Earthscape at 1-877-269-2972.
